Vote for the railroad.

The largest political demonstration gotten up in this country in twenty years was the one in New York on the 6th of next month...

Warehouses, tobacco factories, cotton factories, water works, street railways, electric lights, etc., are the great finger boards to successful enterprise...

It is no trouble to get a town on a boom and make it grow rapidly if it has people in it of the right spirit.

If she has to buy a range or a stove for \$5 dollars she gets 17 dollars in goods...

If she buys a dozen steel knives and forks for \$1.50 she gets about \$2 in knives and \$1.50 in protection.

If she buys a dozen glass tumblers for \$1 she gets 55 cents in glass and 25 cents in protection.

If a young farmer buys \$100 worth of supplies to start out to farming he gets \$50 dollars in machines and \$50 dollars in tools...

On a capital of \$5,000,000 the Pennsylvania Steel Company in one year paid dividends of 22 per cent in cash...

The highest wages which the 120,000 laborers, skilled and unskilled, obtained for their work in the iron mills during this year was \$1.15 per day on an average.

Parties who sold tobacco in Danville yesterday say it is going up every day.

ALLIANCE NOTES.

[We are anxious that some one in each of the Alliance news and all other news in his section each week...]

The Yanceyville Alliance will meet the last Saturday in this month.

The county Alliance will meet 1st Friday in October. Secretaries of sub-Alliances should have full reports ready for this meeting.

The Alliances in the cotton sections have declared "war to the knife and the knife to the hilt" against the Big Game Trust.

The first Farmers' Alliance was organized in Texas by a young man named Suggett, on the 29th July 1879.

Points for Workingmen

Mr. Hinkle says the present generation must be taught the benefits of high protection.

An excellent idea. The Herald second the motion. If a young man buys a suit of clothes for \$21, the amount of protection he pays for is \$9.

If he buys a \$1 hat he gets 40 cents worth of hat and 60 cents worth of protection.

If a young couple just beginning housekeeping buy a yard of Brussels carpet for \$1 they receive 45 cents in carpet and 54 cents in protection...

If a young woman pays nine dollars for a shawl she gets six dollars worth of shawl only; the other three she presents to the manufacturer to "protect" him.

If she buys a dress for eighteen dollars she gets twelve dollars worth of dress and six dollars worth of protection.

If, however, she wants a pair of shoes which formerly cost \$4.50 to \$5.50, she has only to pay \$2.50 or \$3.50, according to quality...

If she pays 50 cents for an iron pot or pan she gets 30 cents in goods and 20 cents worth of protection.

If she wants a sewing machine and pays \$20 dollars for it, she gets 11 dollars worth of machine and 9 dollars worth of protection.

If she buys a clock for 3 dollars she receives 2 dollars worth of clock and 1 dollar worth of protection.

If she pays 16 dollars for a watch, 12 dollars represents the time-piece; the other 4 dollars go to "protect" somebody.

If she buys a lamp for 1 dollar there is 55 cents in lamp and 45 cents to "keep the pot boiling" for some protected individual.

If she has to buy a range or a stove for 35 dollars she gets 17 dollars in goods and 8 dollars worth of protection.

If she buys a dozen steel knives and forks for \$1.50 she gets about \$2 in knives and \$1.50 in protection.

If she buys a dozen glass tumblers for \$1 she gets 55 cents in glass and 25 cents in protection.

If a young farmer buys \$100 worth of supplies to start out to farming he gets \$50 dollars in machines and \$50 dollars in tools...

If a farmer purchases a barrel of salt for 2 dollars he gets 94 cents in salt and 60 cents in protection to compensate in Syracuse, Watauga, and Wayne.

On a capital of \$5,000,000 the Pennsylvania Steel Company in one year paid dividends of 22 per cent in cash...

The highest wages which the 120,000 laborers, skilled and unskilled, obtained for their work in the iron mills during this year was \$1.15 per day on an average.

A vote against the railroad means to stay in the old ruts of depression and poverty.

A vote for the railroad means prosperity.

Dockery as a Farmer.

CERTIFICATE OF HIS NEIGHBORS SHOWING HIM TO BE "A DEAD FAILURE."

LAURINBURGH, N. C., Sept. 13. I see that in the joint discussion at Hillsboro, O. H. Dockery, in his rejoinder asserted...

This was "news" to every man, woman and child in Richmond county and there is not another man in the county who has such habitual disregard of the truth as to join "my son Oliver" in the charge...

He poses as a farmer and imposes also in that, as the following letter to Emery E. Ripper, chairman Cleveland and Fowle club, of Lexington, Davidson county, who wrote to this county to know what kind of a farmer he was...

ROCKINGHAM, N. C., Sept. 12. Emery E. Ripper:

Dear Sir:—We, the undersigned, who live in the same township with Oliver H. Dockery, and some of whose farms adjoin his, have known him intimately, the most of us, all of our lives, and we hereby certify, that as a farmer, it is well known, not only in his own neighborhood, but in the whole county, he is a dead failure...

W. F. BROOKSHIRE, R. R. LITTLE, T. F. STANBACK, N. G. NICHOLSON, J. P. LITTLE, JR., ALEXANDER BALDWIN, C. C. CAPELL, D. C. STANBACK.

These men are among the best of our citizens and the best farmers of the Pee Dee country. Others of his neighbors say that his crop this year will not compare with that of the average "negro cropper" of this neighborhood.

It is true he was born and raised and has always lived upon a farm, but he has never been suspected of being a farmer—no more than a mule.

He resembles a farmer only "as a mist resembles a rain." Pardon the paraphrase. Yours, &c., W. H. McLAURIN, President Laurinburg Club, Cleveland Fowle Democrats.
