

## Plant Austrian Peas in Fall

Austrian winter peas make an excellent fall legume for improving almost any North Carolina soil.

The peas are equal to crimson clover or vetch in soil building qualities and the seed is comparatively cheaper to sow although more seed is required, the planting rate being 30 pounds to the acre.

The best time for sowing is in September, preferably before the 15th. The Austrian winter pea seed may be obtained from almost any seed dealer.

The seed may be broadcast in standing corn, cotton, or tobacco and covered with an ordinary walking cultivator. To avoid loss of cotton, the sowing should be just before the bolls open or right after the first picking.

Another way of seeding is to prepare the seed bed by shallow plowing or disking, then sow the seed and cover with a section harrow. Blair recommended.

The peas should not be sown with rye, as the two crops will not be ready to turn under at the same time. But they may be mixed with vetch or crimson clover to get good results.

Sown by themselves, the peas may be turned under earlier in the spring than either vetch or crimson clover.

Although this legume is new to this section of the country, it has proved to be an excellent legume and will probably increase in popularity as more farmers learn of its merits.

## Rolesville to Get Its High School?

The county commissioners recently voted \$3000 for school building and equipment at Rolesville, with the idea of establishing a good high school there. The state school commission declined the request of Rolesville for a high school on the ground that there was no money for equipment. The request will be renewed next week for enough money to pay teachers. At present Rolesville high school pupils go to Wake Forest.

## Hotels Lose Eagles

Several hotels in North Carolina, including the Sir Walter in Raleigh and the Washington Duke in Durham have had the Blue Eagles taken from them on account of alleged violations of the code. Management of these hotels say that it is impossible for them to operate on the basis suggested by NRA and they will contest in the courts the summary action of the code authority.

## Allen Resigns

Maj. Matt H. Allen, chairman of the state industrial commission since its inception in 1929, has resigned that lucrative position to devote his entire time to law practice and development of some valuable real estate holdings.

Governor Ehringhaus is expected to name Major Allen's successor within a few days. The job pays \$4000 a year.

## Robberies

A series of robberies late Sunday night and early Monday morning cost citizens of Wake county several hundred dollars. Hunter's store at Apex was robbed of \$150 to \$200 worth of merchandise and several homes at Garner were entered and cash to the amount of \$183 taken.

## Dedicate Chapel At Manteo

At Manteo last Sunday was dedicated a small chapel commemorating the first Protestant religious service known to have been held on this continent. The service was modeled after one 347 years ago held on the same site by early colonists whose disappearance has been one of the mysteries of history.

## Discovers Serum For Paralysis

Dr. John Kolmer, of Philadelphia, claims to have discovered a serum which will prevent infantile paralysis. The serum is said to be prepared from the spinal cords of monkeys that have developed the disease by having injections of its virus given them and is thought to have been proven successful.

## Speaker Rainey Dies Suddenly

Henry T. Rainey, of Illinois, member of 14 Congresses and Speaker of the House of Representatives, died unexpectedly on last Sunday. He was 74 years old, a Democrat with wide influence, he did much to rush through the acts connected with the New Deal as planned by President Roosevelt.

In England, a yearly government tax is levied against all persons operating radio receiving sets.

## State Democratic Committee Meet

The state Democratic executive committee has been called to meet in the capitol next Monday night to elect a vice chairman, a secretary and a national committeewoman.

## New Lawyers

The law examination put up the first of this week by the North Carolina State Bar was a hard one according to the opinion of several who took it as well as a number of practicing attorneys. Notwithstanding its difficulty 109 applicants appeared to try it.

## Big State Fair

Raleigh, Aug. 24—Nothing is being left undone to make the State Fair, which will be held here the week beginning October 8, one of the biggest and most entertaining October events of its kind ever staged in the long history of the fair. Norman Y. Chambliss, general manager, said today.

Mr. Chambliss is just back from New York City, where he conferred with his partner, George Hamid, producer, relative to general fair plans as well as for entertainment features for the fair in general. He said a galaxy of free acts, including Schooley's Revue, starring a large number of chorus girls as well as other star performers, will perform nightly in front of the grandstand.

"We do not intend to leave anything lacking about the fair this

year," said Mr. Chambliss. "Mr. F. E. Miller, of the State Agriculture Department, who is superintendent of the farm and home exhibits, says he is already getting a number of inquiries about exhibits. We are giving away over \$10,000 in prize money for the best exhibits this year and every cent of it will be distributed among North Carolina exhibitors. It is our hope to make the fair a large mirror in which all can see just what is being done on the farms and in the homes of our state."

Mayor T. M. Arrowsmith, of Hillsboro, has been named as superintendent of the horse races to be staged Tuesday, Wednesday and Thursday of Fair Week and another noted horseman, Joe McGraw, will serve as official starter. A horse show will also be held on Tuesday.

Automobile races will be a fair feature on Friday and they will be staged under the direction of Ralph Hankinson whose drivers last year provided thousands of fairgoers with some thrilling spills as they dashed around the dirt track at the fairgrounds.

An uneducated population may be degraded, a population educated, but not in righteousness, will be ungovernable. The one may be slaves, the other must be tyrants.—Henry Melville.

Real knowledge never promoted either turbulence or unbelief; but its progress is the forerunner of liberality and enlightened toleration.—Lord Brougham.

All crops in Catawba County are reported in excellent condition with an abundant harvest forecast

**PATENTS AND TRADE-MARKS C.A. SNOW & CO.**

Successful Practice since 1875. Over 25,000 patents obtained for inventors in every section of country. Write for booklet telling how to obtain a patent, with list of clients in your State.

710 8th St., Washington, D. C.

**CLOVER SEEDS TURNIPI**

15c Lb. 5c Oz.

Vetch, Abruzzi Rye, Rape, Wood's and Wyatt's seeds, no better, WANTED—Eggs, 20c in Trade. Plant Turnip Seed, now 5c ounce.

**A. G. Kemp Zebulon, N. C.**

**GOODYEAR SPEEDWAY**  
Tough thick Center Traction Tread. Built with Supertwist Cord. Full Oversize. Lifetime guarantee.  
4.40-21 4.75-19

Other sizes in proportion. Expert tire mounting. Prices subject to change without notice. State tax, if any, additional.

**"43% MORE NON-SKID MILEAGE"**

**"You're too modest!"**

Motorists who got the first G-3's put out—months before the public announcement—say, "You're too modest!" Many of them report 50% to 100% more non-skid mileage. Why, then, do we insist on only 43%? Well, 43% is a definite test-car-proved figure. Very likely it is low for normal use—because the tests which established the 43% average were gruelling: cars speeding up to 50, jamming on brakes, mile after mile, day and night. Very likely most motorists will get more than 43% more non-skid mileage. But we'll string along with 43%—because it's plenty to deliver at no extra cost. Come see the tire that's the talk of the nation.

**YES! A DOUBLE GUARANTEE**  
1. Against road hazards  
2. Against defects for life.

**When You "G-3" Your Wheels—LOOK WHAT YOU GET**

No Extra Cost! Flatter, wider All-Weather tread. More Center Traction (16% more non-skid blocks). Heavier Tougher Tread. Supertwist Cord Body and 43% More Miles of Real Non-Skid.
