

SECOND CLASS MAIL TO GO BY FAST FREIGHT

WASHINGTON, Sept. 1.—The Post-office Department today begins an experiment which is regarded as one of the most important steps yet taken by Postmaster General Hitchcock in his plans to reduce the expense of the service and thereby pave the way, so it is believed, for the ultimate adoption of penny postage.

The plan inaugurated today provides that the greater part of the second class mail matter consisting of magazines and periodicals, heretofore transported in railway mail cars, will be carried by fast freight. The publishers are to be permitted to print on the wrapper of each copy or bundle of their publications, as a part of the address, instructions as to the date on which delivery is to be made. In accordance with this arrangement postmasters have been directed to carry out the instructions with respect to the delivery of fast mail freight. Mr. Hitchcock believes that the new system will be found satisfactory to the publishers and the public alike, while the expense to the government will be far less than heretofore.

TOBACCO WILL SELL HIGH.

The Crop Is Going to Bring Good Prices This Fall—This is a Foregone Conclusion.

It is given up by nearly everybody now that tobacco is bound to bring a good price this year. The indications all point that way. The Sentinel copies the following items from this week's issue of the Reidsville Review bearing on the subject.

Mr. W. T. Barber, who has been buying tobacco for the Imperial Company at Lake City, S. C., returned home Saturday and will go to Smithfield this week, where he will be stationed for the next two or three months. Mr. Barber says the crop in South Carolina is short this year and already three-fourths of it has been marketed. He says the weed is selling very high, averaging around fifteen cents.

Our countryman, Mr. Henry W. McGehee, who runs a warehouse at Nichols, S. C., has been making some record-breaking sales this season. One day recently he sold 25,000 pounds at an average above 15,000 pounds and he sold 45,000 pounds at an average of \$16.50. The tobacco was nearly all "in the rough"—ungraded stripped leaves. These are good prices and show that tobacco is in good demand and will doubtless sell at satisfactory prices all this season.

Toledo Blade.

Mr. Ghost—All my money cannot give me health, doctor. Doctor—No, perhaps not; but it gives your physician great confidence.

BEULAH BINFORD.

Down in a little Virginia town, whose name is important through having tacked to its conclusion the impressive suffix of "court house," the world-old tangle of misdirected passion is being enacted for the thousandth time. In this forgotten hamlet there is a meeting of the extremes. The hay wagon jostles the big motor car. The speedy life and the simple life, and the double life are mingled together. The sob squad is on hand, making the most of the varied scenes, and splashing with gorgeous abandon the hues of the imaginary over the drab setting of the dull and commonplace. There is interest everywhere. It hangs tentatively at the heels of the youthful Beattie. It hastens with keen intent upon the heartbroken father. It glazes momentarily over the memory of the midnight ride, the firing of the gun, and the tragic death of the wife in the lonely wood far from any witness, unless the stars took cognizance and the flimsy eyes of the owl made note. But over and above all these, it centres in Beulah.

Who or what is Beulah Binford? If she were greater, she would be better understood. If she were more palpably depraved, a quick classification would soon rob her of her unlisted attractions. But she is neither the one nor the other. Yet, being neither the one nor the other, the immensity of her power for evil seems to have been enhanced, rather than diminished. In the whole whirl of evil she has been the unmoved and impassive centre around which all has revolved, herself the point of negation, incapable of a praiseworthy impulse toward good, equally incapable of an overt act of crime, a chip of a girl, viewing the universe from her so limited vantage point, her system of life so meager and yet to her so real, her heroes so tawdry, her heroines so pitifully small. And with all that, herself so completely satisfied with herself, pasting pictures of cheap celebrities in her little album, and all untouched by the gloom of an irrevocable and irreparable past, cogitating the possibilities of her little future!

Nature has her moods, sublime as well as perverse. She makes a woman with a soul so great that, touched by the radiance of her countenance, men aspire only to virtuous deeds. She molds a Cleopatra, and fills the panther creature with the desire of the desert and the longing of the East, and a warrior cries, "Let Rome in Tiber melt and the wide range of empire fall!" And in an off day she creates a woman without a soul.—Washington Post.

Lawsonville Man Invents Valuable Machine.

A man near Lawsonville has invented a machine that must have a commercial value rendering it indispensable in hundreds of households. It is a contrivance which utilizes the energy of a cow's tail. The cow is tied near the house, and from her constantly wagging caudal appendage runs a cord which is attached to a crank and pulley, which in turn are connected with a fly brush over the dining table, a patent churn and the baby cradle. Verily, science hath accomplished wonderful things. Patent applied for.—Danbury Reporter.

Happy, Happy, Use TIZ

A Marvel For Sore Feet. Acts Right OR.

