## 6,000 Bushels of Apples on Cone Estate

While the crop of apples on the Cone estate at Blowing Rock is light, taken as a whole, the yield is roughly estimated at 6,000 bushels. Crates in large numbers, holding one bushel each, are now being prepared for the shipment of the crop. Each apple will be wrapped in paper, each paper bearing the name of the apple and orchard from which it was gathered. Fine mountain apples so nicely handled it seems to us, they're bound to bring a nice price, especially when the crop is light throughout the country, as is the case this year.

## Mule Sold for One Cent.

First Monday and court week always bring large crowds to the county's capital and Monday last was no exception to the rule, there being a number of citizens here from all parts of the county. These are also occasions for the congregating of horse-swappers on the boneyard. Quite an amusing incident happened Monday when a horse swapper trotted out a mule that he offered for one cent cash. The offer was promptly accepted by another dealer, who shortly sold the animal for twenty-five cents, realizing the handsome profit of 2400% on his short investment. Other deals ranging from 25 to 50 were frequently made during the week. So it will be seen that good stock is still in demand and bringing reasonable prices.—Rutherfordton Sun.

## Youngest Mother

Mrs. D. W. Burden of Atlanta Georgia, is said to be the youngest grandmother known outside of tropical countries. At 16 her eldest daughter, born when her mother was only 13 years and 3 months old, gave birth to twins. The grandmother was only 29 when these twins were born. A year later, in January of this year the daughter gave birth to another child, making her grandmother of three children at 30. It is said to be rare that a woman in this part of the world becomes a grandmother even in the early thirties.

## Kitten Has Two Heads

Mr. Vance Hauser, who lives a few miles south of here was in town Thursday of last week and had with him a kitten that had two perfect and distinct heads. The kitten did not, however, live very long.

It had four legs, and in every way resembled an ordinary kitten, both heads being about the same size.

—Mr. Henry Reynolds has severed his connection with the Wilkes Patriot and will shortly enter Columbia University to take a post-graduate course in law. Ex Congressman C. H. Cowles will assume entire control of the Patriot.

## CARD OF THANKS

We desire to express our sincere thanks for all the kindness and help shown us by our neighbors and friends during the sickness of our daughter Ethel.

Sincerely,  
(Mr. and Mrs.) C. C. Bray

Thanksgiving day comes on the last day in November this year, which is well as it gives us one week longer in which to raise the rice of a turkey.

An eavesdropper never hears no good of himself, is an old saying, but it takes some people a life time to learn it.

## Live Stock Industry

Charlotte Special—The Southern Railway is endeavoring to build up the live stock industry throughout the South, having established a special department for this work, and is now inaugurating a movement for the organization of local live stock associations in every county along its lines in Georgia, Alabama, Mississippi, South Carolina, North Carolina, Virginia, Tennessee and Kentucky.

The organization of such local associations will prove of immense value to live stock growers. They will stimulate progress as they give an opportunity for exchange of ideas and the distribution of good breeds and the association exhibits and auction sales pave the way for excellent county fairs and live stock shows.

The live stock department of the Southern Railway is in charge of Mr. F. L. Word, Live Stock Agent, who has offices in Atlanta. For the next few months he will devote special attention to the formation of county live stock associations and will be glad to co-operate with live stock men in any county along the Southern Railway. A letter addressed to Mr. Word will bring a prompt reply and will secure his active interest. He will be glad to hear from those who may wish information as to the advantages of local associations or the best methods to adopt in organizing them.

## The Tobacco Outlook in Yadkin

Winston-Salem Journal.  
That the farmers of Yadkin county will send to the local markets about as large tobacco crop as has come from that section in years, was the surprising information imparted by a prominent citizen of that county in the city yesterday. During the whole summer it has been reported generally that the tobacco crop in Yadkin would not be more than half the usual amount. This report was based on the extremely late season last spring.

But it is stated now that the late rains during the summer have greatly helped the crop and that there will be little falling off in the number of pounds though it is thought that some of the plants will not ripen before the fall frosts. From this cause much of the weed will have to be cut rather green and the quality will not be up to the usual standard.

(The above story is correct in many instances but it is certain there will not be as has been for the past several years owing to the fact that dry weather in the early spring prevented the amount of plants necessary.

The tobacco that was put out looks exceedingly well considering the dry weather, but, as the Journal says, a great deal of it will not get ripe.

It is not thought that there will be any more than half the crop that Yadkin usually has because it was not put out.

## English and American People Have Much In Common.

By JAMES BRYCE, British Ambassador to the United States.  
THE English and American people had MUCH IN COMMON. American history did not begin in 1776; it did not begin with the settlement of Jamestown; it didn't begin with the landing of the Pilgrims. But rather it began in 446 A. D., when a handful of Saxons landed on the banks of the Trent.

TO PROPERLY UNDERSTAND THIS STORY OF AMERICA WE SHOULD HAVE TO UNDERSTAND THE HISTORY OF ENGLAND—IN FACT, WE WOULD HAVE TO UNDERSTAND THE HISTORY OF THE WORLD.

All English and American liberty is based upon the principle that a LAW ONCE MADE MUST BE OBEYED BY ALL THE PEOPLE. These laws were the work of the whole people. Even in the feudal days in England the feudal leaders did not act alone. The same is true in America. It is the WHOLE PEOPLE WHO MAKE THE CONSTITUTION AND THE LAWS.

I can assure you that what happens in this country is WATCHED WITH KEEN INTEREST by many in Britain. There are certain virtues necessary for a country—COURAGE, HONOR, UNSELFISHNESS AND DEVOTION TO PUBLIC DUTY. If you fix your eyes on the men in whom these virtues shine with equal luster you will have done much.

## A Call That Must be Answered

Dear Subscribers:

All Subscribers are earnestly requested to call and bring or send in the subscription price of this paper for all back subscriptions at once. We will be obliged to send out statements if you don't, and we know you had rather attend to it on your own accord than have us ask you for the amount due.

We make this appeal so that those living near may call in, and those whom distance prevents coming may send in theirs. We have a list of subscribers that we are proud of, and all of whom we believe to be honest, but we have given you good time to settle your account, and now that we are in urgent need of money we make this appeal to everyone due us on subscription to come, or send, and settle at once, by doing so you will do us a great favor.

Remit by check, money order or postage stamps.
