

PROF. WOOD, NOTED INVENTOR, GIVES DEMONSTRATION

There was a large audience at the high school auditorium last night to witness the scientific demonstration of the gyroscope and the ultra violet ray by Prof. Montravelle Wood, a noted inventor. Prof. Wood stated that the violet ray was discovered at Copenhagen in 1853, but the discovery was kept a secret for many years. He told of the long search for materials in this country by himself and Prof. Andrews, engaged in the Edison laboratories. They succeeded in the production of the rays and also materials which will serve as a storage of light. Interesting demonstrations were made with artificial flowers and cards treated with different materials, which when exposed to the ultra violet ray, would throw off dark light of different colors, according to the treatment given. Prof. Wood suggested that it will be possible to store daylight during the day sufficient to dispense with the use of gas and electric lights in the homes at night, thru the use of vases of artificial flowers and especially treated wall papers.

The demonstration of the gyroscope was equally interesting, presenting its use in connection with the aeroplane, and in the manufacture of torpedoes for use in times of war, and many other ways. Its use in connection with automobiles and mono-rail engines was also interestingly demonstrated, the prophecy being made that the two wheel auto will appear at the close of the war. Prof. Wood declared that one hundred cars of this type are being built in France, by a Frenchman with whom he is associated, and that fifty are now ready to bring to this country as soon as the war closes.

Prof. Wood was assisted in the demonstration by his daughter, Miss Arline Wood. The attraction was one of the greatest interest to both students and adults alike.

MR. JAMES M. HUNTER DIES NEAR BETHANIA

Mr. James M. Hunter, a very prominent and well-known citizen of this county, died Tuesday night at 9 o'clock at his home near Bethania, at the advanced age of 81 years. Mr. Hunter had been in his usual health until about thirty minutes before he died. He lay down across a bed and died before medical aid could be secured.

Mr. Hunter had been a member of the Maple Springs M. P. church for many years. He was a very prominent and wealthy farmer and was well known and highly respected by all of the many people who knew him, both in this city and the surrounding country. He made a visit to this city on Thursday of last week.

He is survived by his wife and five daughters, Mrs. T. B. Spence, Mrs. E. F. Kiger, Mrs. J. T. Poindexter, Mrs. S. A. James and Mrs. J. Emory Cox all of this county, as well as several grandchildren. The funeral services will be held on Thursday and interment will follow in the Old Town graveyard.

Valuable Health Hints For Our Readers

CATARH
Just because you hawk and spit and your nose is wet, cold, red, sore and a nuisance, don't merely plug it up. You can't cure catarrh by greasing your nose. Take S. S. S. regularly and you will drive catarrhal poisons out of your blood. The membranes will soon recover and no longer continue to accumulate the mucus that gathers and thickens into catarrh. S. S. S. stimulates the cells of the tissues to select from the blood their own essential nutriment. Rapid recovery from catarrhal inflammation in the stomach, kidney, bladder and all membranes is the result.

MALARIA.
Throughout the country, wherever malaria abounds, are happy, joyful people to whom S. S. S. has given wonderful help in the treatment of malaria after the most sickening torture imaginable. The gaunt complexion of malaria's victims, the chills and fever, the malarial dysentery that seems to defy all other treatment, the malarial leg, the enlarged liver, the persistent anemia where the blood turns to water and the system wastes away. These are the conditions that S. S. S. so effectively cures in overtopping, by helping to restore the blood to its natural vigor.

STUBBORN SORES
Sometimes a sore spot becomes indolent. The tissues surrounding it lose tone and are unable to provide sufficient nutriment to stop the drain. It is then chronic. Just saturate your blood with S. S. S. This is quickly accomplished, as S. S. S. is naturally assimilated the same as milk or any other healthful liquid. Nature acts with marvelous rapidity when given the proper assistance, and S. S. S. so stimulates cellular activity that the parts surrounding an ulcer select from the blood the materials that make new tissue. Thus the sore spot rapidly heals in a natural way.

Local applications for any skin disease will afford protection from with-

out, but have no medical value. Eczema, tetter, acne and all such eruptive diseases should be treated with S. S. S.

