

# CONSERVATION PROGRAM

By Jno. C. Anderson, County Agent

Many of our growers seem to be under the impression that we will have no agricultural program in this section, this year (1937), since the states of Georgia and South Carolina failed to pass the Tobacco Compact Laws. We will have a Soil Conservation Program for 1937 however, and all cotton and tobacco growers will have an opportunity to participate in the benefits of this program. The program will be very similar to that of last year (1936) except that the Secretary of Agriculture will rent only 25 per cent of the base tobacco acreage instead of 30 per cent as he did last year.

In addition to the Cotton and Tobacco bases already set up, there will be a new base established for the Soil Conserving crops in 1937. In other words, every grower who files a work sheet this year and makes application for benefit payments, must be given a Soil Conserving Base for his farm. It will be necessary for him to plant this base in soil conserving crops before he can obtain his full benefit payments.

Payments will be divided into two classes just as they were last year. These payments will be known as No. 1 DIVERSION PAYMENTS and No. 2 SOIL BUILDING PRACTICE PAYMENTS.

DIVERSION PAYMENTS will be made to growers who divert a portion of their cotton and tobacco land to soil conserving crops. The payment will be 5 cents per acre for both cotton and tobacco. BUILDING PRACTICE PAYMENTS will be made for the seed of Legumes and Perennials such as Alfalfa, Red Clover, White Clover, Austrian Peas, Blue Grass, Red Top, Grass, Carpet Grass and pasture or Perennial Grasses. Class No. 2 or Building Practice Payments will be paid for turning under manure crops, cover crops, leaving these crops on the land for improvement; the use of Limestone, Superphosphate and Potash on Perennials and Clovers, the planting of trees, etc.

Every grower who is eligible to the Diversion or Class No. 1 will also be eligible to at least \$10.00 in Soil Building Practice Payments. Growers will be permitted to earn at \$20.00 in Class 2 or Soil Building Practice Payments.

All growers will be given a conserving base this year, which will be necessary for most of them to plant a large acreage to conserving crops such as Clover, Austrian Winter Peas, Soy Beans, Lespedeza, in order to obtain the full benefit available for them. Hence, I suggest that the growers who possibly do so, sow at least a portion of their farm to soybeans this spring, and that they obtain a supply of Soy Beans for later seeding. Not only will they earn payments by this procedure but they will also build up the fertility of their farms. Lespedeza seed can be sown on top of small grain crops, oats, wheat, rye, etc., for improvement, pasture, and hay. Growers who plant or sow Lespedeza, Soy Beans, etc., can use this acreage in payment for Class No. 1 or Soil Building Practice Payment, but cannot earn No. 2 payment unless the

will be permitted to save the seed from these crops, however, if the remainder of the crop is left on the land or turned under for soil improvement.)

There will be some adjustment in the base acreage of cotton and tobacco this year, since some of the growers have been planting a very high percentage of their land to these crops while others had greatly reduced their acreage to such crops. We do not think that anyone will be injured by this adjustment however, and would suggest that a majority of the growers hold down their planting of cotton and tobacco. This will give them an opportunity to improve their land and obtain benefit payments from the government; and insure them of better prices for their cash crops.

According to all reports, the acreage to both cotton and tobacco will be considerably increased by new growers this year, and if we have a normal season, this will mean increased production and low prices. Hence, I believe that it would be wise for all growers to keep down their acreage to cotton and tobacco, and cooperate in the Soil Conservation Program offered them this year. If we could get 100 per cent cooperation among the growers of Wake county, it would mean that they would be paid more than \$400,000.00 for this cooperation next year. This amount of money would go a long way in paying taxes, fertilizer bills, etc., on the farms of Wake county.

Both landlords and tenants will according to their interest in the participate in the benefit payments crops, and I am sure that both of them will find it profitable to cooperate to the fullest extent in the program.

Although we have not received the county allotment figures for Wake county, for the year 1937; we hope that these figures will be available at an early date, and that this office will be in position to advise the growers the acreage they can plant to secure the maximum benefit payments for 1937 before they begin planting their crops this year.

## DANCE FRIDAY

**NIGHT, MARCH 26th.**  
A Spring Dance will feature the Easter season at Wakelon Gymnasium on Friday evening, March 26. Promoted by a group of local young people and sponsored by many attractive young girls from eastern Carolina towns, the dance will be an event worthy of note. The Easter colors will be emphasized in decorations, Jimmy Poyner and his Collegians will furnish the music, acceptable chaperones will provide the proper social setting. The hours are from 9:30 until 1:30.

**ZEBULON HATCHERY** Baby Chicks each Wednesday. U. S. approved, pullorum tested. Barred Rocks, Rhode Island Reds, White and Brown Leghorns.

## ZEBULON HATCHERY

**WANTED A MAN** to cultivate 10 acres of land. Four in tobacco and balance in cotton and corn. Land near Zebulon. Apply at Record Office
