## Political Talk

MR. EDITOR:

As the political decks are now being cleared for action and the troops lining up on either side, I suggest the name of John H. Dobbins for County Treasurer. He is well and favorably known, scrupulously honest, a good business man, and is beyond all peradventure entitled to the nomination.

Four years ago he led all the other candidates, and came very near being nominated. He lives at the county seat and would be ready to transact the public business at any time. And, besides, his father was a Union soldier, going through the lines and enlisting in the Union Army, fighting heroically for the Stars and Stripes under extraordinary circumstances. If he had been captured he would have been summarily shot as a traitor. But he loved his country and risked his life on many a battlefield. So honor the son of such a worthy sire.

Every Republican in South Liberty is for Roosevelt and the brilliant Settle for Gov.

Their names strike terror to Democracy.

With best wishes for the Ripple and its many readers, I am

Very truly,  
SOUTH LIBERTY FARMER

## Poet Meets Poet

Another Missouri farmer whose hog was killed by a train wrote to the company's claim agent for a settlement says a writer in the Columbia Statesman. He penned his communication thus: "Dear Sir—My razor back strolled down your track a week ago today. Your twenty-nine came down the line and snuffed his life away. You can't blame me, the hog, you see, slipped through a cattle gate; so kindly pen a check for ten thousand the debt to liquidate."

He received the following reply: "Old twenty-nine came down the line and killed your hog, we know; but razor backs on railroad tracks quite often meet with woe, therefore, my friend, we cannot send the check for which you pine. Just plant the dead, place o'er his head: here lies a foolish swine."

## One Outlaw Caught

Sidna Edwards one of the notorious Allen gang which shot down the court at Hillsdale Va., has been caught and placed in jail. All the others are still at large.

Elkin is to have an ice and cold storage plant. The promoters are R. L. Poindexter, S. M. Arnold and others. About \$22,000 has been subscribed. The plant will be located just south of the depot.

We have some people who are willing to sit around day after day and hallo' hard times, and talk about some one and stick out their lips because things don't go to suit them, these same people never try to do anything for themselves or any one else. Some seem to have forgotten that the days of raining manna has past, and if it had not we fear that some would grumble because it did not fall every day alike.

—There will be a Fiddlers' Convention at Smithtown on Saturday night before Easter Sunday April 6th. Valuable prizes will be awarded. Everybody is invited to attend, and a general good time is expected.

## Roosevelt Sentiment Subsiding

It is a plain fact that the Roosevelt sentiment which struck the country so forcibly a short time ago, and seemed to seize everything in its wake has greatly subsided within the last few days. The New York Sun, which is authority on the political outlook prints a long story of this change, which seems to have come of its own accord all over the country. It seems that the people at first did not understand the policies advocated by Colonel Roosevelt, his views on the referendum, recall and other important questions. They had an idea if it was Roosevelt's policy it was alright no matter what it was.

But their eyes have been opened not only in Yadkin County but other localities as well, they realize the perilous position the country would be plunged into under the ban of what might be termed mob rule.

The public utterances of the Colonels have had something to do with the present fall of his popularity. He does not practice what he preaches, tries to construe President Taft's position on the primary question in a different light from what it really is; he has twisted several important matters until they are almost out of shape. The people see his position and the American people of to-day are too proud to be mislead or blinded by a single man. Just as we suspected the people see the difference in a safe and sane administration and one consisting of filibustering and iron hand rule, hence the change in sentiment.

## Students Examination

On Saturday, April 17, 1912, in Yadkinville, Prof. W. D. Martin will give the examination to all who wish to take it. This is open to all who have finished up the work of the seven grades, and a certificate will be presented (later on) to all who pass it satisfactorily, showing that the course of study in the free schools has been completed, and that those who receive them are ready to enter the high schools. It is hoped that a large number from all over the county will be present. Arrangements for the county commencement will be made later.