POISONED BLOOD.
So many different things contribute to poison the blood and the effect is so startling that the sufferer becomes panic-stricken and is led to use harmful drugs. If you have any blood trouble, get a bottle of S. S. S. and take according to directions.

Don't take anything else. Poisoned blood is bad enough without ruining your bones, joints, teeth and vitals with minerals. S. S. S. so stimulates cellular activity that they reject all poisonous influences and select only those materials in the blood that make healthy tissue. This is why its assistance toward recovery is so noticeable and at times remarkable.

S. S. S. is welcome to the weakest stomach and is assimilated just as readily as the most nutritious food. It has helped to cure a host of sufferers.

RHEUMATISM.
In any form of rheumatism give the blood a good effectual cleansing with S. S. S.

Use this remedy for three days and take a hot salt water bath to open the pores. This relieves the lungs and kidneys and assists S. S. S. to utilize the skin as the principal avenue of elimination.

Avoid salts, calomel and other drastic purgatives, as they absorb the moisture from the walls and membranes of the intestines, weaken the muscular action, produce chronic constipation and thus stagnate the system with rheumatic poisons. Get a bottle of S. S. S. and any drug store. Don't take a substitute.

S. S. S. is purely vegetable and is prepared only by the Swift Specific Co., 271 Swift Bldg., Atlanta, Ga. Write for special booklet on any of the diseases mentioned and if medical advice is wanted, write for that also to address given above. Both booklet and medical advice are free.

From Educator's Notebook

Chattanooga, Tenn.—A meeting of church dignitaries, philanthropists and alumni is being held here today, to devise ways and means to pay off the indebtedness of the University of the South, at Swannoe, Tenn. It is believed the debts will be wiped out and a generous fund raised for future work. The University has a unique history. It was founded as a result of a meeting held on Lookout Mountain by Episcopalian Bishops. The object was to establish a college for young men of the South, under church influence. Ten thousand acres had been deeded to the institution, a liberal charter had been granted by Tennessee and promises of large endowments had been made. But the war wiped all this out except the land and the charter.

Washington, D. C.—To re-establish and refit the universities, libraries and art galleries of ravished Belgium, to return her students, writers and artists so that she may again flourish in art and science, learning and culture, after the war, is the purpose of a campaign being conducted through the United States. It is a labor of love for the advancement of education and for the preservation of some of the finest examples of modern art. Dr. Nevil M. Hopkins of this city is chairman of this Belgian Scholarship Committee, which is a sub-committee of the central Belgian Relief Fund, and the movement has been endorsed by Immanuel Havenith, the Belgian minister. One of the features of the movement to restore Belgium's culture is the fact that American educational circles are the contributors, with no help expected from the general public. Some of the leading

Americans of the present day are deeply interested in the undertaking and are taking active part in it.

Chicago, Ill.—The attitude of medical men toward school boards and school curricula is varied and interesting. One of the most unusual criticisms uttered here recently was that of Dr. Wayne M. Smith, who declared that fifteen million American school children have defective eyes, bones and teeth because the schools were too busy teaching their parents algebra to explain that phosphorus is necessary to every human being. Dr. Smith was addressing a conference of teachers of homeopathic medicine. "What good is botany to Susie," queried the physician, "if later she feeds children on corn-starch, boiled potatoes, macaroni, rice and wheat flour, thus giving them soft, half-formed teeth, sure to decay?"

Detroit.—One of the most picturesque buildings in Detroit is the new home of the Woman's Exchange and Decorative Art Society of Detroit. It is an exact duplicate of one of the famous buildings of ancient England the Butchers' Guild in Hertfordshire. The building is a monument to the careful saving and hard work of the members. No part of the funds was received as endowments or contributions, but all was derived by the society from its own labors in marketing the goods of self-supporting women who bring the products of their hand to the exchange. Mrs. John B. Ford is president of the society, and Miss Stella Hough is superintendent. Last year the society handled over \$100,000 worth of women's products.

HE THOUGHT TIME HAD COME; TANLAC CHASES THIS IDEA

Twin City Man No Longer Has to Sit on Curb and Rest From Heart.

Another strong endorsement of the wonderful reconstructive powers of Tanlac is offered by J. R. Tilley, widely known Winston-Salem man, who "feels like a different man" after being a victim of stomach and heart troubles.

