DOG SHOW IS ADDED ATTRAC- TION AT FAIR

Any Dog Owner Can Enter Dog Regard- less Of Pedigree

Bring Your Dog To The Fair And Enter Him

As an added attraction at the East Wake County Fair at Zebulon, October 22, we are putting on a dog show. This will give every dog owner in East Wake County a chance to display his or her favorite dog. This kind of a show is something new in this section and we hope that everyone will co-operate with us to make it a success.

There will be two large classes. These classes will take care of all dogs in this section.

The first class will be the puppy class. This class is open to all puppies under twelve months old. Any breed of dog may be entered. There will be ribbons awarded to the first and second place puppies of each breed. We are also offering a grand prize of \$7.50 for the best puppy in the show and \$5.00 prize for the second best.

The second class will be the all age class. This class is open to any dog over twelve months old. Any breed may be entered. Ribbons will be awarded to the first and second place dogs of each breed. A grand prize of \$7.50 will be awarded the best dog in the show. A \$5.00 prize will be awarded to the second best dog.

We have secured some of the best judges in the Eastern part of the State and you may rest assured that your dog will have a fair chance.

All entries must be in before 9:30 A. M. Friday, October 22 at which time all dogs entered must be on display. No entries will be accepted after this time. No entry fee will be charged. Owners may remove their dogs at a reasonable hour in the evening.

All dogs which cannot be tied must be displayed in a cage furnished by the owner. We will not assume responsibility for any accident that may befall a dog while on exhibition. There will be a keeper in charge of all the time. Please send all entries to H. C. Shull, Box 223, Zebulon, N. C.

Remember, any dog may be entered regardless of breed or age. Bring your dogs and see how much better your dogs are than your neighbors. tanaO Cdonno shrld etaioi shrld shrld

FAIR MANAGER.

CHIEF DICKENS' NAME SHOULD BE SIGNED

In the advertisement of the town of Zebulon advertising the delinquent tax list, the name of S. M. Dickens should have been signed as Tax Collector. All delinquent tax payers should see Chief Dickens at once and settle their taxes before the property is sold for taxes.

ANOTHER OPERATOR SHOWS QUICK WIT

Sherlock Holmes might be justified in feeling jealous of some of our modern telephone operators.

For example, there is Miss Josephine M. Carhuff, night operator in the River office at Springfield, Mass. Not long ago, an emergency call was passed from the Springfield Detective Bureau to the Holyoke Police Department. There was difficulty in reaching the Holyoke number and the operator stayed in on the connection to assist, if necessary. In this way she was notified of the number of the stolen automobile. On her way home in the morning, she saw a car parked on a side street bearing the reported number. She at once telephoned police headquarters and through her alertness the stolen machine was recovered.

NOTICE! NOTICE!

Due to unavoidable interruptions we are extending the time of the membership contest of the P. T. A. until noon Monday.

Membership Com.

COTTON CO-OPS READY TO HOLD 300,000 BALES

Claiming warehouse and financial facilities that will allow it to mold 300,000 bales of cotton at a rate of 36 1-2 cents per bale per month, including insurance, the North Carolina Cotton Co-operative Association, by authorization of its board of directors Friday, is advertising for new members in an effort to help the farmers through the present emergency.

The association will continue to stress the point that it is primarily a marketing rather than a holding organization but due to the present low price of cotton it is featuring its holding facilities.

According to its announcement the association can finance 300,000 bales on money borrowed from the Federal Intermediate Credit Bank at 4 1-2 per cent interest. It also stresses the point that it can save the farmers money, not only in interest rate but also in other ways, to the extent that the cost of holding each bale for a month will be 35 cents. The insurance will add 1 1-2 cents to this amount.

At one time this year the association officers were in doubt as to its chance of receiving the equal of the 161,000 bales taken in last year. Now, however, it is certain that the total will be considerably over that figure. It has been previously decided that the association would make no membership drive for new members on the present contract which has but one more year to run. This policy will be retained but members received voluntarily or induced to join through the association's advertising will be taken in. Many are turning to the organization as a port in the present storm.

The association is still selling cotton sparingly, to serve its old customers. "However, we do not have to sell the cotton nor do we have to hold it," said U. B. Blalock, general manager.

