## State Convention at Charlotte

At an open meeting of the Executive Committee, held in Greensboro, Wednesday, Charlotte was selected as the place and September 4 as the time for holding the State Republican Convention to nominate a State and Electoral ticket.

A resolution introduced by Dr. J. J. Mott, which was adopted contained the following:

"We indorse the nomination of William H. Trift for President and James S. Sherman for Vice President, and pledge our loyal support to their reelection, and declare our abiding faith and belief in the principals of the Republican party as enunciated in the national platform adopted at the Chicago convention held June 18, 1912.

Resolved, further, that in view of existing political conditions the committee deems it proper to announce to the Republicans of the State that in holding their county and township conventions none but those who endorse the national Republican candidate for President and the Republican platform adopted at the Republican convention held in Chicago, June 18, 1912 are in any capacity entitled to participate in or represent the party, and that in organizing all township, county, senatorial, congressional and State conventions none but Republicans supporting the national ticket, and the platform of our party nominated and adopted at the convention held in Chicago, June 18, 1912, be allowed to participate in the election of delegates or committeemen, or in nominating candidates or in any way participating in said conventions."

## HEALTH TALKS

The first thing to do when the baby gets sick is to stop feeding it. Probably the milk is bad anyhow. But whether it be good or bad, it will disagree with a sick baby. In place of milk, the baby should take clean water from a clean bottle or clean cup. If the trouble keeps up, there are milk substitutes which can be given until it is safe to give milk again. The physician or nurse will demonstrate how these are made.

The next step, after stopping the food, is to empty the child's intestines of all fermenting, decomposing food. The parent is justified in going as far in this line as the use of oil by the mouth and of simple enemias by injection. If relief does not come when these have acted, the mother is not justified in going further. She should get the help of a physician or nurse. Caring for a sick baby is so largely "doing and showing," as contrasted with "telling," a nurse is needed more than would usually be the case.—(Dr. W. A. Evans.)

## Kisses

Though deadly germs in kisses hide,  
E'en at the price the cost is small;  
'Tis better to have kissed and died  
Than never to have kissed at all.

## Sunday Train to Wilkesboro

A Sunday passenger train will be put on by the Southern from this city to North Wilkesboro, beginning next Sunday. The train will run on the same schedule as the everyday passenger train, starting from here at 9:30 a. m. and returning at 7:25 p. m.

While the major portion of the people along this line have desired a Sunday schedule, and have again and again offered petitions to this effect, quite a number were opposed to it, and have succeeded up to this time in keeping it off.

Recently there has been a great falling off in the sentiment against a Sunday train, and for the past few months it has been given serious attention by the division, resulting in the decision to put it through.

There is hardly any doubt expressed at all about the paying of the train, and people from the section of country through which the railroad extends are enthusiastic over the advantages it will bring them. It will also enable a large number of people in the city who have relatives in the country along the route to make their pleasure trips more frequently.—Winston Journal, Aug. 7th.

## Tobacco Market Opens

August 1st is the late for the opening of the Winston-Salem tobacco market for the present season. The crop is promising but not far enough advanced to furnish offerings but in about a month the sale of the leaf will actively begin and from present indications more leaf tobacco will be sold at the Winston-Salem market this season than for any time during its history as a tobacco market.—Union Republican.

## The Very Meanest

Our idea of the meanest possible person in the world is one who will take a paper one or two years and when the publisher sends in his statement he refuses to take the paper out of the office any longer or pay his past dues.

## Williams Saves His Whiskey

In the United States court at Greensboro, the past week before Judge James E. Boyd the matter of the injunction issued against Collector Brown by Judge Pritchard was heard and disposed of in favor of the complainant, N. Glenn Williams. This was a case that has been before the court for several months, arising when the United States commissioner refused to grant a new distiller's bond to Williams on a large number of barrels of whiskey which had been seized by Collector Brown was about to seize the whiskey according to law, when Williams went into the courts and secured an injunction on the collector. Judge Boyd yesterday, after hearing the arguments of the counsel for Williams and for the collector, continued the injunction and accepted the bond.

## \$1,000 in Checks Hidden by Small Boy

Although Mr. W. A. Hall is a careful and safe banker, about one month ago Mr. Hall carried a pack of letters home with him one night to answer them. Next morning the letters were ready to mail and were started to the Post Office by Fred a small son of Mr. Hall. One of the letters was addressed to the Bank of Davie and contained checks to the amount of \$1,076. When Mr. Hall failed to receive any credit for the checks he became alarmed and began an investigation which resulted in the finding of the letters under a stump near his home where the boy had placed them instead of taking them to the P. O.

## Is This You?

Boys with hats on the back of their heads and long hair hanging down over their foreheads and cigarettes and very smutty stories in their mouths are cheaper than old worn out work horses. Nobody wants them at any price. Men don't employ them and sensible girls won't marry them. They are not worth their keeping to anybody and it is not likely that they will keep themselves. If anybody should happen to read this who answers this description, let him take a look at himself and jump in a well and say: "Here goes nothing."

## Former Yadkin Boy Writes

Hiddenite, N. C.

Mr. Editor:— You will find enclosed check for \$1.00 for which please send me the "Yadkin Ripple" another year. I get a bit of news each week that does my heart good as I love the good old county of Yadkin as I love no other soil. I haven't had my foot in Yadkinville in going on three years. I passed through there about three months ago with my mother in a buggy on Sunday morning, but I didn't have time to stop as I was visiting my parents, and had such a short time to stay, I had to stay with them. I hope some day, however, to be back among those I love, when the Statesville Air Line Railroad is complete I hope to get a job with them.

Crops in this section are fine especially corn, and Rail Road work is booming. The Davis-White Sulphur springs which are only one mile from my station, and as unfavorably as the season has been, has got 175 guests, going and coming all the time. My wife is getting stout again after having had an operation a month ago in Charlotte, for appendicitis. I am sorry indeed to learn that Prof. Dixon is going to leave, but hope that will fill his place successfully. I will close hoping to hear from you each week through your paper.
