DRY INDEPENDENCE DAY

Mexico celebrated on Wednesday and Thursday of this week the anniversary of her declaration of independence from Spain. The remarkable feature of the celebration was all places where intoxicating drinks are sold, all dance halls and cabarets were ordered by law to be closed during the festivities. This was a part of the campaign now on to limit the use of liquor in Mexico.

WHEELER DAM DEDICATED

President Roosevelt took part on last Friday in the dedication of the Joe Wheeler Dam across the Tennessee River 15 1-2 miles from Muscle Shoals in Ala. This dam is of concrete, is a mile and a quarter long and cost \$35,000,000. Its purpose is: First, to form a great reservoir to hold back flood waters and help prevent damage and loss; to extend navigation up the Tennessee River by providing about 74 miles for boats to travel; third, to provide additional hydro-electric power to the adjacent area, being at present capable of 90,000 horsepower, with possibilities of expansion to four times that amount.

Y. D. CONVENTION HELD

Young Democrats of this state held the sixth convention last week at Winston-Salem, electing Arch T. Allen of Raleigh president of the organization. They heard Senator J. W. Bailey on Saturday criticize present tendencies of government. The senator was followed by Audrey Williams, national PWA Administrator, who sought to refute arguments put forth by Mr. Bailey. Among the notables present were Senator Reynolds, Congressman Doughton, Cooley, and Hancock, State Treasurer Johnson and State Treasurer Eure.

AIR EXPRESS

With 44 planes making daily trips, there is more air express between New York and Chicago than any other two cities in the world. Last year shipments weighing 3,732,000 pounds were carried in this way. As a commercial industry the air express is only about ten years old. However, a caliph in Egypt is said to have had tiny silk bags of cherries carried to him over a 400-mile route a thousand years ago, homing pigeons being the carriers.

WAR ON MONKEYS

Farmers in this country wage war on crows; on squirrels, deer, or other wild animals as from time to time damage or destroy crops. Especially is the corn crop a cause of the war. But down in Costa Rica exiled German Jews are fighting monkeys that have discovered the fields of Indian corn and at frequent intervals all day long swoop down upon it from the timberlands, rip off the tender ears and flee back to their homes in the trees. The monkeys are of the white-faced capuchin variety and their robbing has so discouraged the farmers that some are deciding to plant no more