DRIVER HIGH, OF MASSEY BROTHERS, PROVES HERO

Tuesday morning of last week when R. L. Isaacs was returning from Zebulon to Raleigh, his Ford Coupe caught on fire and he had taken his effects from the car to let it burn up when driver High, of Massey Bros., Zebulon, N. C., was passing, heard of the trouble and rushed to the hood of the car, opened and started throwing sand on the large fire, which seemed to be gaining headway fast. Mr. Isaacs and the hero were successful in stopping the flames, after a time. The car would not run after the cooking so the driver proved that he could not only stop the fire, but that he was able to repair a car with a pair of pliers and a pocket knife. Mr. Isaacs wants to thank Massey Brothers Company for employing such a skilled driver—he saved the day in this case. Many people do not know how to stop a fire, and this is well worth knowing—pour sand on it.

ARMINIAN TO SPEAK AT BAPTIST CHURCH

An Arminian student at Wake Forest will make an address at the Baptist church Sunday evening on conditions in his native country. Perhaps no other people have so suffered from religious persecution in this country as the Arminians have from the Turks.

On next Sunday morning pastor Davis will preach at the Baptist church on the subject: The Church and Our Church.

HE WHO LAUGHS LAST

A very interesting incident comes to light in connection with smallpox vaccination in North Carolina. During a vaccination campaign the parents of a large family refused to allow the children to be vaccinated. One of the girls, however, slipped away and without consent was vaccinated. As her vaccination "took" the others of the family laughed at her sore arm and did not fail to remind her of her "reckless" act.

Within the past year six members of that family contracted smallpox, while the "reckless" girl was immune and without one single bump.

"He who laughs last laughs best."

"Listen Lady" at school auditorium, October 26th.

\$250,000,000 MAY BE PROVIDED FOR FARMERS

Movement On Foot At Washington, May Be Good

High Government Official Talks On The Subject

Washington, October 6.—A proposal that would provide \$250,000,000 to be loaned to cotton growers and would permit withholding from five to ten million bales of cotton from the market, and thereby keep up the and rigid cornice, has been given serious consideration by high government officials. The plan involves a comprehensive organization covering all the cotton state and would require curtailment and rigid control of production in 1927 and thereafter.

A group of Texas bankers approached the administration with a request for co-operation in their scheme to provide \$50,000,000 where-with to hold cotton off the market. A high government official suggested that if the bankers provided half that, or \$25,000,000 credits totaling \$250,000,000 could legally be secured through the intermediate credit banks.

It was emphasized, however, that the administration could not encourage any scheme requiring borrowers to contract to curtail production. The bankers held that part of the present crop could not be withheld without assurance that acreage would be cut next year.

While farm loan banks loan only for twelve months, intermediate credit banks loan for three years, but it is felt that such extensive crop financing for this carry-over would undermine the credit of the intermediate banks and that insuperable difficulties confront sufficient organization to control production.

NURSE TELLS YOU HOW TO VISIT SICK FRIENDS

"There should be a law forbidding persons to rush to the home or hospital to visit the sick," grows the exasperated surgeon whose patient has been made worse by the visit of an acquaintance.

Without recommending such extreme measures, Lyda M. Platt does make a number of suggestions for visits to the sick. Under proper conditions, such visits may be beneficial.

A visitor should be cheerful and quiet; should choose appropriate topics of conversation, but should not talk too much; should limit the visit to the time allowed by nurse or physician, and should make the leaving-taking as brief as possible.

The patient may ask the visitor to read to him or to do some errand, but the visitor should refrain from rearranging the bed or anything in the sickroom unless requested to do so. The visitor should never suggest remedies or cures, and it is best not to discuss the illness to all unless the patient persists in doing so himself.—Hygeia.

PLEASED WITH ZEBULON

King Bros., owners of Gentry Bros. Circus, were greatly pleased with the patronage they enjoyed while here. They only show at the large towns, and were going from here to Kinston, and Goldsboro this week.

PROGRESSING RAPIDLY

The construction of Highway No. 91 is progressing rapidly. They will soon be able to cross the concrete bridge at Moccasin Creek.

BUSINESS AND PROFESSIONAL MEN'S CLUB

Prof. Johnson is enthusiastic over the organization of a business and professional men's club—come on boys, fall in line and lets put this thing across. Every business and professional man in this community ought to support this movement. This possibly be one medium through which we could come together for "one" common cause—"altogether" boys—come on—let's go "over the top."

