Finds Snake in Shoe

One day last week Mr. John Brannon who lives just south of town, felt something in his shoe and looking saw the tail of a snake sticking out. It is useless to say he got his shoe off double quick and the snake taken out measured 2 feet long.

The snake had evidently been in the shoe for some little time, as it was mashed and almost dead.

Mr. Brannon says there was no grass grew under his feet, and no bull-dogs interfered with his business while getting the serpent out of his shoe.

Master Apple Tree

We thought we had heard every conceivable story that could inimate from the pen of a Wilkes County editor, but the Patriot comes along with still another, here it is:

Messrs. J. B. and H. W. Horton discovered an apple tree some days ago, on the Newton Gentry farm in Trap-hill township, which they believe to be the largest apple tree in the world. The tree, at its base, is 16 feet and 5 inches in circumference. Eight feet above the ground, at the first limbs, the tree is 12 feet and 5 inches in circumference. This would make it, at the base, something over five feet in diameter. At one time the limbs extended for 30 feet on all sides, but a heavy sleet brok them off some years ago and now it has a growth of new and vigorous limbs. Speculation can only guess at the age of the tree, though it is known to be more than 100 years old. The tree bears every year, a large crop of splendidly flavored, good, keeping apples. A single crop has frequently been estimated at near 90 bushels.

Pay As You Go.

In one of her newspaper articles, Virginia Harlan advises: "Pay as you go." Good advice. If people would pay as they go they would stop going wrong. When they find out they are getting 'busted' by going wrong they would begin to economize and and put their money in a savings bank which pays 4 per cent interest compounded every three months.—Winning Star.

Shooting in Wilkes

Revenue officers, Holland, Shepherd, Harkins and Grant went to the Basin creek section of Wilkes county the latter part of last week to make some arrests. They were making a search at the home of Joe Billings when two of Billings' sons, Relley and Zeke, and Samuel Watson, approached the house and grappled with the officers. In the mixup Kelley Billings drew a gun and fired at close range at Mr. Harkins. He fired two or three shots and so close was he that Mr. Harkins was powder burnt in the face, though fortunately he was not hit by the balls fired from the gun. Billings was fired on by the officers and he was seriously shot in the groin. The gun used by the officers being a high pressure gun, the ball bored its way through the bone without fracturing it. The wound, though serious is not considered necessarily fatal unless complications should set up. The officers called a physician, who gave the injured man necessary medical attention. On Sunday he was moved to a Mr. Alexander's where he is under gaurd. As soon as he is able to make the trip he will be taken to Wilkesboro for a hearing before United States Commissioner,

Raleigh, May 20—The second conference of Governor Kitchen and the council of state with the officers of the Elkin & Alleghany Railroad Company and President John A. Mills of the Raleigh and Southport to-day as to the sale of the Elkin Road, resulted in a counter proposition by the council of state, which necessitates further investigation as to the possibility of financing the enterprise under the proposed new conditions. Consequently Mr. Mills and Mr. H. G. Chatam, president of the Elkin road, will go to New York at once to finally adjust matters to conform with the new conditions.

All are confident that the transfe of the property will be made, assuring the immediate completion and operation of the road from Elkin to Sparta and Jefferson.

Bald Mountain Again

Bald Mountain in Henderson county is cutting up again, and people in those parts are seriously frightened. The rumblings, and tremblings of the earth have been heard and felt for many miles around, and it is even reported that smoke has been seen ascending from unknown depths. It has been more than thirty years—in 1878 according to newspaper reports, that the people of the region round about Bald Mountain were greatly excited on account of the supposed antics of the mountain. They think a slumbering volcano is doing all this and some of them expect eruption that will utterly destroy the entire region at any time.

Ladies Must Not Read

It is said to stand on her head. We know she's got it if it's a lady. This poem she has already read. Now we'll venture ten cents to a farthing if she gets the least kind of a howl. But you bet she'll find it in some place. It's something she ought not to know. If there's anything worse, a woman
