quicker than the one which calls for a batter before making the dough and the rolls are as fine as any yeast will give.

The yeast is also fine for ice-box rolls, whole wheat bread, etc.

It ought to be serviceable in the country where one can't run to the store in a few minutes to buy yeast and it is certainly cheaper than the compressed kind.

Of course there's no bread that beats hot biscuit, but yeast is handy to have when the cow goes dry.

Holloway's Hits

NATIONAL

The waves of criticism now sweeping over this country of the New Deal and the national administration are becoming alarming to a great many Democrats. The President continues to maintain his serenity and apparent indifference but the continued nagging of various elements are having serious effect on the future of the party. Some of the harshest criticism is now coming from the Democrats in Congress and out. Two years ago President Roosevelt was the most popular man in the entire world and no sane man thought such a remarkable change in public sentiment towards him and his administration possible. If this keeps up until after the election in 1936 he may be as badly beaten as President Hoover was. The people of this country are both fickle and unstable. They crucify those who serve them well and will follow a demagogue to the last ditch. The President has tried hard to please all the people and the common people most of all. He has done great things for the laboring man, he has been the greatest friend the farmers ever had in the White House, he lifted business out of the mire of despair and saved the banking business from ruin. The cotton mill industry was facing ruin when he took charge and the railroads of the nation were on their last legs. He extended the helping hand to all industries and now the same people who owe him the deepest debt of gratitude have turned on him and are trying to destroy his program for recovery by every artifice known to ingrates and traitors. It is a terrible reflection on the moral fibre of this nation that such a thing could happen. They offer nothing but carping criticism to every plan he proposes and have advanced no alternative to take the place of his program except a return to the old order of things. Surely the people will become aroused to the true situation before they are led back into the wilderness of hopelessness and despair from which President Roosevelt has led them in so short a time. The Republican party has been weighed in the balances of justice and found wanting. Are we going to give them control again after the mess they made of things? The Third Party movement now being sponsored by the impractical theorists and radical demagogues has nothing to commend it to favorable consideration of the people except a lot of promises impossible of realization, so why not follow through with Roosevelt until his plans prove to be failures?

STATE

The General Assembly will probably go home before the 15th of May unless they have another Brain Storm over some frivolous matter. They have done about all the harm they can and it is devoutly to be hoped that a majority of them will find themselves ostracised by their neighbors when they return home. Any community that votes to return any of the present assembly is bound to be gluttonous

for punishment. This is the first session in years that failed to develop some semblance of constructive leadership. The mob spirit has prevailed throughout the long session and more ridiculous legislation has been passed than ever before. It has been a sad spectacle.

COUNTY

Treasurer Milton Mangum has been doing some splendid financing the past three months and he has saved the county thousands of dollars and greatly improved the condition of the sinking fund.

Wake county has recovered its financial stability to a very great extent the past year and a large share of the credit for the improved conditions is due Mr. Mangum.

If any reader of this paper desires to see a busy place, he can easily gratify this wish by stepping into the Clerk of Court's office these days and watch the activity there. It is a busier place than the post office and Clerk Tilley can turn out more work than four ordinary men. He earns every penny the county pays him and is a splendid official.
