Mr. Shore stated that he and the other members of the grand jury who visited the camp were convinced that the white prisoners sleep in one end of the building and the colored in the other end and he agreed to make a statement to this effect.

The county board of education today ordered the establishment of a county high school at Lewisville, a village about eight miles west of the city. The citizens of that town agreed to raise by private subscription \$250, the amount required by the board for the establishment of such a school.

The board, at its July meeting, will likely establish another high school, either at Kernersville or Walkertown. Both places have made application for such an institution.

A petition from the citizens of Walkertown was presented to the school board asking for an election for a local tax for school purposes. It was favorably acted upon and referred to the county commissioners to call an election.

The county commissioners ordered that the election be held July 5. The present school year expires this month. Rev. J. W. Pinnix, of Kernersville, the new member, will meet with the board at the July session, at which time a superintendent of public instruction will be elected. It is thought that Supt. Speas will be re-elected. The board will also appoint committeemen for the various school districts, apportion the school fund for the year and fix the minimum salary for teachers.