Mr. Tilley is connected with the B. F. Hundley Furniture Company and lives at Fairview and Pearl streets.

He learned of Tanlac thru a neighbor who had been benefited by it after various medicines had failed to "turn the trick."

"For ten years I suffered from stomach trouble of the worst kind," he said. "During the past two years my pains were augmented by heart trouble."

"Frequently I would have to sit down on the street curb because of the heart flutterings. Often I thought my time had come. The joints in my knees would swell and felt as if they were full of water. It is impossible for me to fully explain my torments."

"Like my neighbor who recommended Tanlac to me, I have been equally benefited. I'm on my second bottle and feel like a different man. Indigestion and heart trouble have left me. My appetite is good, I sleep fine, have gained four pounds and am getting back my strength with each dose."

"My hope is that others who suffer will profit by my story for I'm sure it will work for them as it has for me, and what other medicines failed to do."

In countless instances men and women who have suffered from stomach, liver and kidney troubles, catarrh of the head and throat, dyspepsia, blood impurities, nervousness, loss of appetite and strength have pronounced Tanlac the ideal reconstructive remedy—tonic, appetizer and invigorant.

The O'Hanlon Drug Store has the exclusive agency for Tanlac in Winston-Salem. There its merits are explained daily by the Tanlac Man. (Adv.)

ELKS PAY TRIBUTE TO MR. W. F. BURBANK

At the regular weekly meeting of the members of Winston Lodge of Elks last night, at the Elks' Home, the death of Mr. William F. Burbank, one of the oldest members of the local order, which occurred last Saturday in California, was feelingly referred to by Mr. K. E. Shore, an intimate friend of Mr. Burbank, and who was the last member of the Winston Lodge to have the pleasure of meeting him personally. Mr. Shore being a guest of Mr. Burbank on several occasions while a delegate to the Grand Lodge meeting in San Francisco last summer. Mr. Shore referred to Mr. Burbank as one of the most enthusiastic Elks in the local lodge and one who had made several valuable gifts to the lodge in which he had maintained membership for so many years.

At the conclusion of a brief eulogy to the deceased, fitting resolutions were drafted by a committee of Elks, a brief synopsis being telegraphed to Mrs. Burbank at San Jose last night and a complete copy being sent by mail this morning. The resolutions follow:

IN MEMORIAM.
Winston Lodge, No. 449, B. P. O. Elks, February 22, 1916.

Whereas, Death has removed from us our esteemed brother, William Freeman Burbank, a member of Winston Lodge, No. 449, B. P. O. Elks, there are hereby resolved:

First: That we have lost one of our most prominent, useful and valued members—a brother always generous and kind, mainly in action, and an honor to the Order of Elks.

Second: That we deeply mourn his death, and will ever cherish him—not only in marble, but on the tablets of love and memory.

Third: That having been faithful in Charity, Justice, and Brotherly Love the cardinal principles of our Order, we trust that He who watches over all our destinies may have the spirit of our departed brother under His watchful care, and on the last great day will again connect the chain so recently broken.

Fourth: That we extend our sympathy to the bereaved relatives in their great sorrow.

Fifth: That a copy of these resolutions be spread upon the minutes of the Lodge and that a copy be sent to the bereaved family.

W. A. MICKLE, Chairman.
W. J. NEWTON,
ERRETT STRALEY,
Committee.

THIS DATE IN HISTORY.
February 23

1827—Sir Walter Scott disclosed himself for the first time as "The Great Unknown," whose writings had made such a great impression.

1836—Battle of Fort Alamo, Texas—American settlers defeated Mexican invaders.

1846—Died, John Quincy Adams, former president of the United States.

1852—The first iron ship was launched on Wear river, in England.

1898—Emile Zola, French writer condemned to year's imprisonment and heavy fine for writing an article on the Dreyfus case.

1902—Ellen M. Stone, American missionary, was ransomed from the Mace donian brigands.

1915—Ex-President Madero and former vice-President Suarez shot and killed in the street in Mexico City.

1914—New York Assembly adopted a constitutional amendment providing for the short ballot.

1915—U. S. Senate passed the bill appropriating \$103,000,000 for the army.

