

The Zebulon Record

VOL. VIII.—

Zebulon, Wake County, N. C., Friday, October 21, 1932

Number 18

THIS, THAT AND THE OTHER

Mrs. Theo. B. Davis

In my childhood I was told by our nurse that if a white person were bitten by a negro with blue gums, the bitten one would surely die. It may be that the nurse thought it would help her to manage us, since she had blue gums. All the same I've been watching with keen interest the progress towards recovery of the Raleigh policeman who has been suffering from a bite by a negro man. Wonder if that man had blue gums.

The following recipe for artichoke relish was given the Wakefield Home Demonstration Club by Mrs. McInness and is the best relish I ever made.

½ peck artichokes
1 small head cabbage.
1 bunch celery (or 2 tablespoonfuls celery seed.)
8 to 10 medium sized onions
6 to 8 red pimiento peppers
½ to ¾ cupful salt
1 tablespoonful turmeric
4 teaspoonfuls powdered mustard
½ gallon vinegar
3 cupfuls sugar (more or less)

Scrub the artichokes, wash the celery, peel the onions, seed the peppers, take off the outer leaves of the cabbage. Chop the vegetables fine. (I run them through the meat chopper, using the coarse blade). Put all except the onions in a cloth or thin sack and press out as much juice and water as you can.

Bring the vinegar to a boil, add the spices, sugar and salt, stir well, and add the vegetables. Boil for five minutes. You may, if desired, use ½ cupful of plain flour to thicken the relish; but, if you press the water out of the ground-up mixture, it will not be necessary to thicken it. Seal it in glass jars while hot. This will make 6 or 7 quarts. It is fine for sandwiches for school lunches, or in any way you try it. As indicated by the directions, you can take various liberties with the recipe as to sweetness and saltiness. But do not take too many with the vegetables and flavorings, if you want it to taste like the original recipe. One neighbor told me once that her relish was fairly good, but didn't taste like mine, though she had made it just as directed. However, she said she had no celery and used more cabbage instead; that she had no peppers nor turmeric—and yet she did not see why hers had a different taste.

If you have artichokes and don't have celery, you can make a fine substitute by peeling and chopping the artichokes, then sprinkling them with celery salt or celery seed. Let them stand for a while, and use in salad as you would celery. The artichokes are more tender and crisp than is most celery, and are specially good in potato salad.

Speaking of substitutes reminds me of when our oldest son was quite small and told a playmate: "My mother can make the BEST chicken salad out of pork."

Woman's Club

Because on next Thursday the federated women's clubs of the eighth district meet at Garner there will be no general meeting of the Zebulon. The meeting will be held on Tuesday, Nov. 1, instead, and Mrs. Lawrence, of Raleigh, will speak under the auspices of the Garden Department.

It is planned to have three cars go from here to Garner taking club members to attend the district meeting next Tuesday. Those who go will contribute 25c each to help pay for the expense of the trip, and are asked to call Mrs. C. E. Flowers, Mrs. J. D. Davis or Mrs. G. S. Williams. The meeting begins at 10:00 a. m.

NOTE TO CORRESPONDENTS

Beginning Wednesday, October 19, 1932, all copy must be in the Record office not later than three o'clock Wednesday, before the paper is printed Thursday. Copy arriving after three will not be published until the following week.

Seen and Heard

"Good-time Charlie Eddins" jerking sodys in Deah ole Buffalo's Sody Shoppie, with a sweet smile and ten thumbs.

An enormous bunch of dahlias secured somehow above two tiny legs heading toward Wakelon School. Why don't the kids get wise and take their teachers apples. Dahlias are mighty pretty, but you can eat an apple.

Rain—Rain—And mo' rain!

Mr. Horton, of Zebulon Drug Company, doing the "Highland Fling" when he stepped on a cat's tail—We didn't know which made the most noise, but after taking a vote on the matter, we found that the cat won by a tail.

Two little negroes driving a model "T" Ford. The amusing part of the matter was, that neither of them could see over the steering wheel. One steered while the other pointed out the direction.

Whitley Chamblee playing golf with a broom and a lump of clay. Whitley shoots the four hydrats in about seventeen strokes. Not bad at all for an amachure.

Ferd Davis, the wrong font of the office force diligently searching for type lice. He found them. AND HOW!

Several "Gentlemen of color" gapping at a freight train that pulled into town last Monday morning. Are trains that scarce? Dear me, what a fast age we're living in. Babies will begin arriving in cellophane the next thing we know.

Special to the RECORD from our special detectiff squad.—After a solid week of tracing down clues, special detectives of the Record Staff found from whence came the little red wagon Charcoal Billy was pulling last week. After being tracked to the very doors of the RECORD office "Billy-The Charcoal Kid" admitted that the wagon belonged to none other than Master Dave Finch of our fair city, and that said wagon had been loaned him by said Dave Finch. Oh boy, oh boy, oh boy, oh boy, are we good, or are we good?

