

## PERSONALS

Miss Ruby Stell spent the week end with relatives near Wake Forest.

Orin Massey is in Mary Elizabeth Hospital where on Tuesday he underwent a minor operation. He is making satisfactory recovery.

Mr. and Mrs. W. H. Brookbank of Willow Springs came Wednesday night to see the senior play, which was a real tribute to the class and cast.

Jack Scarboro of High Point was buried at Hepzibah on Wednesday. He was a nephew of Mrs. Julian Horton and a cousin of Mrs. Ted Davis.

Friends of Louisburg College will be interested in the announcement that the Glee Club will broadcast over WPTF on Friday night of this week from 9:30 until 10:00.

Rev. Theo. Davis and Barrie Davis returned Monday night from a trip to Bryson City, where Mr. Davis preached on Sunday. Enroute they spent a night with C. S. Davis at Waynesville.

C. E. Strickland had a narrow escape from death or serious injury when his car was struck in Raleigh by a Negro driver in another car. Strickland's car turned over several times and demolished a parked auto which it struck, but he was not much hurt.

Master Dave Finch celebrated his ninth birthday last Saturday by a trip to Raleigh to the movies and to the Ten Cent Store. Accompanying him were his mother, Mrs. F. D. Finch, his grandmother, Mrs. Pattie Harris, and six of his friends: Charles Whitley, R. H. Brantley, Ray Pippin, Donald Pippin, Jack Gregory and Frederick Page.

The government of Japan has approved the largest military defense fund in the nation's history.

## WOMANS CLUB

There will only be one more meeting of the Woman's Club this month. The business meeting will be held with that of the Department of Literature on Tuesday night of next week, beginning at 7:30. The program will be on Recent Poetry of the South. A full attendance is desired.

The Music Department of the Woman's Club will meet at 3:30 p. m. on Thursday, Dec. 20.

Mrs. E. H. Moser, Chmn.

### SERIES OF ENTERTAINMENTS

The Zebulon Drug Company gave on Monday, Tuesday and Wednesday nights of this week a series of social hours at which two hundred-fifteen couples of this town and vicinity were invited guests, different groups attending on different nights.

The beautifully decorated store was fitted up with numerous extra tables at which fruit juice cocktails were served, followed by a chicken salad course and a sweet course. Music was provided and souvenirs given.

Refreshments were served by Mrs. E. C. Daniel and Mrs. Julian Horton, assisted by Misses Marion Whitlock and Ruby Dawson, Little Miss Dorothy Horton and Douglas Finch.

For their generous hospitality and for their promotion of the spirit of Christmas the Zebulon Drug Company deserves and has received the thanks of many friends.

### BIRTHDAY PARTY

Mrs. James Pulley surprised her daughters, Lou Nell and Bessie May, with a birthday party last Friday, honoring the fifth and third birthdays of the little girls. Around the decorated table marched the children with their guests, singing birthday songs and admiring the cake with its burning candles. After games were enjoyed ice cream and cake were served.

## Hopkins Chapel

Miss Libby Bunn is at Elbert Williamson's at Wendell.

Mrs. L. Capley of Durham is visiting Mrs. J. Howard Bunn.

Miss Thelma Bunn has been nursing Arthur Talton at Eagle Rock.

Miss Sadie Hopkins and Elwood Jackson were united in marriage last Wednesday, December 5.

A miscellaneous shower was given at B. S. Doyle's home for Mr. and Mrs. Harold Doyle. Mrs. Doyle was formerly Miss Ruthie Pearce.

### MRS. LUTHER LONG

Mrs. Luther Long died in Mary Elizabeth Hospital on Wednesday night. Funeral services were held at 3:00 p. m. on Thursday at the home with burial in the burying ground nearby.

## Big Improvement In Auto Engines

Engineers long ago discovered that the shape of the chamber in which the gasoline is burned in an automobile engine is of the highest importance. This chamber, known as the combustion chamber, must be so formed that the burning gasses have a definite and controlled process of combustion.

Basing his predictions on recent improvements in the handling of fuel Charles B. Bohn, president of the Bohn Aluminum and Brass Corporation declares that "better automobile engines are coming."

"The controlling of the combustion in a gasoline engine, dealing as it does with tremendously high temperature and great flame velocity,

### E. PADGET PRESENTS PLAY

E. Padget and his State College playmakers presented a most interesting program in the school auditorium last Friday night.

An extemporaneous play, "The Mountain Snake," was given by the entire cast. The acting of the cast showed much talent. None of the lines of this play were memorized, but they had practiced it a number of times.

They then presented two impromptu plays, the plot of which was given to them by Miss Preslar. The cast was divided and neither knew how the other intended to dramatize it. They only took time to assign the characters before the curtain arose. It was very amusing to see the different ways the cast developed the same situation. The impromptu plays were acted as smoothly as if the lines had been memorized.