"LISTEN LADY" AT THE SCHOOL AUDITORIUM

October 26 Is Date Of The Great Mus- ical Comedy

There Will Be Fun And Amusement For Everybody

"Listen Lady" will be staged at Wakelon school auditorium on October 26. This will be a delightful musical comedy dealing with romance and adventure, sumptuously costumed and scenically equipped.

The people of Zebulon have in store a rare treat in having this wonderful play put before them. It is clean, attractive and wholesome. No one should miss it—everyone likes amusement of the right kind—you will find it in "Listen Lady."

This play is given under the auspices of The Zebulon Woman's Club, she proceeds to go toward building a home for the club.

The attractive coach will arrive in a few days to begin work in earnest with a cast of home talent, which has been very carefully selected. It is hoped that every body will put forth a great effort to make this play a wonderful success, and don't forget "Listen Lady" the greatest musical comedy ever presented in the town of Zebulon.

GENTRY BROS. EXHIBITED HERE LAST MONDAY

On last Sunday morning the Gentry Bros. circus began to unload at Zebulon and before the day was over several tents were up and the lot between Sycamore and Horton Streets looked like a tented city. Thousands visited the grounds on Sunday.

Monday morning early every one connected with the big show was busy making ready for the big parade. Between 11 and 12 o'clock the big parade started. The streets were lined with country people as well as town folk.

It was a happy time for the small boys and girls. The parade was very good, and when the big elephants came marching along the small boys gave them all the streets.

The main show opened up for the performance at 2 p. m. and a large crowd was on hand to enter.

The night performance was at 8 o'clock and was attended by a good crowd. The show was as a whole a very clean one.

CLAYTON SUFFERS DESTRUCTIVE FIRE

Clayton, October 8.—Loss of approximately \$85,000 was caused here early this morning when fire originating in the L. H. Johnson Hardware Building, swept through three other stores before it was checked by the timely arrival of the Raleigh Fire Department.

All of the stores wrecked by the fire were located in a building owned by Sidney Horne. The building is almost a complete wreck and the contents of all the stores were destroyed.

It was estimated that it would cost about \$25,000 to replace the building. The stores whose contents were burned and the insurance on each were as follows:

The Clayton Department Store managed by W. I. Whitley, loss \$20,000, partial insurance; L. H. Johnson Hardware Company, loss \$16,000, partial insurance; Owen Gulley Co., Inc., general merchandise, loss \$25,000 or \$30,000, partial insurance. The fire was believed to have started in a pile of rags in the hardware company, possibly by the spontaneous combustion. It was discovered about 3:45.

At the beginning of the present year the United States had fifteen telephones per 100 population while Europe had less than two.

Seven years ago there were 66,000 telephones in the city of Montreal. Today, the city has over 141,000 telephones in service.

POULTRY EXHIBIT AT EAST WAKE FAIR

This is just a reminder to those wishing to exhibit poultry at our community fair. In order that there may be no delay in opening the fair on Thursday morning all entries should be made Wednesday afternoon unless special arrangement has been made with the chairman for entering them early Thursday morning. Coops must be provided for each entry unless the owner brings the coop. Therefore, we must know in advance how many entries to provide coops for.

Each committee should report to his chairman, promptly, all entries or prospective entries for his department. This information will enable the chairman to have ample space provided for his exhibit. Let us see to it that every one who has a good pen of birds exhibit them at our community fair. This kind of co-operation will insure the best poultry exhibit the East Wake Fair has ever experienced. We already have the assurance of a large number of birds for the fair. All the important breeds and varieties will be shown, and there will be keen competition for some breeds and varieties.

Pick the best birds from your flock. Do not exhibit old and young birds in the same pen. Two females and one male constitute a pen. In selecting the birds see that they are uniform in type and color. See that the feathers and shanks are clean and attractive.

For premiums offered see supplementary premium list in The Zebulon Record and The Gold Leaf Farmer this week.

P. H. MASSEY,
Chairman Poultry Exhibit.

PREDICTS FIVE SNOWS FOR COMING WINTER

Rocky Mount, Sept. 28.—Plenty of fuel, piles of blankets and unusually heavy overcoats are in order for the prediction made today by George W. Joyner, local weather prophet, materializes, and it is significant that Mr. Joyner has been making his predictions for a number of years and that in nearly every instance they have terminated accurately.