N. C. C. W. ENAHiffEtoomOrs,-

While testifying in her separation suit at Birmingham, Eng., Mrs. Edith Roswell said that her husband had spoken only 4 words a day to her for 34 years.

It Is Hard For A Hungry Citizen To Be A Good Citizen

The boy whose stomach is empty cannot be expected to do good work at school. Babies undernourished through another winter may be handicapped by frail bodies through life. The hungry father of a family is hardly the man to seek employment with persistence or to do well on the job when he gets it.

Before you can save a man's soul it is often necessary to feed his body. You have no right to expect the civic virtues of patience, courage and honesty from starving, freezing men and women. If they preserve a just attitude toward the laws of the city in which they live, it is a miracle.

This winter, as never before, it is the duty of all who are well-clad, well-housed, and well-fed, to help the less fortunate. The fact that you gave last year, and the year before, does not lessen your responsibility. The fact that you cannot afford a large contribution must not deter you. The upturn of business with a gradual improvement of economic conditions does not remove the crisis of this moment.

Emergency appropriations by the federal government amount to \$300,000,000, but they meet only half the increased national needs for human relief. The rest is up to you!

How will your dollars be used? First of all, they will feed the hungry, and relieve the absolute wants of the unemployed.

They will be used, also, to take care of the sick and aged. They will help to maintain hospitals, orphanages and schools. They will make possible clinics and visiting nurses.

The dollars you give are invested in the forces of civilization right in your country!—Welfare Relief and Mobilization for 1932.

The Welfare and Relief Mobilization for 1932 is a co-operative national program to reinforce local fund raising for human welfare and relief needs. No national fund is being raised; each community will have full control of its own people; each community will have full control of the money it obtains.

Give through your established welfare and relief organizations through your community chest, or through your local emergency relief committee.

Will Drop Charges

Relatives of Smith Reynolds, who was fatally shot last summer, are said to be quite willing to drop murder charges against the wife and friend of the dead boy, saying that the evidence to prove conclusively that he was murdered.

Dr. Albert Anderson Dies

Dr. Albert Anderson, for 19 years head of the State Hospital for the Insane, died in Raleigh Sunday morning after an illness of 10 days. The funeral was held on Monday p. m. Dr. Anderson was born at Eagle Rock in Wake County in 1859. He was a loyal member of the Methodist Church. He is survived by his wife, one sister, and other relatives. Among the nieces is Mrs. M. J. Sexton, of Zebulon.

Dr. Anderson has held many offices of honor and trust and was at his death president of the Raleigh Academy of Medicine.

Fair Crowds Are Very Large

The attendance last week at the State Fair was all or more than had been expected. Despite lowered entrance rates, due to the sale of "block tickets", the receipts were gratifyingly large.

The exhibits were better than many would have thought possible, when the dry weather was taken into consideration. County and community booths were of special interest.

The blot on the Fair this time was the many gambling devices that took more than a gambler's chance at the money of all who patroined them. About 50 of these stands were closed before the Fair was over and the grand jury is expected to take action with regard to the matter. Some Raleigh officials are accused of being to some extent in league with gambling places. Sheriff Turner and Chief-policeman Barbour are said to have led in the onslaught on the gambling stands.

General News In Brief

A weathercock, 144 years old, roosts on a spire atop the First National Bank Building, at Portland, Me.

The motion picture industry employs 325,000 persons in production, distribution and exhibition in the U. S. alone.

The farmers' community clubs which have operated so successfully in Anson county for a number of years will be organized into the Grange according to plans now being made.

Fred Pyronel of Valdese, Burke county, has sold over 100 bushels of grapes from his vineyard where 70 different varieties are being grown.

For the 60th consecutive year E. O. Aldrich has been elected town clerk and treasurer of Shrewsbury, Vt.

Every summer during the past 100 years, a Methodist camp meeting has been held on the same location at Lawrenceville, Ga.

Thomas Galahan, of Los Angeles, Calif., recently completed a table with an inlaid top which contains 12,800 pieces of wood of 22 different kinds grown in 14 separate countries.

The total amount of radium in the world weighs one-half pound—enough to fill a coffee cup. The United States has two-thirds of the world's supply, valued at \$18,000,000, most of which is used in the treatment of cancer. Nearly 900 different processes are necessary to extract radium from the cornote ore in which the rare substance is found.

A new type of airplane makes the trip from New York to the Pacific Coast in 27 hours.

Costly Animals

It is estimated that each rat on the premises costs the owner \$2.00 a year. It is also stated by scientists that a pair of rats under the favorable conditions might in one year increase their numbers to 12,000, if none of the descendants died.

