His next visit here will be AUGUST 11, 1925

The countries known as Latin-America have a combined area of more than 8,000,000 square miles with a population estimated at nearly 100,000,000.

CHAPEL HILL NEWS NOTES

Great Athletic Meeting for Study and Its Leaders

Chapel Hill, N. C., July 25.—The staff for the fourth annual coaching school for high school athletic coaches which will be conducted here under the auspices of the University Extension Division and the General Athletic Association of the University of North Carolina from August 24th until September 5th, was announced today by E. R. Rankin, who is serving as secretary of the school.

The staff, as announced today, includes: Robert A. Fetzer and W. McK. Fetzer, who will be joint directors of the coaching school; Chester D. Snell, Norman Shepard, Grady Pritchard and Robbins Lowe. Dr. Robert B. Lawson, of Chapel Hill, will deliver a series of lectures before the coaching school.

The courses to be offered in the coaching school included football theory, football practice, basketball theory, basketball practice, baseball theory, baseball practice, track and field theory, track practice, tennis theory and tennis practice. The theory courses will be given during the morning hours; under a regular schedule beginning at 8:00 o'clock, and the practice courses will take up the afternoon hours.

The fourth annual coaching school will be a southern-wide school, it was stated here today. It is expected that the coaching school will be attended by school officials and athletic directors from the various southern states. The attendance at last summer's coaching school numbered 75 persons, from six southern states. It was stated today that all present indications point to a large enrollment for the coaching school this year.

Robert A. Fetzer and W. McK. Fetzer will be in charge of the football courses and will be assisted in carrying on these courses by Grady Pritchard and Robbins Lowe. W. McK. Fetzer will be in charge of the baseball courses and will be assisted in carrying on these courses by Robbins Lowe and Norman Shepard. Norman Shepard will have charge of the basketball courses. Chester D. Snell will have charge of the tennis courses. Robert A. Fetzer will have charge of the track and field courses. Special lectures will be delivered before the coaching school by Dr. Robert B. Lawson on physical examinations and the prevention and care of injuries.

Robert A. Fetzer was graduated from Davidson College in 1907, and since that time he has made a high record of success in the handling of southern athletic teams. He is now director of athletics in the University of North Carolina.

W. McK. Fetzer is also an alumnus of Davidson College, a member of the class of 1906 in that institution, and he has been highly successful in the handling of southern athletic teams. He is now associate director of athletics in the University of North Carolina.

The Messrs. Fetzer inaugurated the annual coaching school for high school athletics coaches at the University of North Carolina in the summer of 1922, and they have been joint directors of the annual coaching school since its establishment.

Norman Shepard is a graduate of the University of North Carolina. He had varsity experience in several branches of athletics at Davidson College, and he has had several years experience as a member of the coaching staff at the University. He was a member of the staff of the annual coaching school here in 1922 and 1923. He was coach of the Carolina basketball team of 1924, which, like the Carolina basketball teams of 1922 and 1925, won the southern championship in the S. I. C. tournament held in Atlanta.

Chester D. Snell was graduated from Springfield Y. M. C. A. College with a degree in physical education in 1922. He was for two years a member of the tennis team of this institution, and he has coached tennis. He had charge of tennis courses in the coaching school here last year. Mr. Snell is director of the University extension division.

Robbins Lowe was captain of the Carolina football team of 1921 and rated as one of the best backfield men on the Carolina team in recent years. He played quarterback and half back. He is a graduate of the University. He is a member of the coaching staff of the University and was a member of the staff of the coaching school here last summer.

Grady Pritchard was a star tackle on the Carolina football team for four years, and was captain of the famous

Carolina team of 1922, which won the title to the South Atlantic championship, and which was one of three undefeated teams in the south for that year. He is a graduate of the University and is on the coaching staff of the University. He has been a member of the staff of the coaching school for several years past.

Dr. Robert B. Lawson has been closely identified with Carolina athletics since his college days when he was a star pitcher on the Carolina varsity nine. Dr. Lawson has lectured before the coaching school since its establishment in 1922. Dr. Lawson is associate professor of applied anatomy in the University Medical school and is director of the University gymnasium.

The lectures and the practical work in the coaching school will be planned, it was said here today, from the coaches' point of view to the school officials and athletic directors present the benefit of their practical experience in the field of athletics.

A registration fee of ten dollars will be charged all who attend the coaching school. There will be no other expense in connection with the school except for meals. A University dormitory will be thrown open for those attending the school.

WHERE TO GO

- Lawyers to Fee, Pa.
- Singers to Alto, Ga.
- Bakers to Cakes, Pa.

- Newly married couples to Bliss, Mich.