1915—Eastern railroads put in effect five per cent advance in freight rates granted by Interstate Commerce Commission.

1915—The war: American steamer Carib sunk by mine in North Sea. Russians claim repulse of Germans and Austrians in East Galicia. Turks defeated by the Russians. Rhelms bombarded by Germans; 29 civilians killed. Britain further restricts navigation in the Irish Channel.

CHAIN OF EVIDENCE AGAINST FELTZ IS GATHERED

A search of a house on Southside not far from the Methodist church Tuesday afternoon by Chief Thomas, Sergeant Cofer, Patrolmen Dixon and Smothers and Deputy Sheriff Holder, revealed additions to the chain of circumstantial evidence in connection with the young man arrested by Patrolmen Swaim and Dalton early Monday morning, who gave his name as Robert Feltz, his home as Atlanta, and who officers think may have been implicated in blowing of the safe in the store of Center Mercantile Co., on Southside early Sunday morning.

The officers, armed with a search warrant, went to the house where it was found that the arrested man's name was not Feltz as he had said but Robert Fowler. Two women, one said to be the man's sister and the other his sister-in-law, were also found. The sister-in-law told the officers that her husband, whose name was J. W. Fowler, had gone to Atlanta several days ago.

Searching further the officers found the sum of \$24 in silver, together with a newspaper clipping of the robbery Sunday morning hid in a vase. It was stated in The Sentinel Monday that all of the money taken from the Center Mercantile Co. was in silver.

When arrested, Fowler had on his person a chisel which fitted the print on the front door of the store that was robbed.

In addition to the above articles the officers Tuesday found a trunk containing a pair of shoes, which without measurement seemed to correspond with the track made in the plaster-of-paris dust from the safe that was cracked in the up-town office of the Norfolk and Western Railway here, several weeks ago.

After the search Tuesday Chief Thomas entered Fowler's cell and told him that his house had been searched and that his sister had been seen. He had previously told the officers that he lived in Atlanta and that he had no relatives in Winston-Salem.

SAD STORY RELATED BY S. C. DICKEY IN CITY COURT

Captain T. A. Early yesterday afternoon arrested S. C. Dickey, the young white man who was tried in the municipal court Tuesday morning on a charge of having too much liquor in his possession, under the name of B. G. Dickerson, and who was dismissed because when the liquor was measured it was found to be short.

Dickey was caught with the goods and this morning he was given four months on the roads. Seven quarts were found in two trunks belonging to Dickey, which were found in a trunk and one quart in the other. Both trunks were almost full of corks, the kind that are used to wrap quart bottles in.

Thru his counsel this morning, Dickey told a pitiful story. It was to the effect that his wife had been ill in a Roanoke hospital for four weeks and that he was in a poor financial condition. He wanted to get \$30 and while he knew it was violating the law, he had to have it in order that his wife might be given the proper treatment.

Judge Hastings said that his client was from a good family, Dickey's home was given as Galax, Va.

After an effort to have the sentence changed to a fine had failed, an appeal was taken to the superior court. Bond was required in the sum of \$200.

Other Cases.
H. L. Holland parted with \$5 and the costs on a charge of assault.

Robert May was fined \$5 and the costs on the same charge.

John Barker, charged with being drunk, was fined \$5 and the costs.

Dewey Kiser was taxed with the costs in a case charging him with an assault.

M. F. Spencer drew a fine of \$5 and the costs on a charge of assault.

Ernest Hairston, colored, was charged with nuisance. He was let off with the costs.

Janie Burns was tried for vagrancy and given four months in jail.

REAL ESTATE TRANSFERS.
Wiley T. Smith to T. G. Jester, lot in county for \$225.

H. M. Hanes to T. G. Jester, lot in city for \$1 and other valuable consideration.

J. Williams to Laura Douthit, tract of land in county for \$40.

E. B. Cassell to H. D. Shutt and C. E. Johnson, tract of land in county for \$10 and other valuable considerations.

Mrs. C. P. Shaffer to C. M. Thomas, lot on Main street for \$1 and other considerations.

S. A. Hutches and W. S. Alexander to C. M. Thomas, lot on Main street for \$1 and other considerations.

Bank of Kernersville to C. J. Dillon, two tracts of land in county for \$250.

