

RIOTING IN VARIOUS PARTS OF SPAIN NOW

Marital Law Is Declared In Many Places and the Situation Is Constantly Growing More Serious.

MADRID, Sept. 19.—King Alfonso has signed a decree suspending constitutional guarantees throughout Spain. This is equivalent to declaring the country under martial law.

MADRID, Sept. 19.—Martial law has been declared in Spain, following reported violence in connection with the workingmen's strike called in various cities to further revolutionary plots.

The most serious situation is at Valencia, where men are all out on the strike declared yesterday. The city was immediately placed under martial law.

The authorities were embarrassed in Calloa, where disturbers attacked the officials viciously. The rioters murdered a judge and wounded other officers engaged in the trial of rioters who were arrested.

Strikes have been declared at Bilbao, Sargoson, Cadiz, Buelva, Seville, Gijon and other cities.

The government has unearthed a plot to murder General Weyler, captain general of Catalonia.

The situation in many places is constantly growing more serious.

The robbers failed to open the safe and left it in such shape that the owners have not yet been able to get into it.

CHICAGO, Sept. 19.—Refuting the charge that express companies make exorbitant charges and use high-handed methods, G. B. Taylor, general superintendent of the U. S. Express Company, states that many express companies are doing well if they make three to five cents net out of a gross dollar charge. Taylor says the companies now make their profits out of long rather than short hauls.

A Big "Men-Religion Forward Movement" to Be Launched Here

At Meeting of Twin-City Ministerial Association Plans are Formulated With View to Increasing Church Activity and Committeemen Named.

The meeting of the Winston-Salem Ministerial Association yesterday, plans were formulated for launching the "Men and Religion Forward Movement" in this community for the purpose of increasing the activities of the various churches in the city.

This is probably the greatest religious movement that has ever been launched by the Christian churches. It is made up of a concerted action by the ten great church brotherhoods, the International Sunday School Association, the International Y. M. C. A., and the Gideons. These organizations include nearly all the Christian workers in America.

The movement was started in May, 1910. The plan is to have great conventions in ninety of the largest cities in the country. While a convention will not be held in this city, the general plan of the movement may be placed in vogue in any community, and it will be followed out in this city.

A great committee composed of members of the various churches in the city has been appointed and the committeemen will meet at the association building next Saturday at 3:30 to effect permanent organization. Over one hundred men have been placed on the committee and the movement promises to have a great influence in the community.

The committeemen have been appointed as follows: Methodist Churches—Centenary, Rev. J. E. Abernethy, Messrs. J. F. Griffith, C. M. Thomas, J. A. Gray, J. T. Erwin, J. A. Gray, Jr., T. L. Rawley, J. P. Morris, and C. F. Lowe; West End, Rev. W. A. Lambeth, Messrs. R. B. Crawford, M. D. Stockton, R. H. Latham, H.

APPEARS NOW THAT "WETS" LEAD BY 26 IN MAINE

AUGUSTA, Maine, Sept. 19.—Gov. Plaisted and his council were in session until midnight, canvassing the results on the question of the repeal of the constitutional prohibitory amendment, voted on at the special election a week ago. They reconvened today to continue the tabulation on other questions voted on at the same time and to give the clerks in towns in which returns are disputed an opportunity to present evidence of error and make correction.

The figures tabulated last night showed an apparently official majority of twenty-six in favor of repeal, but these figures, Gov. Plaisted declared, were not final.

"The apparent majority on the wet side," said the governor, "has not disheartened the prohibition workers. They are busy taking steps that returns from the towns they still maintain voted dry despite official returns are corrected."

It is probable that the result will not be definitely known, beyond the possibility of a doubt, for two or three days yet.

HENDERSONVILLE, Sept. 19.—There are no new developments in the case of Miss Myrtle Hawkins. The coroner's investigation is scheduled to be resumed at 3:30 this afternoon.

There are rumors current that the sheriff has decided to make one or two arrests without waiting for the verdict of the coroner's jury. If such action is taken "something may happen," but the impression seems to prevail here that the present investigation will terminate without any arrests and without the public being made any wiser as to the names of the parties responsible for the death of Miss Hawkins.

Hearing Before Coroner Monday.

This report of Monday afternoon's hearing before the coroner was sent out last night by the Associated Press:

While the resumption of the coroner's inquest in the Myrtle Hawkins case, which was again adjourned until 3:30 tomorrow afternoon, today revealed no new developments of a startling nature, the county of Henderson, through the testimony of Wallace Reddin, sought to establish the fact that George Bradley, who, according to his own statements on the stand last Friday, "kept company" with Myrtle Hawkins for several months before his marriage, was seen with a woman on Tuesday evening of week before the last day of Miss Hawkins' disappearance from home.

Reddin on the stand said that on Thursday evening of that week, he saw Bradley and a small woman walking together along the Lake Okechola road. Bradley and the woman were talking in an earnest manner, he said, but he could not distinguish the tenor of their conversation. The woman was bareheaded, said the witness. He was certain that his meeting with the couple was on Thursday because he returned a buggy which he had borrowed from a neighbor on that day.

In answer to continued questioning, Reddin declared that early in the afternoon of Wednesday, he had met Miss Hawkins, whom he knew, walking alone on the Okechola road. But he could not identify the woman he saw walking with Bradley on the same road the following day as being Myrtle Hawkins.

