Lees Chapel News

Since spring is here and the winter all gone, may we peep into the Record once more.

A large crowd attended church Sunday.

We are glad to report all sick folks improving.

Little Billy Davis of Raleigh spent Saturday night with his grandparents, Mr. and Mrs. Geo-Davis.

We want to welcome our new neighbors, Mr. Fred Price and family from Lucama, who have moved to the A. D. Driver farm in our community.

Mr. Raford Driver and family and Mr. Thurman Driver and family of Wendell visited Mr. and Mrs. W. J. Green a short while Sunday afternoon.

Death of Shirley Lee

Little Shirley Lee, age 3, son of Mr. and Mrs. Marvin Lee, died Saturday night, March 14, about 7:15 o'clock, at his home near Middlesex, after a week's illness with pneumonia.

Funeral services were conducted Sunday afternoon at Friendship Free Will Baptist church by the pastor, Rev. J. B. Ferrell.

The floral offering was beautiful.

Flower girls were Agnes Lee,

Rachel Lee, Mary Elizabeth Morris, Helen Williams and Beulah Strickland.

Pallbearers were, Paul Canada, Harding Lee, Joseph Dudley, Perry Clay Williams, Lawrence Canada, and Cedric Strickland.

He is survived by his parents, one brother, Bobby Lee, and grandparents, Mr. and Mrs. W. V. Lee and Mr. and Mrs. A. T. Canady, besides a host of uncle's and aunts, cousins and friends.

We know heaven is a more beautiful place,

Since our darling Shirley has gone there to stay

May his going be a light on our way

And help us to meet him on that resurrection day.

For Digestion's Sake - smoke Camels

The "Morrissey" (below) in a ticklish spot. Harold McCracken, leader, says: "In the Arctic, stomach upsets are a constant bother. I've discovered that smoking Camels at every meal and after helps digestion."

TRY CAMELS YOURSELF!
They stimulate natural processes of digestion - restore well-being. Camels set you right!

CAMELS Costlier Tobaccos!

below shows the results obtained in 38 farmers on 1,242 acres of bright tobacco containing 3% potash was with fertilizer containing 8% potash; per containing 5% potash was comh fertilizer containing 10% potash, etc.

3-8-8 CONTAINS THE EXTRA POTASH THAT PAYS EXTRA CASH

at an extra cost surprisingly low!

TOBACCO FERTILIZER is well-balanced cash. It contains 35% more actual than 3-8-3, yet it costs you only a more. Figured in terms of an acre the cost is so small it will surprise you! For Fertilizer Man!

TOBACCO removes from the soil more potash than both nitrogen and phosphoric acid combined. A 1,000-pound crop of cured leaf removes 80 pounds of actual potash, or the potash in 100 pounds of fertilizer containing 8% potash. Tobacco plant is a shallow feeder that grows to maturity in a very short length of time. For this reason very often even larger quantities of potash are applied to the plant actually removes from the soil are added to enable it to get sufficient potash to produce extra yields of a high quality crop.

Before you buy tobacco fertilizer it will pay you to check up and find out how little extra it will cost you to use a higher potash mixture. Remember, the Committee of Agronomists recommends fertilizer containing 6 to 10% potash for bright tobacco.

Extra **NV POTASH** in your fertilizer will probably be the best investment you have ever made. Many leading farmers have used it with outstanding success. Extra potash gives tobacco a better grain and increases yields. It does not make the crop rough

and red. On the average the man with the most pounds makes the most dollars per acre. Extra pounds this year will give you the chance to grade your crop closer and sell more pounds of high-quality leaf.

Your fertilizer man knows the importance of plenty of potash in tobacco fertilizer. That is why he has 3-8-8 TOBACCO FERTILIZER on sale. Tell him you want to produce "high-dollar" tobacco in 1936. Tell him you want 3-8-8 TOBACCO FERTILIZER, the fertilizer that contains so much extra-profit-producing plant food at such low cost.

When you buy straight potash or potash in mixed fertilizer, it pays to make sure you get genuine **NV POTASH**—the same potash that has helped Southern farmers to produce better crops for more than fifty years.
