**NORTH CAROLINA, WAKE COUNTY
IN THE SUPERIOR COURT
NOTICE OF SUMMONS**

WAKE COUNTY vs.

Carrie Lee and Husband if any

The defendants above named and S. O. Noell will take notice that an action as above entitled has been commenced in the Superior Court of Wake County, North Carolina, for the purpose of foreclosing certain Sheriff's Certificates of Sale for taxes for the year 1932 owned and held by Wake County and for other taxes, costs and interest and penalties due Wake County, which are liens upon that certain tract, lot or parcel of land listed for the year 1932 and other years shown in the complaint in said action in the name of Carrie Lee in Wake Forest Township, Wake County, North Carolina, described as follows:

9 1-2 acres Powell Land.

And the relief demanded consists wholly or partly in excluding all persons from any actual interest or lien in or to said lands.

And the parties will further take notice that they are required to appear before the Clerk of the Superior Court of Wake County, North Carolina, at his office in the City of Raleigh, on the 1st day of July, 1937, and answer or demur to the complaint filed in said action or the Plaintiff will apply to the Court for the relief demanded in the complaint.

This the 1st day of June, 1937.

Sara Allen, Assistant

Clerk of the Superior Court of

Wake County, North Carolina

June 4, 11, 18, 25.

This 18th day of May, 1937.

L. S. BRASSFIELD,

Commissioner.

May 21-28-June 4-11

MILLION FARMS ELECTRIFIED

There are now in the United States one million farms that use electricity for lights, machinery, and other mechanical needs.

More than half these farms are in the states of California, New York, Ohio, Pennsylvania, Michigan, Wisconsin, Indiana, Washington, Illinois and Iowa. California alone has more than 100,000 of the million farms using electricity.

During the last few years North Carolina has made tremendous gains in the number of users of electricity. It has been proven that the current saves both time and money for the farmer, who has more uses for it than those in almost any other vocation.

Vaccination

Beginning June 14, 1937 and continuing for four weeks, there will be conducted by the Wake County Health Department, in Wake County and the City of Raleigh, the annual vaccination campaign against typhoid fever and diphtheria.

Since 1919, this department has conducted yearly, with the exception of 1935 when Poliomyelitis was present, a campaign against these diseases, offering free vaccination to the public. The response has been very gratifying and has been one of the means of reducing the number of cases and the number of deaths from these diseases.

Last year there were only twelve cases of typhoid fever reported—eight white and four colored. Two deaths occurred among these twelve cases—one white and one colored. There were forty-eight cases of diphtheria reported. Thirty-nine of these occurred during the month of November, when we were threatened with a small epidemic which suddenly subsided. There were three deaths reported from diphtheria.

Vaccination against typhoid fever is only one of the several means of preventing this disease. The other known, approved measures are a safe water supply, some approved type of sewerage disposal, and screens to keep out flies and other insects. The only known

preventative measure against diphtheria is diphtheria vaccination. This should be given to infants as soon as they reach the age of six months—certainly no child should be permitted to go to the age of twelve months without receiving one dose of toxoid. If parents were to establish this principle and practice it, and have the child tested for immunity three to six months after the first dose of toxoid was administered and, if found susceptible, repeat the inoculation, diphtheria would be eradicated just as typhoid fever has been by vaccination and the three above mentioned sanitary measures.

Question:
How much lower would your Electric Rate be except for TAXES

1936 TAX BILL

For Carolina Power & Light Co.

Total Tax Bill for 1936 . . . \$1,500,000

Approximate No. Customers Served in 1936 (all classes) } . . . 80,000

Therefore, Tax Per Month Per Customer (all classes) } **\$1⁵⁰**

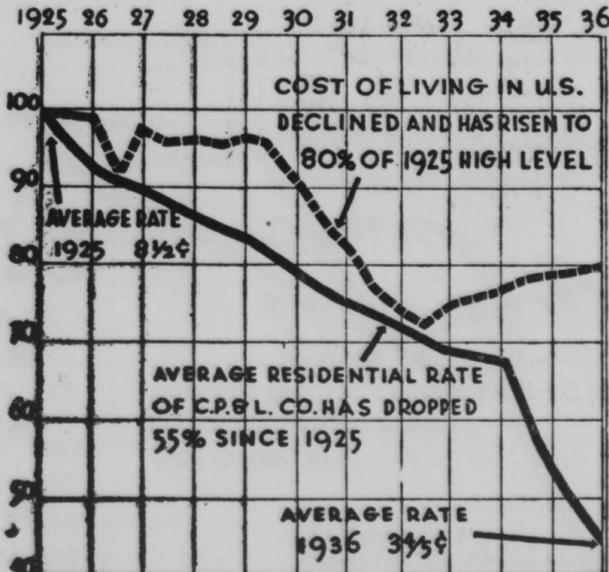

1936 ELECTRIC SERVICE BILL

FOR Average Domestic Customer

85 KWH Per Month
at Average Rate of 3.8¢

\$3²³

Relative prices of Cost of Living in U. S. and average cost of Residence Electricity to customers of C. P. & L. Co. (Based on average prices in 1925 as 100 per cent.)

One million five hundred thousand dollars (\$1,500,000.00) was the tax bill for our company in 1936 — or more than \$4,000.00 per day including Sundays and holidays. We served approximately 80,000 customers (all classes including Domestic, Commercial, and Industrial) during the year, therefore we paid in taxes about \$18.00 per year, or \$1⁵⁰ per month per customer.

Our average DOMESTIC CUSTOMER paid us \$3.23 per month for 85 KWH of electricity—an average rate of 3.8 cents per KWH. Cheap? Indeed. But cheaper still it would have been—except for taxes.

CAROLINA POWER & LIGHT COMPANY
