VOTING A RIGHT AND A DUTY

The Zebulon primary was held yesterday. As a rule few vote in a local election of this sort unless some candidate wants office mightily badly or an important question is involved.

Where one party dominates, the only chance the citizens have to make a choice between two or more men is in the primary. If there is a choice between candidates it must be made in the first election or not at all. At least interest enough in local affairs should be manifested to cause every citizen to vote, especially since no one would have to go more than a half mile to do so, and usually most of us are down town sometime during the day any way.

So far as we know them every candidate who ran is a good man. However, some of them naturally would be considered best. Each citi-

zen should make a choice. Then if things do not run right in the town affairs he can say he did his best. If he does not vote and they go badly then it would be his responsibility.

Vote everytime you have the opportunity in local, state and national affairs. It is both right and a duty.

TAKING IN TOO MUCH TERRITORY

Staley Denton was talking the other day about playing golf. He said he liked the game very much, but was the poorest player in the world. I told him he was probably mistaken, that I had never tried to play and should I, might be the sorriest player in the world. Staley, like most of us, simply took in too much territory in minimizing his golf talent. One's personal standard is the best he can do, and that can't be excelled as an ideal.

CUTLAR MOORE CUTS MORE CAKE

And at last one knows who got the slice of political cake that had the ring in it, a \$6,000 ring at that. Among all the disappointed Hoey supporters stands Cutlar Moore, former insurance salesman as the fortunate fellow who gets the chief job in the ABC setup. The governor first proclaims his conviction that the ABC store is a bad, bad thing for the people, and that they ought to vote it down, then goes ahead and appoints his Control Board. We understand that the governor appointed the Board with the object in view of making the Commission a success. What success is not stated, but judging from legislative discussion and political gossip, we infer success means that just as much liquor possible be sold and just as much revenue as possible be obtained. For every dollar in revenue made by the state and counties from the liquor business they will pay ten times as much indirectly for the glorious privilege.

Uncle Jim Say

Grasses and legumes check costly soil losses and help provide plenty of cheap feed for livestock.

SEEN AND HEARD

It used to be stated that the essentials of life are food, clothing and shelter. Americans add a fourth—excitement.

Now that so many autos have trailers, first thing you know hitch-hikers will be expecting room and board as well as rides.

We are forever hearing about raising the standard of living. While that may be a worthy goal, we wish emphasis might also be laid upon living within your means.

Those scientists at Chapel Hill said that the main difference between the sexes is that the female has more carbon. Meaning, we take it, that ladies are sweeter.

Medlin's Cafe, newly opened beanery of this town, is featuring better cooked dogs now that it has installed the new Pyrofax gas. The cooking gas which is delivered like gas used for welding. Mr. Medlin also says he has the best cook outside a home in Zebulon. His cook has had twenty-six years experience and you can't name a dish he can't prepare. This summer when the wife is too tired to prepare the evening meal, give her a break and go to Wess's new cafe for delicious food and courteous service. See his ad elsewhere in this paper.
