—The Democrats of Yadkin county will hold their county convention here next first Monday Oct. 7th. Mr. Williams Declares He Is Victim Of Malicious Prosecution

Winston-Salem Sept. 29.—Alleging that he is the victim of a prosecution actuated by personal malice toward him on the part of Federal revenue officers, Mr. N. Glen Williams, through his attorney, ex-Judge Bynum, is making the last stand before Judge Boyd in an attempt to save his 28,000 gallons of whiskey from the auctioneer's hammer. If he fails this time—as he has not done before—that hammer will fall and the booze will pass forever from him on Sept. 30.

Dr. Pridgen's Work—50 Per Cent Infected.

We have a report on the work being done by Dr. and Mrs. C. L. Pridgen in this county for the first two weeks, but we are unable to give the report in full. In all 191 were examined for symptoms of Hookworm, and 590 were infected—or 50 per cent.

The largest per cent was at Courtney which was 60 per cent, and the smallest at Boonville where only 36 per cent showed infection.

Roads Worked in Iredell by Taxation Hereafter

Under Iredell county's new road law ratified by the voters when the \$400,000 in bonds were voted for road improvement, all roads of that county will hereafter be worked by taxation, the new law becoming effective this month when the old system was abandoned. A network of fine roads is being built through the county under the bond issue and the county commissioners held a special meeting and made provision for the upkeep of all the public roads by appointing paid overseers for each township, whose business it will be to look after the roads of their respective townships. Each overseer will be furnished with necessary machinery and tools and he is to hire teams and labor sufficient to keep his roads in repair. The plan is a step forward and means much to all sections of the county. As the good roads work progresses in the county the enthusiasm of the good roads "cranks" grows greater.

WHERE THE CASH IS COMING FROM

Women Work at Night to Finance Roosevelt Campaign.

AWFUL FACTORY CONDITIONS

New York State Investigating Committee Found Pale, Worn Women Working in Twine Manufacturing Concern Owned by the International Harvester Company.

Awful conditions have been found by the state factory investigating committee of New York in the mills of the Osborne Twine company, No. 2, at Auburn, N. Y., owned by the International Harvester company, of which George W. Perkins, chief financial backer of Theodore Roosevelt in his scheme to ruin the Republican party, is a director.

"The appearance of the women workers in this plant," said a member of the committee, "was very disheartening. They were worn and pale and their clothes, faces and hands were covered with oil and heavy dirt. Many of these women, so called, are only children in age and they have to live here in a room, weighing 150 pounds each, across the floor, the bed in some cases being bigger than the women themselves. In the spinning room, where women are employed alone, to the exclusion of men, who would have to receive higher wages, the clutter of machinery is so tight that a voice below a shriek cannot be heard. The rooms are dark, though for no necessary cause, and no attempt is made to remove the dust, which is kept in constant motion by the line shaftings despite the requirements of the law. This dust is breathed continuously by the women, many of whom complain of chronic coughs and colds. The dust and dirt are so thick upon the clothes of the girls that at the noon hour—which in many cases consists of but a few minutes—and at the close of the day's or night's labor, the girls have to sweep each other clean with brooms."

It is further stated that the custom of working the women all night is permanent, married women being selected for night work, their hours being from sundown until 6:30 o'clock in the morning. Of 600 women employed in the mills, 200 work all night.

When George W. Perkins was named by a New York Times reporter for an explanation of the conditions in an establishment of which he is one of the directors, he made, in part, the following remarkable reply: "This night work has been rendered necessary largely because of the government's perfectly unreasonable attitude toward long-governations, which has made it impossible for managers of large concerns to know whether they were on foot or horseback, whether they could expand their plants to keep up with increasing demands or not."

The late Mark Twain in his brightest moments never uttered anything more truly humorous than the foregoing explanation by George W. Perkins of why the company of which he is a director is working women all night under the rigorous conditions disclosed by the New York state factory investigating committee.

Meanwhile it ought to be of interest to millions of Republicans throughout the United States to know where the money comes from to finance Theodore Roosevelt in his campaign of "rule or ruin."

What Makes a Woman?

One hundred and twenty, zero or less, of bone and muscle don't make a woman. It's a good foundation. Put into it health and strength and she may rule a kingdom. But that's just what Electric Bitters give her. Thousands bless them for overcoming fainting and dizzy spells and for dispelling weakness, nervousness, headache and tired, listless, worn out feeling. "Electric Bitters have done me a world of good," writes Eliza Paul, Deper, Ohio, "and I thank you, with all my heart, for making such a good medicine." Only 50c. Guaranteed by all Druggists.
