DANGER! SPECIAL NOTICE.

The Editor of this publication is spending this week in the Mountains taking lessons in sword fencing and target shooting and incidentally attending the Editors Association at Lenoir. We deem it a duty in his absence to notify all of his delinquent subscribers and advertisers to see that their account is square with this paper by the time he returns or made so soon thereafter. He is not necessarily vicious but necessity begets boldness and he is not taking all this training for nothing.

Anything will be accepted on subscription from a good fish-hook and sinkers up to a nice block of shares in the Steel Corporation (no shares in the Standard Oil Co. or American Tobacco Co. taken) and your life will not only be endangered if you do not pay up but it will be embarrassing to your friends to read what he will say in your Obituary after you have paid the penalty. It is said that the Editors will make an excursion of two days across Jona's Ridge and camp under Tabor Rock where they will feed upon the flesh of the brown bear and tickle the belly of the rattle snake with a straw in order that their blood may become inoculated with ferociousness and that their nerve training may be complete.

27 Blockaders Sent to Pen from Wilkes Federal Court.

That the term of Federal court at Wilkesboro last week was the biggest ever held in this district, from the standpoint of prisoners sent to the pen and the number of true bills of indictment found, was the declaration of District Attorney Holton, after spending a little more than three days busily engaged in the prosecution of the blockaders of the "State of Wilkes" and adjoining counties.

In all there were twenty-four prisoners sentenced to the penitentiary at Atlanta and three remanded to the reformatory school at Washington. All but two or three of these are being sent up for blockading, while the rest were convicted, two for resisting federal officers and one for using the mails to defraud.

Federal court at Wilkesboro began Tuesday morning and closed Friday. During the term there were 91 true bills of indictment found, which, according to District Attorney Holton, is a greater number than has been found in the whole western North Carolina district during the last year.

Mr. Holton says that the people of Wilkes are determined to put a stop to blockading, and that in no place has he ever before received such aid in the prosecution of those indicted as from the private citizens of Wilkes county at this term of court. It is understood that in some sections of Wilkes county the conditions have reached such a stage that it is almost as dangerous to live there as it was formerly in the famous Smithtown of Stokes county.

General News

Mr. J. O. Matthews, of Smithtown, has a clock that is over one hundred years old in good running order. It is seven and a half feet high.

If some fellows we could mention would spend more time attending to their own business and less time trying to run down their competitors they would do better and their town would do better, too.

The picnic season is now upon us with the usual accompaniments—flies, fleas, mosquitoes, grass chiggers and gnats. But there is a barrel of fun in a day's outing, anyhow.

When you hear a fellow always running down his competitor, you can put it down that the competitor is getting the best of him. Ever notice it?

Mr. W. L. Spoon, of Alamance county, state road engineer, has been elected road engineer of Forsyth county, at a salary of \$3,600 a year. Forsyth is one of the six richest counties in the state and spends nearly \$100,000 a year on roads. The election of such an expert as Mr. Spoon means that the county intends to have the best.
