**RIGHT OR REVENUE**

One of the shortest and most significant messages ever sent by a President was the one sent this week to Congress by Mr. Roosevelt to legalize beer to the constitutional limit. We have hoped in vain that President Roosevelt would be big enough and good enough to wait the final verdict of the people at the polls in the referendum already provided for by Congress.

If questions involving moral content in this nation are to be decided on a basis of profit or revenue, then we have reached the last hill on our toboggan ride to moral degradation and ultimate financial ruin. In a republic no one individual should dominate the situation to such an extent as, at a word, to have the whole legislative body immediately fall into line with his recommendation. It smacks too much of Mussoliniism.

**WHY, OH WHY?**

A bill has been favorably passed in committee to incorporate the North Carolina bar into a State agency. This is another proof that lawyers run the legislature and think of themselves first, last, and all the time. There is no more sense in incorporating the lawyers of this state as a state agency than that the doctors, preachers, plumbers, junk dealers, or any other class should be placed under the special protection of the state.

The present tax and business situation was brought about largely by lawyers. Every levy, mortgage or any other legal action, growing out of the present financial difficulties of the people furnishes an opportunity for some shyster lawyer to collect his fee at the expense of some citizen's homestead. The greater the legal difficulties of the people, the fatter the lawyers grow on greed.

Two years ago an attempt was made to pass a measure under which lawyers alone could draw up certain legal papers. Banks as institutions, and the law as a profession are both more or less in bad repute with the people. A reorganization of banking is underway, which promises a restoration of the confidence of the public. Such a step is necessary and that right speedily among our doctors of the law, or they will need to be endowed as well as incorporated.

**LET ALL PAY AND PAY ALIKE**

A bill has been introduced into the General Assembly to require all State College students to pay their tuition. This is one of the fairest and most necessary bills yet introduced into the legislature, and we hope by all means that it will pass.

As a whole, our state schools are patronized by those most able to pay. There is no reason why the state should not charge at least as much tuition and fees as a private or denominational school. When the state has provided ample public schools for its coming citizens, its duty should end there. There is less reason in the state's supplying young men and women opportunities for further preparation for professional careers than there is for prison up-keep. The one is absolutely necessary, the other is not. If the state is in business, let it be in the interests of all the people and not a few who already probably have an advantage intellectually and financially over the average person. Let the state charge in full what it costs to furnish what they want to those able to pay.

**ZANGARA TO DIE**

In short order the Italian who attempted the life of our President, was brought before the Florida court and condemned to die. He already had 80 years of imprisonment to his credit. Had this man been American, prominent, rich, and his victim an ordinary citizen, no doubt at most he would have escaped with a few years imprisonment. But the situation being reversed, the State went at the job of administering justice with a vengeance.

After it is all over and this poor deluded foreign fanatic, if not lunatic is dead, we wonder how much better the people or state will be. So far as we know, this man had never been in the toils of the law. A foreigner, without a job or friends, seeing those smothered in leisure and luxury, contemplating the real or imaginary injustice and unfairness of it all, would naturally be inclined to deal with the problem in a violent and desperate manner. We make no excuse or defense of Zangara's deed. But when the State has taken that which it can restore—life—and the ends of justice have been met, what profit comes to the people, or satisfaction to the State?

**NEW BANKRUPTCY**

The Chapel Hill Weekly Dispatch comment very far from the new bankruptcy law recently passed by Congress, especially regarding that part which makes it possible for one creditor to the business into bankruptcy to be all involved.

**TIMELY FARM QUESTIONS ANSWERED**

Question—What kind and amount of fertilizer should I use for Irish potatoes on sandy loam soil?

Answer—Use a mixture of 7 per cent phosphoric acid, 5 per cent ammonia, and 5 per cent potash. For best results, use 2,000 pounds to the acre and mix well with the soil before the potatoes are planted. A side application of 150 pounds of sulphate of ammonia or 200 pounds of nitrate of soda should be made when the plants are from 4 to 6 inches high.

Question—What causes blood spots in eggs and how can this condition be remedied?

Answer—Eggs with blood clots or spots appear during the season of heavy production and are caused by the rupture of a blood vessel in the ovary. There is no way of correcting this condition but the eggs can be detected by candling and removed from those offered for sale. This condition however, is only temporary and is not consistently found in the product of any one bird.