Another feature of strong interest in this afternoon's proceedings was the testimony of Lucy Wright, daughter of Mrs. Reuben Wright, who says she heard a woman screaming on Wednesday night at midnight. Miss Wright says that while out walking on Saturday morning she found a watch in the dry "spillage" of the lake, the watch, which was later identified as being the property of Myrtle Hawkins, had stopped at half-past nine. Other witnesses testified to the effect that they had seen Myrtle Hawkins and George Bradley walking down the lake road on Wednesday and Thursday afternoons.

Another phase enters into the Hawkins case in the discovery by a newspaper man of a certain appliance among the garments of the dead girl. Its presence there, later witnessed by a number of the authorities, suggested to many the possibility of criminal assault and later murder. Detectives working up the case were not inclined to render an opinion as to what effect this discovery would have on the line of research they have been pursuing. This later evidence, however, the coroner stated tonight, will be presented to the jury at tomorrow's hearing.

ATTEMPT MADE BY NEGRO TO ASSASSINATE OFFICER.

WILMINGTON, Sept. 19.—Mounted Officer R. S. Haddock, had a narrow escape from a would-be assassin late Saturday night, when he was fired at five times by a negro known as "Railroad Bill," for whom the officer had a warrant for assault with a deadly weapon on another negro. Officer Haddock was riding and the negro saw him coming about a block away. The negro ran and concealed himself on a vacant lot, and as the officer rode up began firing at him. The officer said that one bullet split a lock of his hair. He was so excited that he did not even return the fire. Officer Bullard rode up from the opposite direction to aid his partner in capturing the negro, but the desperado had already emptied his revolver and made off. The police were forewarned, for when the warrant was issued they were told by a negro that "Railroad Bill" had said that he would kill the first officer who attempted to arrest him.

Officials of Alleged Shoe Machinery Trust Indicted In U. S. Court

BOSTON, Sept. 19.—An indictment was returned today against the officers of the United Shoe Machinery Co. and a second indictment was found against the company itself by the United States grand jury. The defendants are charged with conducting a business in restraint of trade.

The individuals indicted are President Sidney W. Winslow and Edward P. Hurd and George W. Brown, directors. The indictments charge the defendants with working through the instrumentality of the United Shoe Machinery Company in a way to make them as individuals criminally liable under the Sherman act.

History of the Case. Complaints made to the Department of Justice against the United Shoe Machinery Company—the so-called "Shoe Machinery Trust"—brought the attention of the government to the case.

It is understood that the corporation was charged with being a monopoly in restraint of trade. Infringements upon the patent laws were also alleged, it is said.

Prompt action on the part of the government followed the receipt of the complaints. In April—a few weeks after they had been filed—William S. Gregg, special assistant to United States Attorney General Wickersham began a government probe. Special Agents George E. Kelleher and James L. Bruff assisted Mr. Gregg in his search for evidence.

The result of the work of these government officials was that on July 26 of this year Attorney General Wickersham ordered United States Attorney Asa P. French and Mr. Gregg to present evidence obtained to the Federal Grand Jury that reported today.

The United Shoe Machinery Company came into being in 1859. It was founded by Sydney N. Winslow, its present head, who learned shoe making in a small factory in Salem, Mass., owned by his father, who to secure advantages of combining allied interests formed a corporation embracing the three leading companies then making shoe machinery—Goodyear Sewing Machine Company, Consolidated and McKay Lasting Company and McKay Shoe Machinery Company—were consolidated. SAYS SHAKERS AS A WHOLE WILL NOT AID IN CASE

CANTERBURY, N. H., Sept. 19.—Reports that the Shakers of this county intend raising a large fund to defend Elizabeth Sears and E. B. Gillespie, members of the Shaker colony at Kismet, Florida, who it is alleged administered chloroform to Sadie Merchant, a tuberculosis victim, are denied by Elder Arthur Bruce, of the Canterbury Shaker colony. Bruce said:

"Brother Gillespie and Sister Sears acted most unwisely. Nothing is desired by the Shakers for them other than justice before the law. If on trial it appears chloroform was administered with intent to illegally cause the death of Sadie Merchant no Shaker would demur if punishment according to the law followed. Shakers as a whole will have nothing whatever to do with the case's legal aspect and will not furnish funds for the defense."

WASHINGTON, Sept. 19.—Generally favorable weather in the corn and cotton growing states during the week ending yesterday is reported by the weather bureau's weekly bulletin. It says:

Some excessively hot weather occurred in Texas and Oklahoma. In more eastern states the temperature was not so high. Local rains occurred and conditions were generally favorable for further development of the cotton plant as well as picking."

JUDGE ALLEN'S CHARGE TO GUILFORD GRAND JURY.

GREENSBORO, Sept. 19.—The charge to the grand jury by Judge Allen included a discussion of the jury system as a necessary bulwark in the United States. He also made definition of crime and causes thereof.

Judge Allen charged the grand jury especially to inspect school buildings to see if they were properly fitted with fire escapes and to investigate convict camps and to inquire into the methods of corporal punishment. He disfavored corporal punishment, recommended that prisoners be not required to wear stripes, which were usually considered marks of disgrace, and also recommended that provision be made for giving the prisoners an hour of recreation each day. He urged that prisoners be encouraged to read and sing, and that every effort be made by the authorities to send the prisoners out better morally and otherwise than when received into jail.

WHAT WILL BE EFFECT OF DEATH OF STOLYPIN?

ST. PETERSBURG, Sept. 19.—Following Premier Stolypin's death from a wound inflicted by an assassin's bullet speculation exists as to whether a more liberal or reactionary policy will be adopted. The Novoe-Vremya says: "A new chapter in Russia's history commences with Stolypin's death. Socialism and Judaism must be taken in an iron grasp."
