## and Home Made Ice Cream Is Very Appropriate

After the egg rolling contest or the egg hunt there is nothing quite so delightful as a big freezer brimming full of home made ice cream. Good old fashioned home made ice cream can be served at any hour without upsetting the dietetic schedule of growing children. Here is a tested recipe that has proven successful at many parties. Plan a party and make home made ice cream.

**CHOCOLATE ICE CREAM**  
 ½ pint cream, 1½ pints milk  
 ½ pound sugar, 3 eggs  
 2 oz. baker's chocolate (grated)  
 ½ tablespoonful vanilla  
 Scald milk in double boiler. Beat the eggs and sugar together and add to scalded milk. Cook until thickened. Add melted chocolate and beat to blend the mixture. Chill, add flavoring and cream and freeze.

## Homemakers' Exchange

of Helpful Household Hints and Recipes

Conducted By ELEANOR HOWE

Here is how one mother solved the problem of improving her young daughter's speech: She gave to the daughter an allowance of \$1.00 a month and whenever "young daughter" made a grammatical error, which was discovered by some member of the household, she was fined one penny. At the end of the month, the fines were subtracted from her allowance.

Here is a miracle you can work with left-over canned or stewed fruit—making it into a delicious dessert. And here is the way to do it: Pour 3 cups left-over, canned or stewed fruit (undrained—one kind or an assortment) in a shallow baking dish. Then sift ¾ cup flour, ¾ cup sugar, 1 teaspoon baking powder and ½ teaspoon salt together in a bowl. Add 1 unbeaten egg and mix well. Then spread this dough mixture over fruit. Bake in a moderately hot oven (375°) approximately 30 minutes; or until brown. Serve warm with cream. In making this dessert, be sure your left-over fruit has not gone "flat." The best way is to keep it in a modern air-conditioned ice refrigerator.

For a novel kitchen shower, try this unusual suggestion. Have the guests arrive in a body, each wearing a cooking utensil in some unusual manner; and to each utensil have attached a recipe suited to its use. One person might wear a cake pan gaily decorated to resemble an Easter bonnet, another a necklace of kitchen gadgets, and so forth.

If you grease a casserole and its lid before putting any food in it for baking, the casserole can easily be washed in hot, soapy water later without prolonged soaking.

Delicious home-made ice cream is very easily and quickly made in the modern ice cream freezers. And here are two helps for quick freezing: First, use 3 parts ice and 1 part salt—the best proportion for quick freezing. Second, do not use too much sugar in the recipe as it slows down the freezing.

To prevent cup cakes from sticking to the bottom of the baking tins, cut a number of wax paper rounds just big enough to fit the bottom of the individual cup cake pans. Put one of these in each cup before pouring in batter and when baked, cakes will come out without difficulty.

To melt a small quantity of butter, place it in the bowl of a soup ladle and hold over top burner flame. The handle is long enough to keep your hand well away from the flame.

A SAVORY SALMON LOAF in time for Lent! Drain liquid from one No. 2 can of salmon, remove bones and skin, and flake. Add 1 cup stale bread crumbs, ½ cup of chili sauce, 2 eggs, 2 tablespoons onion (cut fine) and ½ teaspoon salt. Mix well. Place in well greased loaf pan and bake in moderate oven (350°) for approximately 45 minutes. Unmold and garnish with lemon rings, pimiento strips and parsley. This salmon loaf can be stored, until ready to bake, in a modern air-conditioned ice refrigerator with no fear that the fish odor will be transmitted to other foods. The air-conditioning chamber of the new ice refrigerator provides circulating cold air which is constantly washed free of food odors. Savory Salmon Loaf is delicious served with a casserole of potatoes au gratin, or whipped potatoes on the half shell.

## RAIN OR SHINE, FORD BRAKES HOLD

Rain or shine, the new braking system of the 1937 Ford V-8 holds the car permanently on a 45% grade. This photograph, taken during some of the recent unusual weather, shows a dealer explaining one of the important features of the brake assembly, the cable and conduit control which, as engineers point out, affords "the safety of steel from pedal to wheel." Brake demonstration ramps similar to the above are used by Ford dealers to graphically show the effectiveness and dependability of the new braking system as well as the various mechanical features of these self-energizing brakes.

### THE WEEK IN BUSINESS

With testimony still being taken on the charge that the Great Atlantic & Pacific Tea Co. had violated the Robinson-Pattman Act by accepting price discriminations, the Federal Trade Commission brought similar charges against eleven more grocery chains, including the Kroger, American First National, Safeway, National Tea and other big systems. . . . Bankers and brokers from all parts of this country and Canada gathered to celebrate the dedication of Toronto's new \$750,000 Stock Exchange, third largest on the North American Continent. . . . Candy production in 1936 broke all records. According to the Corn Industries Research Foundation, America's sweet tooth consumed 1,829,700,000 pounds, 150 million more than in 1935. . . . For the first time since it began to make public its annual statement, the New York Stock Exchange reported a profit from operations. . . . It made \$172,768 in 1936 against a loss of \$209,325 the year previous. . . . Fear of a boom brought warnings from Cabinet members. "I now appeal," voiced Secretary of Commerce Roper, "to business groups to assume their proper responsibilities for safeguarding and protecting our future economic progress."

### WOMEN "DOCTORS" GATHER

Savannah, Ga.—Nine hundred members of the American Association of University Women, most of whom can write "Ph.D." after their names, heard Dean Virginia Gildersleeve, of New York's Barnard College, lambaste male educators as "softies" whose decisions "are more often swayed than women." She frowned on co-educational institutions because of their "lordly male complex."

### BRITAIN LURES SOLDIERS

London, Eng.—To spur recruiting with the army 21,000 below authorized strength, War Minister Alfred Duff Cooper announced that hereafter enlisted men would be freed of "Kitchen police" work, all menial work being done by domestics hired for the purpose. He also announced, since the Navy gives its men four meals a day, the Army would follow suit with a mid-afternoon "snack".

### "ANGEL" BACK IN JAIL

New York City—Launched with a brilliant staff of editors, the "Financial Observer" made its appearance in Wall Street with the alleged backing of John Bruce Heath to the extent of \$250,000. Renting 7 floors in the financial district, Heath published four issues before an inquisitive Attorney General's office discovered that he was really John Neville, convicted swindler and operator of a "Ponzi" get-rich-quick scheme about which the Boston police were eager to question him. One of the new paper's editors took over whatever assets remained in the hope of reorganization.