Sore Feet? Never Again Using TIZ—

Good bye sore feet, itching feet, swollen feet, sweaty feet, smelling feet, tired feet.

Good bye corns, callouses and bunions and raw spots.

You've never tried anything like TIZ before for your feet. It is different from anything ever before sold.

It acts at once and makes the feet remarkably fresh and sore-proof.

TIZ is not a powder. Powders and other foot remedies clog up the pores. TIZ draws out all poisonous exudations which bring on soreness of the feet, and is the only remedy that does. TIZ cleans out every pore and glorifies the feet—your feet.

You'll never slip again or draw up your face in pain, and you'll forget all about your corns, bunions and callouses.

If you don't find all this true after trying a box of TIZ, you can get your money right back.

TIZ is for sale at all druggists at 25 cents per box, or it will be sent you direct if you wish from Walter Luther Dodge & Co., Chicago, Ill. You'll feel like a new person.

HOW RAINS BENEFITTED CROPS IN STOKES COUNTY

A most wonderful improvement has taken place in crop conditions during the last few days, as a result of the copious showers of rain with which every section of the county is being blessed. The most remarkable come-out is noticeable in the tobacco crop. Late tobacco, which many people believed would hardly be worth the saving, is growing with leaps and bounds, and will ripen in good time before the frosts. Forward tobacco is looking splendid, and cutting and curing will be in order now within a few days. Many farmers have already cured primings, and report the color good. Mr. Hayes Duggins, of Danbury, finished a barn of primings this week, and says it is a beauty. The corn crop is excellent, with a greatly increased acreage over last year. Much land intended for tobacco was planted in corn, on account of drought conditions, and the consequence will be far and away the biggest crop of corn ever. The rains are making it fast. If the farmers, whether on account of a short crop of tobacco, or from other causes, may realize high prices for their tobacco, say an increase of 25 per cent, then taking into consideration the facts of a big corn crop, and general economy set in practice by the drought, they will be as a rule in better condition than they were last year. After these rains are over, lands may be broken for the fall grain sowing. The acreage in wheat this fall probably will be, and should be, larger than ever before. But for the splendid wheat crop this summer, the farmers would have certainly been seriously hurt. A full grain yield for both man and beast saved the country.—Danbury Reporter.

TRACK-LAYING ON E. & A.; FIGHT IN COURTHOUSE YARD

ELKIN, Sept. 1.—Track laying on the E. & A. Railroad is progressing satisfactorily. It is expected by tonight to have the track laid to or perhaps beyond Elk Creek, just north of the Elk Mills factory. It is understood that Mr. Mills will send an engine here for construction purposes within a week or two.

Parties returning from Surry court a session at Dobson this week report a fight in the court-house yard Tuesday between a young man, whose name was not learned, and a man named Moore. While these two were engaged in a tussle the father of the young man rushed upon Moore and stabbed him twice in the back with a knife.

Miss Edna Couch, of the Zion section of Yadkin county, left this week for New Garden, Guilford county, where she will teach again this year. She was accompanied as far as Greensboro by her brother, Lester, who was on his return to Baltimore, where he has been attending a dental college. Mr. Couch will finish his course this year and be ready for the practice of his profession.

The Paramount Issue. The re-establishment of competition is the paramount issue of present day politics. There is a broader fight that includes everything. This great fight is one for the more equitable distribution of wealth.

In the opinion of the people generally organized wealth takes more than its proper share. To remedy this railroad regulation and the dissolution, or at least the strict regulation, of trusts are required.—Senator Cummins, of Iowa.

Caused By Kissing. "I think it's absurd to say kissing is dangerous," gushed Miss Lilytop. "What possible disease could be spread by the simple act?" "Marriage, madam," grunted Grumpy.

Before You Reach the Limit. Of physical endurance and while your condition is still curable, take Foley Kidney Pills. Their quick action and positive results will delight you. For backache, nervousness, rheumatism, and all kidney, bladder and urinary troubles. E. W. O'Hanlon.

SATURDAY, SEPT. 2D, AT 10C.

FORSYTH HARDWARE CO.

424 Trade St. The Quality Store.

S.S.S. A BLOOD MEDICINE FOR YOUNG OR OLD

The majority of human ailments are caused by impure blood, because weak, polluted blood deprives the system of its necessary strength and disease-resisting powers. Children do not develop perfectly, nor are they strong and robust unless the blood is pure and strong, while old people are afflicted with Rheumatism and other chronic troubles because of a weakened circulation. S.S.S. cures every ailment which comes from impure or diseased blood, it tones up and regulates every portion of the system, and creates an abundant supply of nourishing properties with which to build up the blood. S.S.S. is made entirely of healing, strengthening roots, herbs and barks, absolutely free from harmful drugs and minerals, and is therefore the purest and safest blood medicine for young or old. S.S.S. cures Rheumatism, Catarrh, Sores and Ulcers, Skin Diseases, Scrofula, Malaria, Blood Poison, and all other blood disorders. Book on the blood and any medical advice free. S.S.S. is sold at drug stores.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

TWO BIGGEST BATTLESHIPS.

