VOLUME IX.

ZEBULON, NORTH CAROLINA, FRIDAY, ELEVENTH OF MAY, 1934

Zehulon

NUMBER 46

Ohe

By MRS. THEO. B. DAVIS ***** FLATTERING COMPARISON

When Miss Irene Pitts, of Wakelon's faculty, remarked to me some days ago that I remind her of her grandmother, I wondered a bit. But then I heard her say later in the week that she was looking for a Blue-Backed Speller to take her grandmother, and that the lady wanted to go over it again because she used to know it so well, I felt flattered at being compared to her. For Miss Pitts' grandmother is more than 92 years old and still mentally alert and interested in many things.

MOTHER'S DAY

Mother's Day. The special church church near Holly Springs. Hard service usually makes me feel like I've been smeared with honey and it is keenly embarrassing to sit and be one of those lauded, knowing that I deserve so little of the highflown tributes.

And, if my children rallied around on Mother's Day and didn't keep it up during the other 364 days of the year, I should probably be rude to them that day. Though I don't know-I might weep and treasure its memories to warm the coldness of neglect. We mothers have a hard job and a long one; but we needn't feel that merely being mothers sanctifies us; it's not the title but the way we wear it that crowns or shames us. I shall remember my own mother next Sunday; but I have written her at least once a week for more than twenty-five years, and shall be thankful if permitted to do so for twenty-five more. And I need no special stamp saying "In memory and in honor of the mothers of America-Three Cents."

Are Local Fertilizer Prices Exhorbitant?

Is To Be Here As advertised elsewhere in this paper, Mr. Harold Cooley of Nashville, candidate for Congress from the Fourth District will speak at

Candidate Cooley

the Wakelon school auditorium next Thursday evening. It is hoped all the voters will hear him.

Mr. Cooley, we are told is an unusually fine speaker, and outside the interest one might have in his Congressional aisprations, he no doubt will give a good evening's entertainment.

Boy Ends Life

Raleigh, May 10-Pryor S. Suggs 18 and of Raleigh, ended his life last night by shooting himself through his heart about 9:00 Call me hard-hearted, unsenti- o'clock. He left a note asking his \$6 per ton bonus. The mixed fermental, what you will, but there family to forgive him and asked tilizers are in line in like proporare times when I almost detest to be buried at Pleasant Grove tions. In the case of Super Phosstudy is supposed to have led to the deed.

Chicago-Samuel J. Insull has been jailed here. He was unable to urnish \$200,000 bond required by the government.

What have the farmers of North Carolina done that they should be made to pay a PREMIUM of \$5.00 to \$8.00 per ton on mixed fertilizers and other fertilizer materials ?

Why should the price south of the buy 16 per cent Super Phosphate, clear and distinct. thesame that we get here, for \$10 per ton while our net price to the farmer is aproximately \$17.50 per ton, a bonus over our neighbors of the James River of \$7.50 per ton

or a premiumof 75 per cent more than they have to pay. The Sulper ton and here they are approximtaely \$37.00 per ton or about phate (Acid) much of this is mined in Florida and hauled right by our

state by boat or through our state by rail to either Norfolk or Baltimore and then shipped back to us at greatly increased prices. This Super Phosphate should be unloaded at a port within our state and sold to us possibly cheaper than it could be sold to those north of the

a shorter haul. Ther must be something wrong with us in this state that such a thing can exist. One thing that I have seen that gives me a hint of our NRA Fertilizer Code Zone only Representatives of the Commercial Fertilizer interest are listed on that board, while in the Zone north the representation in that Zone is

Raleigh, May 10 .- A blast from

Eight In Death Row

Raleigh-There are eight men or "death row" in the state prison here. One has been granted a re James River on account of its being prieve till June 22. Three have fill ed appeals to the Supreme Court.

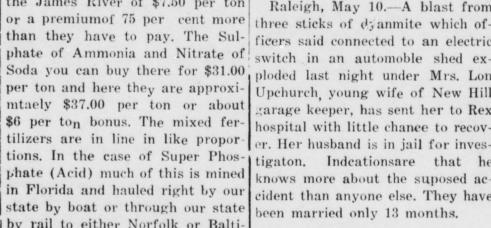

Record

Another embarrassing incident elative to the Austin occurred in Raleigh last week.

It so happens that there is a short circuit within the steering post that has not been corrected. Whenever the wheel is turned to a certain angle, the horn beeps in a most surprising manner. Such was the case on the above mentioned accasion.

I was traveling down Fayetteville Street when a stop light intercepted my forward propulsion to the extent that friction upon the brake drums caused forward motion to be practically impossible. So, after coming to a stop, 1 accidently touched the horn button: BEEEP! Of course I glanced around and as usual there was a policeman staring at me. "Wise guy," thought he. "The same to you," thought I. At that moment a truck swung around the corner and in the excitement the horn vas beeped again. (More looks from the burly brute). "Ah there's a vacant spot, I'll move into it and get out of his sight," surmised I. But lo, I turned the treacherous wheel too far and BEEEP! "Saaay! you!" cried the copper, "Where do you think you are, home or some other dirty place?" "Yes sir," I answered in my most platonic manner. At last the stop light changed and seeing my chance, I ducked around the corner, BEEEEP!

CONCERNING JOB

Digging in the yard this week reminded me of a passage in Job: "When the dust groweth into hardness and the clods cleave fast together". That time was then and certainly is now.

However, there is comfort in realizing that ours is not the only generation that has toiled in the dust and the clods, dependent largely upon the weather for our living as well as for our flowers.

And it was God who spoke the words quoted; so we may be assured that he knows.

RAMPION

Have you heard of ramp? When my husband asked me if I had ever eaten any I thought he was trying to be funny; for the only ramp I ever knew of was a part of a fortification. Of course I had heard of rampant, rampage, and even of ramping around, but they certainly could not be eaten. He went on to tell me of ramp that grows wild in the mountains of North Carolina and which folks 8:40 was 8:05 a.m. eat. He said it has an odor that lingers for days longer than does that and poke-weed. I went to the dic- a salad.

It is defined as a European per- I've learned something.

In the shakeup stirred up by ministers of Raleigh by which four what it might be is the fact that in city and county officials resigned, the grand jury awaits further evidence. Solicitor Little says no new evidence is found for further action at this time.

Severe Drought

Severe drought has discouraged many farmers in the Mid-West. In Iowa are sections where they are undecided as to whether to try to plant their crops at all.

Church Services

There will be preaching at the Methodist Church Sunday, morning and evening. Mother's Day wil' be observed and all should acknowledged with grateful appreciation their indebtedness to Mother whether living or in Heaven.

Forest Fires

Fires in the forests in the western part of the state did untold damage last week. Thousands of acres were burned over and many homes were destroyed.

Notice
