

If You Were a Girl and Hated a Man — What Motive Could Make You Try to Kill Your Sister on His Account?

Try as you will, you won't and can't strike the right answer to that question unless you read "The Trey O' Hearts," by Louis Joseph Vance, in this newspaper or see the pictures at the "movies."

There's an unusual situation—a human interest element—a curious unexpected twist and thrill to every line of the story and every foot of the pictures.

There have been other strong novels.

There have been other good moving pictures.

But this — well, let's have your opinion.

PROGRESS OF WORK ON THE E. & A. RAILROAD

Mr. H. G. Chatham spent Wednesday in the city, and while here talked interestingly of the future of the section of the country to be traversed by the Elkin & Alleghany Railroad.

In speaking of the work being done on the road, Mr. Chatham stated that the past steady progress of building the road will not be affected by the present unsettled conditions caused by the European upheaval.

The Boston firm that is assisting the people of Elkin and Alleghany county in financing the road are not large capitalists, but they are bond dealers of fine character and splendid reputation.

Visitors To This Section. The officials of the road are giving this territory wide publicity, presenting its resources and possibilities with good effect.

A soil expert from the U. S. Department of Agriculture will be sent to the county within the very near future for the purpose of making a soil survey and analysis, and aid the railroad and the people in the realization of their ambition.

The state of Maine produces nearly one-tenth of the annual yield of the nation in potatoes, and the county from which Mr. Collins came is the largest producer of the tuber in that state.

Birthday Anniversaries. Raymond Poincare, president of French Republic, 54 years old. Cardinal Martinelli, who was the first apostolic delegate to the United States, 65 years old.

To Discuss Important Problems. Fort Worth, Texas, Aug. 20.—The financing of the farming and ranching interests of the country will be the leading subject of discussion by the Farmers' Educational and Co-operative Union of America when it meets here in annual convention week after next.

Summer Coughs are Dangerous. Summer colds are dangerous. They indicate low vitality and often lead to serious Throat and Lung Troubles, including Consumption.

ATTENDING MEETING DEMONSTRATORS IN RALEIGH

County Farm Demonstrator Anderson and six of the members of the Boys' Corn club of Forsyth county are attending the meeting of the demonstrators at Raleigh.

The boys of Forsyth county farm districts are planning to perfect a number of "Pig Clubs" Mr. Anderson has been talking this work to the boys of the county for several months and it is probable that organizations will be perfected at an early date.

Constipation Causes Sickness. Don't permit yourself to become constipated, as your system immediately begins to absorb poisons from the back-up waste matter.

Greatest of All Human Blessings. The most wonderful thing in the world is love expressed in the helpless infant. And among those aids and comforts for expectant mothers is the well known Mother's Friend.

Applied as directed upon those muscles involved it soothes the fine network of nerves with which said the muscles are supplied. Thus a great source of the pain so much dreaded may be avoided and the period of expectancy passed through in ease and comfort.

LESS MEAT IF BACK AND KIDNEYS HURT. Take a glass of Salts to flush Kidneys if Bladder bothers you—Drink lots of water.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked, get sluggish, clog up and cause all sorts of distress.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine.

The Davis White Sulphur Springs Much Improved. One hundred rooms, electric calls and lights, sewerage, etc. Good fare and service. The best of Sulphur and Freestone waters.

One hundred and sixty acres hills, valleys, streams and good shady walks. Guests from stations in foot hills of Western North Carolina (less 50 miles) will find here the beautiful (50 miles of scenic view).

THE DAVIS SPRINGS, North Carolina. Write for Illustrated Booklet. Hildreth

WAR MAY PREVENT OBSERVATIONS OF ECLIPSE

Washington, Aug. 20.—The eclipse of the sun tomorrow—total in part of Europe and Asia and a part eclipse in northwestern America—has been attracting widespread attention among astronomers and scientists, but it is feared that the European war will seriously interfere with, even if it does not entirely prevent the observations which the scientists had planned to make of the phenomenon.

The eclipse will be observable along a line extending from Alsteno, on the west coast of Norway, thru Hernosand, on the Swedish coast, Riga on the Baltic, Minsk and Kiev in central Russia, and leaving Europe at Theodisia on the Crimean coast.

Many scientific expeditions had been planned to observe the eclipse. The most of these expeditions were designed to take their observations from points in Russia, where the duration of totality will be longest. Under existing conditions it will of course be impossible for the scientists of other lands to visit Russia at the present time. At the present time it will be almost equally impossible for the scientists to change the base of their operations to the Scandinavian peninsula, for the reason that weeks of preparations are necessary to set up their instruments and make other necessary preparations.

Before the outbreak of the war nearly all civilized countries were preparing expeditions for the study of the eclipse, and a number of private expeditions were also being fitted out. As previously stated the most of them had chosen Russia for their goal. Among other German cities, Hamburg was fitting out an expedition, while a second one, subsidized by the Prussian state, was being planned by Professor Miethe of the Charlottenburg Technical school.

In England steamboat parties were being made up to view the eclipse from Alsteno and Riga, and from the fact of the eclipse coming in the holiday season it was expected that great numbers of sightseers would avail themselves of the opportunity, which will not recur in Europe till 1927.