Uncle Sam's Next Pair May Be of 28,500 Tons, With 14-Inch Guns.

WASHINGTON, Sept. 1.—The two new battleships authorized by the last Naval act probably will be of 28,500 tons displacement, the biggest war vessels in the world. The largest ships so far designed for the American navy are the New York and Texas, with a displacement of 27,000 tons each, and it became known only today that the Navy Department contemplated exceeding their size. The new ships will have heavier armor than has ever before been put on a battleship, which accounts for their increased displacement. The armament of the new vessels will be the same as the New York and Texas, with a main battery of ten 14-inch guns.

With this approach to a 30,000-ton battleship, the naval ordnance experts are considering the question of a 16-inch gun. It will require a 35,000-ton battleship to withstand the terrific recoil from a main battery of ten 16-inch guns.

Do You Blame Her?

When a man has told a woman he would die for her, and then refuses to do a simple thing like taking her to a picnic two days in succession do you blame the woman for being disappointed in life? That is what happened in the life of the late Mrs. Fannie Bogart, of New York. Her husband was an ardent lover, but two weeks after their wedding he refused to take her to a picnic, saying he had taken her to one the day before, and two picnics in succession were more than he could stand. Then Mrs. Bogart realized that life was no picnic, drank carbonic acid, and two hours later her husband was picking out her coffin.

Before You Reach the Limit. Of physical endurance and while your condition is still curable, take Foley Kidney Pills. Their quick action and positive results will delight you. For backache, nervousness, rheumatism, and all kidney, bladder and urinary troubles. E. W. O'Hanlon.

RETURNS TO CLAIM ESTATE.

Man Supposed Dead Twenty Years Proves Identity.

MILLVILLE, N. J., Sept. 1.—Like one arising from the dead, George Hawkins, who was reported drowned in the Chesapeake Bay nearly a score of years ago, appeared before Benjamin B. Weatherly, president of the Millville Trust Company, and demanded a share of the estate left by his mother, Mrs. Hester Hawkins, who died here two years ago.

President Weatherly scarcely believed that this was really the man who had so long been mourned as dead, but Hawkins was identified by residents who knew him well and who state that he appears no older now than when he so strangely disappeared.

"A BOX OF MONKEYS" AT KERNERSVILLE SATURDAY.

KERNERSVILLE, Sept. 1.—A farce, entitled "A Box of Monkeys," will be presented by local talent in the Auditorium on Saturday evening, September 2nd, at 8 o'clock. Between acts will be given special numbers, such as songs, pantomimes, etc. The cast of characters in the play includes the following: Misses Daisy Leak, Mollie Linville, Dore Korner, Messrs. Clay Ring and James Teague. The effort on Saturday evening is under the auspices of the Philathea class of the M. E. church.

TEN THOUSAND DOLLARS TO GREENSBORO FEMALE COLLEGE

Winston-Salem friends of Greensboro Female College will rejoice with the management of that splendid institution in the very gratifying announcement that Mr. J. W. Fitzgerald, a wealthy farmer of Linwood, Davidson county, has agreed to donate to the trustees of the college the sum of \$10,000 for the purpose of erecting a dormitory, on the condition that other friends of the college contribute \$15,000.

Mr. Fitzgerald is a farmer. He is well known in Davidson county and is one of its best citizens. He is a loyal member of the Methodist Church and has been a philanthropist in a quiet way for many years. Through his generosity chiefly a splendid church was built near his home, and many times the benevolences and institutions of his church have received his gifts. He has long been a friend of Greensboro Female College and educated some of his nieces there. A few years ago, when an effort was made to secure an endowment of \$100,000 Mr. Fitzgerald contributed \$1,000. Believing that he can make no better investment than to invest in an institution which has for its object the development of Christian womanhood, he now comes forward with this magnificent gift of \$10,000.

WOMAN PAST 35 NOT YOUNG

Directors of Cambridge, Vt. Decide the Problem. CAMBRIDGE, Mass. Sept. 1.—The Cambridge Female College has decided to accept the offer of a young man to donate \$10,000 for the purpose of erecting a dormitory. The college trustees have decided to accept the offer of a young man who has passed the thirty-five mark.
