FORD built many extra dollars of value in the 1935 Ford V-8 and then reduced the price. Take safety-glass, for instance. Surely you want this additional protection for your family. You get it in the Ford V-8 at no extra cost. Your wife and children ride often in the back seat. You want them to be comfortable. "Front seat riding comfort" for every passenger in the car is a basic part of the Ford V-8 design. The long, soft transverse springs mounted beyond the axles give the luxury of a 123 inch springbase. Seats are wider and more comfortable. There is plenty of elbow room and leg room and a spacious luggage compartment is built in back of the rear seat. No need to pay extra for the privilege of storing your bags out of the way. You can select from a variety of attractive body colors with fenders to match at no extra cost.

Big 6:00x16" air-balloon tires are standard equipment on the Ford V-8.

All these features are part of the extra dollar value you get in the new Ford V-8. They make for comfort, safety and beauty, yet you do not pay a penny extra for them.

In addition, you get a modern streamlined noise-proof all-steel body. You get an 85 horsepower V-8 engine which provides 8 cylinder smoothness with the economy of a "4."

No matter what you may want in a car—style, safety, speed, power, economy, rugged endurance and comfort—the Ford V-8 for 1935 will meet your needs. See this new car today. If you study it feature by feature, you will agree it is the biggest dollar value in Ford history.

DRIVE IT AND YOU WILL BUY IT!