Professor C. G. Abbott, head of the astronomical branch of the Smithsonian Institution, and a recognized authority on solar phenomena, gives the following account of the eclipse and the scientific results sought from such events:

Tomorrow the moon will pass exactly between the earth and the sun, and there will be a total solar eclipse. It will not be observed in America, except as a small partial eclipse at sunrise in the northern states and Canada, but in Persia, Russia and Scandinavia the full effect will be seen.

Altho the moon looks about the same size as the sun, it is very much smaller and nearer. The sun is 865,000 miles in diameter and 93,000,000 miles away, while the moon is 2,163 miles in diameter and 239,000 miles away. On account of the moon's small size compared with the sun the shadow cast by the moon is a cone, and the point of this cone just barely reaches the earth.

In tomorrow's eclipse the diameter of the cone at the earth's surface is only about 85 miles, so that the eclipse is visible as total only in a belt about 85 miles wide, stretching over the countries already named. As a partial eclipse it will be seen over a very wide area, including northeastern America, Greenland, Europe, half of Asia and half of Africa. Within this region only a part of the sun's disk will be hidden by the moon.

Wherever the solar eclipse is seen as total, the sky will become nearly as dark as full moonlight, and a few of the brighter stars and planets may be seen. Sometimes the moon and sun occupy such positions that, altho the moon passes directly between the earth and the sun, the shadow cone does not quite reach the earth. Such solar eclipses are called "annular" and are nowhere total eclipses. In the most favorable case a total eclipse may last seven minutes at a station, but such occasions are very rare. There will be total eclipses visible in the United States in 1918, 1928 and 1925.

GRAND ENCAMPMENT I. O. F. AT HIGH POINT

Messrs. R. P. Clingman, H. M. Brandon, W. E. Beck and Col. J. C. Bessent have returned from High Point, where they represented the local encampment at the Grand Encampment, I. O. F. of North Carolina. The sessions lasted two days, Tuesday and Wednesday.

The following officers were elected to serve for one year: K. Kendall, of Shelby, grand patriarch; W. B. Bagwell, of Durham, grand high priest; H. T. Greenleaf, of Elizabeth City, senior warden; J. C. Bessent, of Winston-Salem, junior warden; Perrin Busbee, of Raleigh, grand scribe; J. E. Wood, of Wilmington, grand treasurer; E. B. Stradley, of Asheville, grand representative for a term of two years.

It was decided to hold the next session at Kinston. The meeting was well attended, there being nearly a hundred members of the order present. The session was called to order by Mr. E. B. Stradley, grand patriarch for the past year, and the routine business of the encampment consumed most of the two days' sessions.

A shadow was cast over the sessions by the recent death of High Priest Chadwick, his station being draped in black in memoriam. At the close of the meeting Grand Patriarch Kendall made the following appointments: J. S. Wade, grand marshal, Fayetteville; J. B. Mauney, grand sentinel, Shelby; W. E. Herndon, grand outside sentinel, High Point.

Lawn Party. A lawn party will be given at Mt. Pleasant church, on the Walkertown road, Saturday evening. Benefit new church debt.

USE OF CONVICTS ON PUBLIC ROADS

(By Lee L. Robinson.) Washington, Aug. 20.—Discussions of the investigations which are to be made into the use of convicts on public roads, the department of culture says.

A joint arrangement has been effected between the office of Public Roads of the Department of Agriculture, and the Public Health Service for the study of convict labor and the utilization of convict labor in the construction of roads and the preparation of road materials. There is a constantly increasing tendency on the part of state governments to employ convict labor in works of public improvements, such as road construction, rather than in the manufacture of articles which compete with the product of free labor.

The purpose of the joint study is to determine the conditions and methods by which most satisfactory results are obtained and the lines along which improvements may be inaugurated. Studies will be begun in Colorado during the latter part of August, and thereafter visits will be made to camps in Utah, Wyoming, Idaho, Oregon and Washington. Later in the studies will extend to Alaska, Illinois, North and South Carolina, Georgia, Florida, Oklahoma, Texas, Arizona and New Mexico.

Lawn Party. A lawn party will be given at Mt. Pleasant church, on the Walkertown road, Saturday evening. Benefit new church debt.

EXCURSION TO Washington, D. C.

AND RETURN VIA SOUTHERN RAILWAY

PREMIER CARRIER OF THE SOUTH Thursday, August 20th, 1914

ROUND TRIP RATE FROM WINSTON-SALEM \$5.00

Leave Winston-Salem 8:10 p. m., Connecting With Special Train at Greensboro

Returning, Special Train Will Leave Washington 11 a. m. Saturday, August 22, 1914

Daylight Trip Through Virginia Returning

Passengers from Branch Line points will use regular trains up to the several junction points, connecting with the Special Train at the several junction points.

Separate Coaches for Colored People

Passengers must purchase tickets before boarding Train. No tickets will be sold on train. The equipment of this Special Train will consist of first class coaches. No sleeping or parlor cars will be operated on this Train. Tickets good going and returning on special train only.

Rare Opportunity to Visit the Nation's Capital at Small Cost Some of the Points of Interest

White House, Congress in Session, Congressional Library, Arlington National Cemetery, National Museum, Smithsonian Institute, Mount Vernon (Home of Washington), many parks and other attractions.