Red squill powder is declared to be the best poison for rats and mice

Heavy Rains Do Damage

The heaviest rains that some sections of the state have had for four years have fallen since last Friday. Gastonia had more than 8 inches of rain since last Saturday. Reidsville had more than 5 inches. At High Shoals, on the Catawba river, half the looms of the Manville Jenckes mill were under water, and it is stated that the mill will not be ready for use again before Christmas. Railroads in the western part of the state have suffered damage and in some places traffic has been disrupted. In the east, peanuts have been damaged, and on the coast the nets of fishermen have been torn by storms. Highways have shared in the general destruction, many being closed at points where bridges are gone or concrete undermined.

STATEMENT FROM WAKE WELFARE DEPARTMENT

Mr. Ferrell of the Wake County Welfare Department asks the community remember that the worst part of the year is yet ahead. People who are aided should, during early fall, use just as little as possible; for when cold weather comes, there will be the extra need for fuel and clothes. He says it is not certain that there will be more Red Cross flour for free distribution, so, if possible, hold as much as you can till greater need comes.

Mrs. Bost, State Welfare Commissioner, says the coming winter will be even worse than the last and communities should begin now to care for those who will be in need later. Her suggestion for organization is to have each church and other local organizations to appoint one from their number to represent that body on the general committee for the community. The town should appoint some one to represent it on this committee. In the administration of charity funds in our community, we believe all organizations are represented except the town.

Mrs. Bost also thinks that form cards or sheets should be prepared on which each applicant might record such information as would be helpful to the committee in finding the worthiness of the applicant. If the committee could not make the preliminary investigation then, the application should be approved by some reputable citizen. Then the card should be filed for future reference.

A. E. Dawson, of Atlanta, was robbed of his artificial leg while he was sleeping on a wharf in Kansas City.

J. M. Harris and Leona Ballitt traded \$1.75—all the money they had—plus 10 pounds of green peppers and a bushel of onions for a marriage license at Seminole, Oklahoma.

Skeletons of a race of giant people whom archeologists believe existed in Pennsylvania more than 10,000 years ago, have been found in a circular mound, near the town of Elrama. Among the 49 skeletons unearthed is that of a man 8 feet tall.

Gas Theives Are Captured

Zebulon, N. C., Oct. 19—For sometime people owning cars and gas stations in this section have been losing gas. Suspicion was on certain men, but no direct evidence could be had. On yesterday Mr. Keith, highway employee who has lost considerable gas from his tractor, left it on the road near the Stanley Horton place. Then he got Chief of police Baker from Zebulon and they hid near the tractor.

About 7:30 o'clock last night two men appeared. One took a rubber tube and climbed up on the gas tank. The other put a can under it. The officers appeared with flash light. The men ran, but were soon caught. They were two local men living nearby, Ted Hood and Edgar Strother. They gave bond and were turned loose.

The article "Eight Years Ago" was written by Mrs. J. D. Davis, and the article "Fall Planting Of Flowers" was written by Mrs. C. H. Chamblee.

In 1907 the cost of government in the United States was one dollar

Rabid Dog Bites Three

Zebulon, N. C., Oct. 19—Last Saturday J. T. Horrell, living on highway 90, three miles east of Zebulon, was bitten on the hand by a small dog.

In trying to catch the dog a little later, his 13-year-old girl was bitten on the lip. The dog also bit the four-year-old child of Tom Strickland, six other dogs, and killed a cat.

The dog was killed, its head sent

Mrs. G. Brantley Winstead Dead

Mrs. Martna Brantley Winstead wife of G. B. Winstead, died at her home near Zebulon on Oct. 18, and was buried in Nash County on the day following.

The term "inferiority complex" covers a multitude of sins.

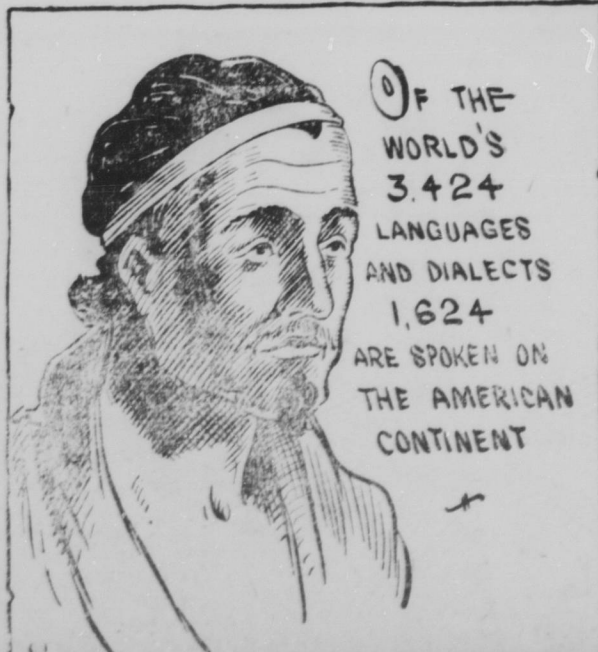

to Raleigh for examination. The laboratory pronounced the dog mad. Those bitten are being treated in Zebulon by Dr. G. S. Barbee.
