

Appreciation of Mr. S. L. Bowen

Bunn.—The school officials of the Bunn-Dunn School District of Franklin County, along with the County Superintendent, and the pastor of the Baptist Church at Bunn, desire to take this opportunity of publicly expressing their sincere appreciation of Mr. S. L. Bowen for his most efficient and excellent services rendered during the past seven years as Supervising Principal of the Bunn-Dunn School District.

Mr. Bowen conscientiously and ably performed the duties of his office as a school man. For the fine Christian and moral example set before his students we are truly grateful to him. His valuable services were not confined alone to the schools under his supervision, but he has been a loyal and faithful member of the Bunn Baptist Church, rendering definite services to the Church as its clerk and in the Sunday School as teacher of the Young Men's Class. He also has rendered splendid service as a member and leader in the local Council of the Junior Order. In all worthy community activities he manifested a helpful interest.

The patrons in the School District learned with deep regret of Mr. Bowen's intentions of leaving the school profession, and their good wishes shall follow him in his new endeavors. We wish for him and his good family a glorious and happy future, crowned with the greatest degree of success, and we shall ever hold in our memory his gracious services, his noble and useful life lived among us for the past seven years.

Signed by Superintendent E. L. Best, W. A. Mullen, until recently member of Board of Education, the present School Board, and others who have been members of the Board sometime within the past seven years, and by Rev. C. E. Crawford.

FARM NOTES

By T. H. LeCROY

Considerable interest has been manifested in the action of a group of Texas farmers in filing a counter suit to the action being taken by cotton mills in protesting the cotton processing tax. These Texas farmers think that the protective tariff being enforced for the protection of the cotton mills against foreign cotton goods should give the farmer a right to protection from low cotton prices. The AAA in enforcing processing taxes upon the cotton mills is giving the farmer the same type of protection that the cotton mills have enjoyed for many years. What is fair for the mills should be fair for the farmer.

After the rush of burning tobacco is over every farmer with a pasture worth anything should see that weeds are cut to prevent seeding. Bushes and briars will cause less trouble about coming back after being cut if they are cut in August. Trees can be killed very easily in August by pouring a small amount of acid (sulphuric acid preferred) into places made by a downward stroke of an axe on the base of the tree.

Canning Budget Is Recommended

Food and health authorities say that every person should have in his diet at least two vegetables each day in addition to potatoes and dried beans.

In order that rural families may have a sufficient amount and va-

riety of vegetables in their diet during the cold weather months, some of the surplus of the home garden should be canned.

In addition to canned foods, the table should be well supplied with greens which may be grown thru the winter, and stored vegetables such as onions, beets, squash, turnips, potatoes and cabbage.

For each member of the family there should be canned 57 pints of vegetables and 45 pints of fruit. Twelve pints of dried fruits and six pints of dried vegetables per person are also recommended as a supplement to the canned foods.

To further round out the diet, the housewife should provide for each member of the family four pints of preserves and jam, two pints of jelly and two pints each of pickle and relish.

As a canning budget, the following vegetables for each person are suggested:

Asparagus, two pints; beets, 4 pints; carrots, four pints; corn,

two pints; English peas, two pints; kraut, four pints; lima beans, two pints; okra, two pints; soup mixture, five pints; string beans, ten pints; tomatoes, 20 pints; apples, six pints; blackberries, six pints; cherries, six pints; fruit juices, 3 pints; huckleberries, three pints; grapes, three pints; peaches, six pints; pears, six pints; and plums, six pints.

FACTS!

And now the disagreeable fact creeps out that no "tax-the-rich" program, no matter how confiscatory, will ever produce enough money to make a dent in the federal debts that are piling up.

The deadly fact is beginning to sink into the minds of our lawmakers, as well as into the minds of our taxpayers, that the only way to collect the billions of dollars a year needed to meet present public expenditures, is by a tax that reaches down into the toe of the

sock of every individual who has an income above the bare subsistence level.

It has been predicted that within

the next five years we may claim the distinction of being one of the most heavily taxed nations of the world.

"Camels don't get your Wind" ATHLETES SAY

I SMOKE A MILD CIGARETTE... CAMELS. THEY DON'T GET MY WIND AND AFTER HARD PLAY A CAMEL GIVES ME A 'LIFT'

I'VE TAKEN THE ATHLETES' TIP ON CAMELS. CAMELS DON'T AFFECT MY CONDITION. THEY MUST BE MADE FROM COSTLIER TOBACCOS TO BE SO MILD.

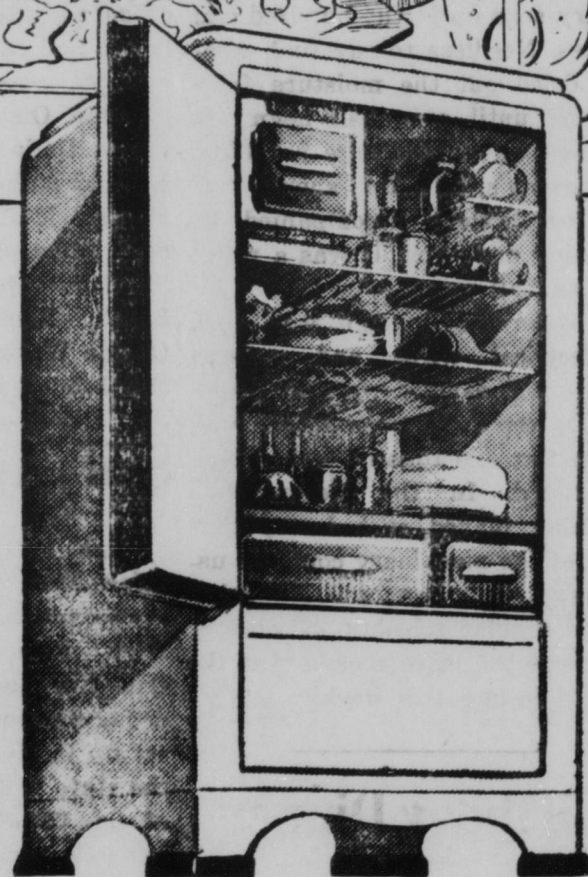

SO MILD!
YOU CAN SMOKE ALL YOU WANT!

Cool Drinks...Frozen Desserts

Gifts FROM YOUR ELECTRIC REFRIGERATOR

Dozens of cool treats, delicious drinks, sparkling desserts will come from your electric refrigerator this summer. It is a happy friend to all the family during the hot days ahead. New desserts that you have never dreamed of before, tempting salads that really "make a meal," all are made possible by electric refrigeration. They are gifts that make your electric refrigerator priceless!

PAYS FOR ITSELF—ASK YOUR FRIENDS

Every woman who uses an electric refrigerator realizes very quickly that its purchase price is repaid over and over again. Food is saved. You can use leftovers appetizingly as you never could before. You can enjoy buying bargains in the markets, thanks to extra storage space in your electric refrigerator and constant, even cold.

MAY NOT COST AN EXTRA PENNY TO RUN

Thanks to "No-Extra-Cost Electricity" and the new low bargain rates, many, many people in Carolina can enjoy an electric refrigerator without paying an extra penny to run it. You may be one of them. Then all the marvelous gifts of electric refrigeration may be yours without extra cost. Check up. Take this grand opportunity now!
