MISCELLANEOUS SHOWER

Saturday, April 17, from 4:30-6:30, Mrs. L. M. Gould entertained a number of guest at a miscellaneous shower in honor of Miss Foye Whitley, whose engagement and approaching marriage to Mr. W. R. Collie, Jr., of Richmond, Va., was recently announced.

An elaborate color scheme of pink and white was used throughout the house. Lovely silver baskets were filled with pink rose buds tied with white tulle, white tapers in silver holders, baskets filled with apple blossoms were a lovely setting for a charming hostess.

The hostess received her guests in a bois de rose crepe dress, embroidered in white. Mrs. Gregory B. Brantley presided over the punch bowl, that was banked with apple blossoms and ferns. While partaking of this delicious beverage the guests were requested to think of a wish to inscribe in the attractive bride's book.

After the guests were seated a contest was engaged in. A large portrait of Cinderella was hung upon the wall and each lady given a golden slipper, which when blindfolded she was to endeavor to pin on Cinderella's bare foot. Miss Whitley was the last to try, but instead of finding the portrait when the handkerchief was removed from her eyes she found a Japanese parasol tide with white satin ribbon, filled with packages. Attached to the parasol were attractive favors for each lady in the shape of a tiny pink parasols. Miss Whitley presented these to the guests and then opened her gifts. They were all lovely and some very useful, especially a pacifier with hubber ring and bell attached. Three gifts were sent from Richmond, Va., of Mrs. W. R.

Citizens of Johnston county have now completed and into which the

Mrs. Ben LeCompte.

As the afternoon drew to a close the hostess, assisted by Mrs. Brantley and Mrs. Wallace Chamblee served refreshments in two courses: a delicious salad, with heart shaped sandwiches pierced by orange blossom, olives, pickels and iced tea followed by an ice course of pink wedding slippers and angel food cake.

On each square of cake stood a miniature bride and on Miss Whitley's plate a bride and groom.

Miss Whitley was gowned in a cerese crepe de chine frock, flared skirt and extreme flared sleeves of printed crepe. Her hat was a very striking Gainsborough model of Florida gold straw. Very low cut patent sandals completed her lovely and elaborate costume.

Mrs. Gould's guests were: Misses Lucia Flowers and Marion Whitlock; Mesdames Chas. E. Flowers, J. M. Whitley, G. S. Barbee, C. V. Whitley, Foster D. Finch, Gregory B. Brantley, E. R. Ackerman, M. Wallace Chamblee and L. E. Long, of Raleigh.

LITERARY MUSIC DEPARTMENT

The next regular meeting of the Literary Music Department will be held next Tuesday, April 27, at the home of Mrs. Foster Finch, Mrs. W. C. Campen will preside over the meeting.

The subject of the program will be: "Primer of Modern Art," by Sheldon Cheney. The hour of meeting will be 3:00 o'clock in the afternoon.

S. P. C.

BROADCASTING

Sallie and Willie stood close together on the park bench. The winds whispered softly all about. They were deft to the beauty around them.

Nothing could matter after he pressed her hand to his heart. She knew that he was going to kiss her, and she tremblingly waited expectantly. She clung to him so close like a sardine for its mate. She could see him looking at her. She closed her eyes to wait.

"Dear" he said. "Dear" he continued, "we will run over to Shamburger-Pippin Company's Saturday and get that pair of shoes you wanted."

"THE HOUSE OF BETTER VALUES"

Zebulon Supply Co.

Ford

Highest in Quality Lowest in Price

The finest steels available are used in the manufacture of Ford cars. The plate glass for windshields and windows is as perfect as can be made. Upholstery material contains a larger percentage of wool than is ordinarily specified—even for much higher priced cars. The basic features of Ford design have never been improved upon by any manufacturer.

No other car offers greater dependability. The Ford car has won the favor of millions of users under every conceivable motoring condition. Its convenience is known and appreciated the world over; its performance is taken for granted.

Such quality is possible at Ford prices because every operation, from mining of ore to final as-

sembly, is under direct control of the Ford Motor Company.

Iron is taken from Ford mines in Michigan; coal from the Company's mines in Kentucky and West Virginia. Glass comes from Ford glass plants; wood from the Ford timber tracts in the North. Raw materials and finished products are carried over the Company's own transportation routes; coke ovens, blast furnaces, a steel mill, foundries and saw mills—all are part of this complete organization. There are even salvage plants, paper mill, cement plant, etc., to transform waste materials into useful by-products.

In this way every possible economy is effected. Under no other circumstances could Ford quality be had at Ford prices.

Features That Maintain Ford Leadership
