—The Landmark says that in Statesville the past few days there has been a tremendous amount of tobacco sold at McElwees Planters Warehouse at good prices a lot of it being from Yrukin county. It further states that this Warehouse is gaining in popularity with farmers every day.

The Kansas City Star has paused to reflect that one marriage in four ends in divorce in Kansas City, one in eight in Missouri and Kansas and twelve in the United States. These figures are astonishing in the eyes of Europeans where the divorce average is much smaller. In Switzerland there is no divorce in twenty-two marriages, in France one in thirty, in Germany one in forty-four and in England one in 400.

Holton Appointed Again

Washington, Jan. 18—President Taft today nominated A. E. Holton, United States attorney for the western district of North Carolina: John Duncan to the United States marshal district of South Carolina and Edwin P. Morrow United States attorney for eastern district of Kentucky.

It was generally believed by those who follow North Carolina politics that former Judge Spencer B. Adams had been promised the place, but his attempted suicide a few days ago removed him as a possibility. This is Mr. Holton's 4th appointment, he having already served three terms. His term expired last March, and the matter has been hanging fire since that time.

There will be no opposition to the confirmation of the nomination by the senate.

The Chicago Tribune prints a lengthy comparison of benefactions, suicides, disasters, fire railroad fatalities and other data concerning accidents happening in the last twelve months. Andrew Carnegie, with gifts of \$19,664,325 for year, heads the list of givers.

The suicide record shows 12,608 victims.

The loss of life in general is given as follows: Drowning 5,112; fire 3,562; mines, 1,004; storms 205; explosions, 951; electoril, 189; lightning, 199; asphyxiation, 239; elevators, 112; automobiles 920.

The railroad fatalities: 3,520 killed 1,658 injured.

One of the hardest duties in the world is to fill the news columns of a local paper with interesting items when there is really no news to write. It is for more vexing and perplexing than a person who has never had any experience in newspaper work can well imagine. The paper must come out on time, and the reading matter has to be supplied from some source. When the brain of the editor becomes worry, mind inactive and his faithful scissors dull, is it for you imagine, any child's play for him to probe the gas-bags of imagination and bring fourth a column or more of original "wind" that will both edify, delight and instruct his readers? Verily the life of a country editor is full of trials, troubles and perplexions like the wicked, he is doomed to a half his days.

Farmers Will Pool Tobacco Crop 1911

Although not officially given out it is reliably stated that the tobacco growers of the state in session in Winston Friday 13th, passed a resolution calling upon the growers to pool the 1911 crop upon the plan of the burley growers of Kentucky.

The resolution also calls for the establishment of a dry prizer to facilitate the handling of the crop. A second resolution was passed, it is said, by which the growers agree to decrease the acreage of the 1911 crop. This resolution was followed by a refusal to offer prizes for the largest yields per acre, because the principal of offering prizes for the increased yields is in direct opposition to the movement for decreased acreage.

WILKES CITIZENS FIGHT IN WRIT

Wilkes Patriot. "Leave 'em alone and let scrap it out!" did not have to be said to a couple of combatants who engaged themselves in a few rounds here Monday. The pugilists in question were John Minton and Nelson Foster and the fight took place in the bottom of a 60-foot well. They were both down in a well at Hotel Smithy putting in a new wall, when they fell out—not out of the well, but with each other. There were only two spectators, and neither of these felt inclined to go down and act as pacificator.

One of the onlookers, however, whose veracity please understand, is not to be questioned, says that the fight only stopped when when he tied a pair of pot hooks to the well rope and fished Nelson out. He further avers as Nelson was making his unwilling ascent John grabbed him by the heel pulling off his shoe, which he hurled after his wriggling adversary. Nelson, in turn, bid John adieu with a quid of well chewed "Brown's Mule."
