JUDGES ACQUITTED.

The impeachment case against Judges Furches and Douglass closed Thursday and the Judges were acquitted. The vote stood 27 for conviction and 23 for acquittal; but as it requires a two third vote to convict, the Judges were declared acquitted. The vote to convict was made up of 27 democratic jurors, among the best men in the State; the vote for acquittal was composed of 12 democratic jurors, as good men as the State affords, and 11 republican Senators, good men but hardly jurors, Pritchard having tagged their votes before the trial. While it is an acquittal, it cannot be a vindication of the action of the Judges in overriding the constitution and laws of the State. The effect of the trial will result in much good. It will remind the Legislature to be conservative and careful in passing laws. It also calls the Judges to a halt in their wild career of resolving themselves into political machine in violation of law and constitution. The people will see to it their Legislature acts right, and also that judges study Law instead of Politics.

Wilkes Courts

Our first court under the new arrangement will begin on the 4th Monday before the 1st Monday in September which will be this year the 5th day of August. The next court will be the 7th Monday after the 1st Monday in September which is the 21st of October. This term is for civil cases only. The 1st term in 1902 will be the 5th Monday before the 1st Monday in March, which will be about the last of January.
