

Rocky Cross News

With the arrival of spring all the farmers are hoping for some fair weather so they can start to work.

Miss Laura Massey spent last week visiting her sister, Mrs. W. P. Talor near Sten Hope.

Mr. W. P. Taylor's many friends were glad to see him in the Rocky Cross community Saturday afternoon.

Mr. O. N. Bryand of near Knightdale spent the week-end visiting his sister Mrs. W. A. Bryant who is ill.

Mrs. Willie Murray of near Spring Hope spent part of last week with her mother who is ill.

The friends of Mr. S. T. Strickland hope that he will soon be able to leave the hospital.

Mr. and Mrs. D. T. Alford and Mr. and Mrs. J. Murray, all of near Sten Hope visited Mr. and Mrs. T. H. Bryant Sunday afternoon.

Mr. Robert Hagwood and family of near Zebulon visitor Mrs. J. E. Hagwood Sunday afternoon.

Mr. and Mrs. Jim Marlowe of Spring Hope visited Mr. and Mrs. J. H. Massey Sunday afternoon.

We were very glad to have such a large crowd out at church Sunday. We were also very glad to have our Sunday School superintendent, Mr. T. A. Hagwood, back with us after a long illness.

There is a Sunday School Vocal Union at Rocky Cross church next Sunday afternoon beginning at 1:30 o'clock. We would be glad to have a large number of people. So you Sunday School leaders get your choirs together and come down.

FOR ECONOMICAL
TRANSPORTATION
CHEVROLET

The Chevrolet engine is the most economical automobile engine produced today, because (1) it is a six-cylinder engine, and (2) it is a valve-in-head six-cylinder engine.

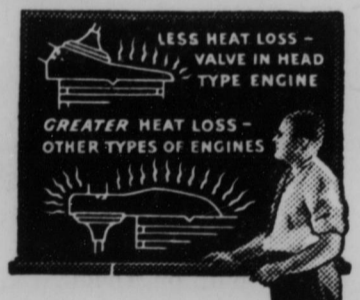

Its six cylinders use less gas and oil—in fact, use the least gas and oil—for six cylinders are the most economical combination used in modern automobiles.

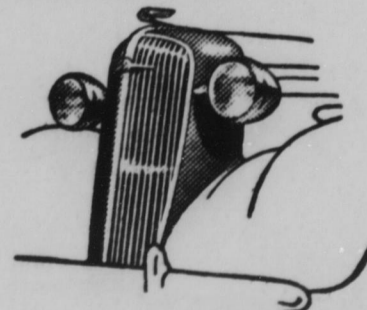

Every test proves it's more economical . . . Every Chevrolet owner knows it's more economical . . . And every person will readily understand these simple A-B-C reasons why it is more economical

CHEVROLET

A GENERAL MOTORS VALUE

Its valve-in-head design cuts gasoline consumption still lower because there is less loss of heat through the walls of the combustion chamber in valve-in-head engines, and the advanced construction of the Chevrolet engine gives maximum heat (or power) saving.

Most important of all, Chevrolet's more efficient cooling system, pressure stream oiling and the greater accessibility of all working parts result in more dependable operation, over a longer period of time, with the lowest maintenance costs. Thus, Chevrolet's valve-in-head engine—only one of its kind in Chevrolet's price range—gives economy without equal.