**PROTECT BABY CHICKS FROM WORMS**

If the chicks are being raised in a brooder, the area under the canopy should be thoroughly cleaned every day and the litter replaced with clean material. Beginning the first of the second week, the entire house should be cleaned and this operation repeated every five days. If the ground has been used within the past two years as a poultry run the brooder house should be moved to clean soil.

**KINDS OF VEGETABLES TO PLANT**

This information is contained in Extension Circular No. 122 "The Farm and Home Garden Manual" and copies will be mailed free as long as the supply permits. The Governor's Relief Office has also prepared a leaflet giving this information in simplified form and copies of this leaflet may be secured by addressing that office at Raleigh, N. C.

**TREAT SEED IRISH POTATOES**

Before cutting for seed all Irish potatoes should be soaked for 1 to 1 1/2 hours in a solution of one pint of Formaldehyde and 30 gallons of water. They should then be washed and dried before cutting the seed pieces. If bad weather or other causes prevent immediate planting, the seed pieces should be dusted with finely ground sulphur to dry out and protect the freshly cut surface.

It is that most bankruptcies are not forced by one or more creditors, but by the voluntary act of the business concern itself. We have observed a number of such failures and to an outsider it appeared that the whole proceedings were carried out in such a way that no creditor got a cent, and the business continued as before. If the new law only provides against one creditor proceeding alone and does not safeguard the interests of all creditors against unnecessary voluntary bankruptcy to the loss of all creditors then the law is still a farce so far as it affords protection to the creditors.

**Colored Column**

From March 19th through the 26th the Wakefield Baptist church will sponsor a "Temple Builder's Rally." Each night during the week a program will be rendered. Rev. Somerville is putting forth every effort to build the church financially and spiritually.

The Zebulon-Wakefield school still needs the aid of friends to help it become accredited by the state. All requirements must be made. The good it will do the community will be ample reward.

The elementary and high schools entered into friendly rivalry on three nights last week, Monday, Wednesday and Friday. A series of basketball games were played. The elementary school girls lost the trio to the high school girls. The high school boys had difficulty in winning two from the elementary school boys. The whole school and many patrons entered heartily into the spirit of the games. The percentage of perfect attend-

ance greatly increased during the past school month in both the high and elementary schools. During the present month every indication points to a greater increase. A decrease in tardiness has likewise been noticed.

The number of pupils on the honor roll in the high school were fewer the past month than in any previous. The opposite was true of the elementary school.

The basketball season now being over, the interest of the pupils has begun to turn toward baseball. It is hoped that as much rivalry between other schools may be afforded the community in this sport as in basketball.

On Friday morning, March 17th, at eleven o'clock, the members of the third year high school class will present a one act play, "Enter the Hero." Friends and patrons of the school are cordially invited.

The school has had visitors recently who are interested in the physical well being of the pupils. The state nurse spent one day in seeking information concerning special cases.

**SPRING**

Yes, Spring is right on the heels of Winter. Everyone loves Spring, it's refreshing, reviving, after a few months of semi-hibernation. BUT—Are you so fixed that you can enjoy Spring to the fullest extent? Will you be prepared for the hot days of Summer when they arrive? With one of our STEEL QUEEN refrigerators you are assured of the most economical of good refrigeration. These refrigerators are not only saving in ice, but the cost is surprisingly low.

And to sit on your shady porch, or in your yard, these fine afternoons, in one of our GLIDERS! You ride on cushioned springs. Just like riding on air. You'll not be able to enjoy these invigorating Spring evenings without one of our GLIDERS. And the cost is so low that you will be astounded.

**Give your Order to any Telephone worker**

It is easy to have telephone service in your home. And it is not necessary to visit the Telephone Office to arrange for the installation.

You probably have a friend, perhaps a neighbor, who is a telephone worker. You need not hesitate to talk with him about our telephone requirements. After all, he and the many other men and women like him compose what is known as the Telephone Company.

Remember that telephone service costs only a few cents a day; a small sum compared to the convenience and protection it offers to every member of your family.

Any telephone worker—operator, lineman, clerk or other employe, will quote rates and give you information about the service. They will be glad to take your order, too. Talk it over with your telephone friend today.
