SPIES IN EVIDENCE.

Paid Men Dog the Steps of Everyone Connected With the Haywood Case. (By Publishers' Press.) BOISE, Idaho, May 18.—The most prominent feature about the Haywood trial today is the espionage system comparable to that of darkest Russia and which may eventually precipitate trouble. It is said that spies dog the footsteps of everyone in any way connected with the case. Incensed men are threatening vengeance on their persecutors.

The result of Attorney Hawley's statement that Jack Simpkins, former organizer of the Western Federation of Miners, is sure to be tried with Haywood, Moyer and Pettibone, for Steunenberg's murder has been to cause much speculation as to his whereabouts. Simpkins' whereabouts are unknown, both sides refusing to say anything regarding him.

The Creation Given In Splendid Manner

First Concert of Winston-Salem Music Festival Attracts Large Audience—"Te Deum" Tonight.

A fitting dedication of the Alumnae Memorial Hall was the presentation on last evening of Haydn's grand oratorio, "The Creation."

This was given first in Salem in the summer of 1825 and has been presented many times since but the concert last night surpassed all previous efforts. Long before the hour for the concert to begin the auditorium began to fill, and soon every available chair was taken, parties having come from Greensboro and other cities to enjoy this great musical treat.

The grand concert began with Bishop Bechler's choral, "Sing Hallelujah," which was joined in by the immense audience, all standing. Then followed the presentation of Haydn's grand oratorio—"The Creation." This is told briefly by three angels, Gabriel, Uriel and Raphael, Mrs. Grace Bonner Williams, of Boston, taking the part of Gabriel; Mr. John Young, of New York, that of Uriel, while Rev. Kenneth Pfohl represented Raphael.

The creation of every living thing is told in the first and second parts, the creation of man being the climax, while in the third part a glimpse of Paradise, before the fall of man, is given. A grand outburst of music from the heavenly hosts celebrates the close of each day.

From the very first moment, when the musicians' fingers swept the strings of the different instruments, as Prof. Storer waved his baton, all felt that a master musician was directing the orchestra and that skilled performers were taking the different parts. In perfect unison were the hundred voices and the orchestra of twenty-eight pieces.

The soloists won repeated applause, each one being an artist of unusual attainments. Mrs. Grace Bonner Williams, who won the hearts of music-lovers during her presence in our city last year, when she completely captured her hearers, added fresh laurels last night.

WASHINGTON, May 18.—President Roosevelt has been presented with a solid gold folding card, conferring on him life membership in the National Association of professional baseball leagues, with the privilege of admission to all games played by the clubs comprising the association.

The card is of the size of the regulation baseball ticket, and has the President's photograph engraved in enameled gold. The President expressed his warm thanks, and said he regarded the game of baseball as the typical American outdoor sport; that he was particularly interested in it because men of middle age could participate in it, and that the game always had his good wishes, as had every other outdoor sport.

to those already won. Her voice is clear and sweet, the highest notes being reached without any difficulty; while her personality is very attractive. Nature having been lavish with her gifts, having endowed her both with beauty and talent. From the time of her entrance on the stage as Gabriel, and at each appearance, she was greeted with liberal applause. When she describes so graphically the "Creation of the birds," imagines that the rustling of their wings can be heard. Then, when she sang: "From every bush and grove resound The nightingale's delightful notes" she vied well with that queen of song, while no dove ever called in more cooling notes to its mate than did this gifted singer. Indeed, Mrs. Williams' voice is magnificent, full of expression. She interpreted exquisitely Gabriel.

Mr. John Young, the noted New York tenor, was superb. He threw his whole soul into the portrayal of his character. His interpretation of the creation of man was masterly. He was repeatedly encored and quickly became a favorite with the audience.

Rev. J. Kenneth Pfohl has a fine bass voice and made an excellent Raphael, dividing well the honors with the others. In his recitative, when the cattle, insects and beasts are created, the orchestral accompaniment was speaking, the buzzing of the insects even could be distinctly heard. Mr. Pfohl has a warm place in the hearts of music lovers and scores of admirers, who attested their appreciation by hearty applause.

The chorus work was thrilling, especially "The heavens are telling the glory of God," and the final chorus, which was magnificent.

Assisting local talent, were Messrs. Roy and Lahser, of Greensboro, fustist and violinist; Mr. Woodruff, of Mt. Airy, violinist, and Dr. Charles Turner, of Statesville, cellist.

Miss Ivey Nicewonger, organist, and Miss Rosa Deane, pianist, were excellent.

Indeed, "The Creation" was given in a most masterly manner, a credit to any community and a source of pleasure to all who attended.

"Te Deum" This Evening. Dvorak's "Te Deum" will be rendered this evening at 8 o'clock in the Salem Academy Memorial Hall.

Telephone Message to Farmer Prevents What Might Have Been Serious Accident. Railroad Employe at Cary Discovered a Mistake in Orders After Train Left, but Telephoned Immediately to Farmer a Few Miles Distant, Who Rushed to Track and Flagged Train.

(Special to The Sentinel.) RALEIGH, May 18.—A private telephone in the home of a farmer residing near Cary, a station a few miles this side of Raleigh, was the means of preventing what would no doubt have been a terrible head-on collision between the westbound and eastbound passenger trains yesterday afternoon. The operator at Cary had received orders to send the eastbound train on through and later received orders to hold the train. By mistake he gave the train crew the original orders and did not discover his mistake until after the train had pulled one of the yards at Cary. When he did find what a mistake he had made he had the presence of mind to call up the farmer living a few miles from the station and hurriedly explained the situation.

By an act of the last legislature all the military companies of the State are permitted to have not more than twenty-five honorary members, who are to be elected and who will pay to the company ten dollars annually. Honorary members of the company will have no duty to perform but will be exempt from jury duty. The plan, if carried out, will be of great benefit to the companies, as it will stimulate interest and also give the companies about \$250 in cash annually. With the exception of a small appropriation from the State, county and city, the companies have little financial assistance. It is thought that the Greensboro company will have no difficulty in getting its twenty-five members.

GUILFORD WOMAN SUICIDES.

Mrs. Dolph Kirkman Takes Her Life By Hanging. (Special to The Sentinel.) GREENSBORO, May 18.—Mrs. Dolph Kirkman, an estimable lady living in Sumner township, took her own life by hanging Thursday afternoon. The other members of the household had gone to attend the funeral of Mr. Stephen Hodgkin, who had died on the preceding day. Mrs. Kirkman took advantage of their absence to carry out her deplorable intention to end her life.

The deceased lady had a severe attack of fever several years ago and it is thought that the attack of fever had something to do with her mental breakdown which resulted so distressingly. She was about 55 years old. John Sheppard, who has been with the Simmons Hardware Co., at St. Louis for several years, has returned to Winston-Salem.
