WASHINGTON, August 6-Men and somen from thirty-five countries will gather in Washington soon but there will be no babel of voices for the men and women will be the delegates; to the Sixth International Esperanto His head bowed low with sorrow ongress which is to be in session August 14 to 20.

Though the delegates are coming here from the fartherest points of the world yet there will be no confusion of mother tongues but a free converation in a common language.

Approximately 1,500 delegates are expected , and a program, elaborate or a convention of such a nature has been prepared. Distinguished linguists of this and other countries will be present and those men will transact he business necessary to the dissemnation of their idiom

Aside from the serious meetings and discussions many interested features have been prepared for the seven days Hickman players. The lines have been translated into Esperanto by Dr. lvy Helferman, of Washington, and with the players drilled until they are ARE TO MAKE INSPECTION about perfect. The spectacle of menand women from all sections of the globe easily following the performance will be witnessed.

Many business men of Washington will have advertisements printed in Esperanto. One of the largest sight seeing auto companies has already secured a Washington guide book printed in Es-

solicemen of the Metropolitan police epartment who have been especially nstructed in Esporanto. These offiers a class instructed during the ast several months by General Secctary Reed-are now experts and this oo is looked upon as one of the expected triumphs of the congress.
On Friday the "Grand Internation!

ball" will be held and this promises to be one of the most attractive sodance cards will be engraved in Esperanto and the delegates will appear in their national colors.

No attempt is being made on the part of the Esperantists to substitute their language for the mother tongues of the world but they are trying to convince the world that the universal language is invaluable standpoints. If successfully forced forward it will mean a revolution in business methods and make internaional trading, the Esperantists claim, simple work.

In a commercial way, they claim, it is of practical advantage to all doing business beyond their national porders; scientifically by offering opportunity for an international version f all the great scientific works of the vorld. For travelers, they state, it is an immeasurable blessing, eliminatng the inconveniences of having to contend with so many tongues. Last year Secretary Reed traveled from Northern France to Barcelona, Spain, speaking nothing but Esperanto.

With the full establishment of this international language, it is claimed, will come a greater amount of inter

sent fuller understanding of the infe brotherhood of man.

DEMISE OF WILLIE'S BROTHER.

(By H. M. Tandy.) Willie was an office boy. Willie was a fan: Wille knew more about baseball Than many an older man. Willie said his brother Wos sick as man could be,