Minnie O. Weisner to C. O. Weisner, lot on Crouch street for \$125.

N. E. Perry to Crawford Plumbing and Mill Supply Co., lot in city for \$3,700.

C. B. Whicker to S. A. Stoltz, tract of land in county for \$5.

STATESVILLE PASTOR IS CALLED TO FRANKFORT.

Rev. Dr. C. E. Raynal, pastor of the First Presbyterian church at Statesville, has received a call to the pastorate of the Presbyterian church of Frankfort, Ky. Some weeks ago a member of the congregation of the Frankfort church visited Statesville with that object in view. Mr. Raynal will go to Frankfort this week to visit the congregation extending the call and will preach there next Sunday. Soon after his return it is expected that he will announce his decision, says the Landmark.

PROBABLE INCREASE IN PRICE OF SHOES

According to information made public in Washington the foreign demand for shoes and boots gives prospect of a rise in the cost. The production of hides in this country is said to be insufficient to meet the demands that

QUALITY MEET ME AT THE IDEAL SERVICE
MODART CORSET
Front Laced

Why Your Corset Should be a MODART
THERE are many corsets to choose from. Each lays claim to certain features. But there is only one corset that can claim the skill of Jennings in design. And Jennings is the world's foremost designer of front laced corsets. He designs MODART'S exclusively. This should mean much to you—if you seek proper corseting. Jennings' fame as a designer is not entirely based on his style—creative skill. He has made a study of anatomy in its relations to proper corseting. MODART Corsets permit you to breathe easily and normally. The rise and fall of the diaphragm is unrestricted. You feel no undue pressure anywhere. Yet you will note a gradual improvement in your figure—a greater grace of line—a finer poise. If you have never worn a MODART then we urge you to have a MODART fitting. **New Spring Models \$3.50 to \$7.50**

Business Rules For 1916
It's a belief of The Progressive Farmer's that the farmer ought to be just as genuinely "business" in all his manufacturer or merchant—not so big a "business man" in most cases, but just as genuinely "business" in all his methods. So important is this in our opinion that we are going to repeat a few ideas we have been suggesting over and over again:
1. Take an inventory the first of the year.
2. Put your rental contracts in writing.
3. See that all deeds and other papers are in proper shape; and put your will in written form.
4. Get all your 1915 debts paid, and if there are any you can't pay now, get a memorandum as to the exact amounts of all and arrange to extinguish them as fast as possible.
5. Get a farm record or account

are being received both from and from the domestic market. Ernest Hairston, colored, more than men's shoes were exported in than in 1914.

WHY WOMEN WRITE LETTERS
To Lydia E. Pinkham Medicine Co.

Women who are well often ask the letters which the Lydia E. Pinkham Medicine Co. are continually published genuine? "Are they true?" "Why do women write such letters?" In answer we say that never have published a fictitious letter or name. Never, knowingly, have we published an untrue letter, or one without full and written consent of the woman who wrote it.

The reason that thousands of women from all parts of the country write grateful letters to the Lydia E. Pinkham Medicine Co. is that Lydia E. Pinkham's Vegetable Compound has brought health and happiness into their lives once burdened with pain and suffering. It has relieved women from some of the worst forms of female ills, from placements, inflammation, uterine irregularities, nervousness, weakness, stomach troubles and from the blues. It is impossible for any woman who is well and who has never suffered to realize how these poor, suffering women feel when restored to health; their keen desire to help other women who are suffering as they did.

Instantly Served Everlastingly Good
Nowadays, in many homes where health is valued, the table beverage is
INSTANT POSTUM
Not alone because it is served so quickly, but more because it is a pleasant, healthful beverage. Made of wheat roasted with a bit of wholesome molasses, Instant Postum is entirely free from the subtle, cumulative drug, caffeine, in tea and coffee—free from any harmful substance.
More and more, people are finding out by personal experience that coffee is the frequent, though often unsuspected cause of nervousness, biliousness, heart flutter, insomnia and various other ills and discomforts. The alternative when coffee doesn't agree is POSTUM.
"There's a Reason"
Grocers everywhere sell Postum.
Send two cent stamp to Postum Cereal Co., Battle Creek, Mich., for 5-cup sample of Instant Postum.