The State College players have received recognition in the state as the best of their kind. They have been asked to put on a similar performance as they gave here at the University of Louisiana where Huey Long has held such a discussion of such acts.

We feel that it was a privilege to have them in our school and greatly appreciated their coming.

### PHILOMATHEAN SOCIETY

As usual, the recent program of the Philomathean Society was an

interesting one. To add to the literary knowledge of the students, Margaret Bunn told a short story and Kay Kemp gave a book review of one of Louisa M. Alcott's books. The humor of the society was aroused by a witty story told by Mary Frances Cockrell.

Juanita Rhodes read the poem, "Jest 'Fore Christmas," and Louise Baker gave a brief announcement concerning worth while programs soon to be presented in our school.

The society adjourned to meet again in two weeks for another interesting program.

MARY F. WHITE,  
Society Reporter.

### ELEMENTARY NEWS

The elementary grades have been doing work this year. Apparently work is not all they have done by looking at their attendance record. The following grades have won a half holiday for a high percentage of attendance for the third month: 7-A, 6-A, 5-A, 4-A, 3-A, 2-A.

Mrs. Bunn's section of the seventh grade is very much delighted with a large picture of George Washington presented to them by Mrs. Iscar Strickland and Mrs. M. T. Debnam.

Grade 7-A is glad to have George Stencil of Johnston County to become one of their class workers. This makes an enrollment of 47 for them.

In a recent contest for the best book marks made in art classes, prizes were awarded to the following pupils:

Frederick Strickland, 7-A; Geo. Ferrell, 7-B; Bobbie Alford, 6-A; Rocher Hagwood, 6-B.

Barrie Davis, 6-A, won the prize given for the best book mark in the four grades.

Grace Stallings.

### SEVENTH B GRADE

This past month of November, the seventh B girls got a half holiday for averaging 95 per cent attendance for this month. For the rest of the year we are having an attendance chart. For each week of perfect attendance we receive a star and at the end of the month those with perfect attendance get a half holiday.

We are having a Christmas tree for which we are making our own Christmas decorations. We are also making some Christmas cards for our own use, and some of them are very pretty.

Mrs. Phillip Massy asked our grade to give a play explaining the Red Cross Christmas seals. We are going to give this play in the grades from the fourth through the seventh.

MISS WEBB, Teacher,  
Grade 7-B.  
Priscilla Mitchell.  
Margaret Oakley.

city, is by far the most intricate question involved in internal combustion engine design," says Bohn. Engineers have solved the design problem after five years of research and, as recently announced, have evolved definite combustion chamber forms for every type of automobile engine. As far as the car owner is concerned he will not see any great amount of difference in the exterior of the engine. The benefit he derives will be in the form of money in his pocket because of less fuel used and a greater satisfaction with his automobile because of the higher power, smoothness and consequently better performance.

According to present plans most of the 1935 car engines will incorporate the Bohn type of combustion chamber. It will be utilized in connection with aluminum cylinder heads which permit higher compressions and thus contribute to better engine power, economy and efficiency.

### LIVESTOCK POISONED BY ACORNS AND OAK LEAVES

The danger of livestock being poisoned by oak leaves and acorns is increased when undernourished animals are permitted to range in the woods, warns Dr. C. D. Grinnells, who is in charge of dairy investigations at State College.

Well-nourished cattle seldom eat enough leaves or acorns to cause serious injury, but underfed ani-

mals will eat large quantities of oak leaves, acorns and young sprouts in an effort to satisfy their hunger.

Young cattle, especially, are liable to suffer serious digestive diseases when this oak feed becomes a prominent part of their diet. Loss of appetite, decreased or discontinued rumination, constipation, lowered milk production, and a disinclination to move are some of the symptoms.

It is thought that the tannin, or the substances which produce tannin, is the poison which affects young, undernourished animals when it is eaten in large quantities.

Some observers are of the opinion that half-ripe acorns, which fall from the tree before maturing in times of drouth, are more injurious than those which have ripened.

Animals over three years of age, sheep and hogs are seldom bothered by oak poisoning, although they, too, may become susceptible if forced to eat too many leaves and acorns.

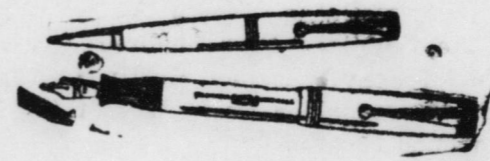

Said one little chick with  
A funny little squirm  
"I wish I could find a nice  
Little worm."

"Look here," said the mother  
From a green garden patch,  
"If you want any breakfast,  
Get busy and scratch."

Easy money is easily spent.

With—  
ONE SUGGESTION—  
Why not give this  
to that boy?

Or in our well-selected stock we have other articles from which you may select a useful and appropriate gift for every member of the family.

:::::

Why not come in and let us help you select that gift for some friend or loved one at this joyous giving season?