CONSTRUCTIVE AMERICANISM

The newspapers are full of discussions of various ideas connected with the plan of a World Court. Generally speaking, the press of our country is inclined to favor any international policy that is of a constructive character.

There is little disposition to condemn movements like the World Court Disarmament Conference, and plan for stabilizing international industries and commercial conditions.

Few political leaders go to the extreme of advocating commercial isolation of our country. Press reports indicate that there is an underlying sentiment, possibly tinged with idealism, that favors our lending a hand to the economic restoration of any of the European countries.

One of the great byproducts of the World War is a lessening of racial prejudices and more of the helpful Big Brother feeling toward all foreign nations.

News From Pine Ridge

Miss Sybil Hales returned home Friday after spending some time in Raleigh visiting relatives.

Miss Thelma Pearce is at home after attending six weeks' summer school at Wake Forest.

The Junior girls of our Sunday school went to Poplar Springs on a picnic last Wednesday afternoon from 2:30 until 6:30. They report a good time. They played games in the shade of the nice trees, after the games were over they spread their lunch, all enjoying that very much. Mrs. L. D. Mullen, their teacher, went with them.

Miss Lucile Hales visited relatives in Raleigh last week.

Miss Mary Belle Moody, of Wake Forest summer school, spent the week-end here with her parents.

Miss Metta Mullen and Mrs. Matthew Pearce spent a few days in Louisburg last week, visiting relatives and friends.

Next Saturday and Sunday is our regular preaching time. We welcome anybody that will come.

Miss Annie D. Hales, Miss Helen Hinnant, Miss Lillian Perry, Mr. Elbert Avent, Mr. Willie Bullock and Mr. Cloye Pearce went on a picnic to Farmer's pond last Friday.

We are glad to report that Mr. G. C. Mullen's little boy, Alvin, is at home after being in the hospital some time. He is improving nicely.

Dog Dye

Prince has always sported a beard that would draw envious glances from a Russian grand duke. Sleek and glossy, its shiny black has given to his facial make-up a leading place among the dogs of Northboro. Prince followed his master to a chemical and dye company's plant and came back with a glow of pride in his eyes and pink whiskers on his chin. It is believed that the dog, in a moment of curiosity, nosed into a vat of pink dye. —New York World.

Her Memory Reversed

Lady Arabella was the daughter of Thomas, earl of Lincoln. She married Isaac Johnson, who left his native land for New England from religious motives. Lady Arabella cheerfully accompanied him, and they arrived at Salem, Mass., in April, 1630. Her exalted character and gentleness gained her universal esteem, but she died in the September following her arrival. Mr. Johnson survived her little more than a month. He is regarded as the founder of Boston, and though his time was brief, yet the good work he accomplished will never be forgotten by the people of New England. But dearest still is the memory of Lady Arabella. —Denver News.

Sea Oil Wells

Sea-going vessels frequently report having passed through parts of the ocean where the surface of the water was covered with oil for a distance of perhaps many miles. The source of this oil is frequently a mystery. In some cases it is known to have been due to oil-carrying vessels which have sunk, but in others it is believed to be due to oil wells on the bottom from which the oil rises. In some cases it has been observed bubbling out of the water, as if a steady stream of it were rising. These apparent submarine oil wells are most common in the Gulf of Mexico and off the western coast of South America.

Frequent Bilious Attacks

"I suffered with severe bilious attacks that came on two or three times each month," says Mr. J. P. Nevins, of Lawrenceburg, Ky. "I would get nauseated. I would have dizziness and couldn't work. I would take pills until I was worn-out with them. I didn't seem to get relief. A neighbor told me of

BLACK-DRAUGHT

Liver Medicine

and I began its use. I never have found so much relief as it gave me. I would not be without it for anything. It seemed to cleanse my whole system and made me feel like new. I would take a few doses—get rid of the bile and have my usual clear head, feel full of pep, and could do twice the work." Bilious attacks are "seasonal" with many people. Millions have taken Theodor's Black-Draught to ward off such attacks, and the good results they have reported should induce you to try it.

All Druggists'

SMOKELESS NATION FORECASTED

It is predicted that America will be the first nation to outlaw smoke, soot and ashes by using gas fuel instead of solid fuel for heating purposes in shops and factories. It will be first to have its homes heated by gas, thermostatically controlled.

The increasing use of gas is an inevitable result of modern demands for comfort and efficiency, to which must be added the growing conviction that human life and property are suffering incalculable damage from the smoke evil.

The progress of fuel conservation depends upon the progress of gas utilization. The public is beginning to see this truth and act accordingly. The gas industry has grown because it has saved coal, labor, and money for the public.

For cleaning typewriters a fountain brush has been invented, the fluid it contains being pumped to the bristles with a button at the end of the handle.