"We are going to have unusually cold weather this winter," Mr. Joyner declared today after pointing out how he had studied "the signs which never failed" and that he knew what he was talking about. "And more than that, we are going to have five snows this winter. Remember I predicted three snows last winter, and I'm asking you if that prediction wasn't right."

Mr. Joyner, who is a traveling salesman, makes his winter forecast about this time every year, and his weather predictions are looked forward to with interest annually.

KU KLUX ABROAD!

The knighted hooded band has been, we are told, quite active in and around Zebulon lately. We are informed that two or three of our citizens have been visited this week, and told that certain deeds, suspicions, or other indications of relaxed good citizenship must cease, or the good Knights would apply certain and effective remedies best known to themselves.

We do not approve of any group of citizens taking the law into their own hands, but it is a regrettable condition in any community that the enforcement of laws has so lapsed that individuals are called upon to execute judgment against evil doers.

A citizen of our town heard a prominent social worker—one in a position to know—say that Zebulon had more immoral law breakers and social delinquents than any other town in Wake county according to its size. It seems high time our town authorities make a thorough and effective effort to drive out or destroy certain social evils in our midst.

CHOICE FLOWERS ARE WANTED AT THE FAIR

I would urge all who have choice cut flowers, or a select potted plant to exhibit them at the Fair. These are the only two classes in the department of flowers.

It is of interest to know all first prizes will be merchandise or cash.

MRS. D. D. CHAMBLEE,
Chairman of Committee.

"Listen Lady" at school auditorium, October 26th.

BIRTHS DOUBLE THE DEATHS IN WAKE COUNTY

176 Births; 90 Deaths Is Roll For Month Of September

At Dental Clinic 287 Children Were Treated

White and colored births in Wake county were almost double the number of deaths during the month of September, according to the monthly report of Dr. A. C. Bulla, county health officer, which was submitted to the Wake Board of Health Monday.

White births numbered 106, while colored births numbered 70, while there were 45 white deaths and 45 colored deaths. Of the 90 deaths, the city of Raleigh had 63, of which 30 were white and 33 were colored. There were 54 white births and 24 colored births in the city.

Dr. Bulla, who is in Buffalo, N. Y., attending a meeting of the United States Public Health Association, said in his report that communicable diseases in the county in September were fewer than the health authorities had anticipated. The following contagious diseases were reported during the month: Typhoid, 5; Whooping cough, 61; scarlet fever, 3; diphtheria, 17; and measles 1.

In the dental clinic, 287 children were examined and treated. The estimated value of this work was \$1,106.00.

During the month, 24 schools were visited and instructed in regard to communicable diseases in school districts; schools instructed through teachers, 5; epidemiological investigations, 89; swabs taken for diphtheria, 65; tuberculosis homes visited and instructed, 26; children given the Schick test for diphtheria, 7; vaccinations: against typhoid fever, 325; against diphtheria, 2; against whooping cough, 15; against smallpox, 199.

NORTH CAROLINA PRESBYTERIANS TO MEET AT STATESVILLE

Statesville, Oct. 9.—The North Carolina Synod of the Presbyterian church in the United States will convene in annual session here next Tuesday with the sermon of the retiring moderator, Rev. H. B. Searight, of Elizabeth City, after which the new moderator will be selected.

The Synod of North Carolina is said to be the strongest of the seventeen synods of the church, having a membership of approximately 700,000, Virginia ranks next.

Interesting features of the convention will be reports of various committees of the church. J. B. Spillman, of Charlotte, will present the report of the committee on stewardship.

Regular business of the Synod will be transacted during the morning and afternoon sessions and in the evening special speakers will be heard.

CONSERVATIVE

The wisest remark we have heard in many a day is this: A man is usually conservative in the subject about which he knows the most.

If you will think about this you will see that it explains a mass of contradictions in people.

For instance, a doctor who is a progressive, if not a radical, in his attitude toward almost everything except the medical profession. He thinks governmental interference is always wrong—except in the practice of medicine. He is bitterly opposed to the licensing of any other than the graduates of approved medical schools.

A lawyer who favors every "ism" in the newspapers, except the proposal to take the legislative vote away from the supreme court. He would fight for the maintenance of this right, heartily and valiantly.

In 1910, seventy-six per cent of the Bell System's wire mileage was in cable; today, over ninety per cent is thus protected.
