## THE RED CROSS

The red cross suggests death and disaster. When we see this symbol we think of the countless human beings who thru centuries have suffered thru the destructive forces of nature and man.

But that very suggestion which reminds us that lives destroyed can never be revived, also reminds us that this agency of mercy, the Red Cross, may save lives from suffering and even death that otherwise would have no escape.

In the great flood disaster only last year in our own land America was called upon to place in the hands of the Red Cross clothes, food and medicines that saved much suffering and many lives. Today old China is suffering in the throes of death through fire, flood, famine, shell and sword. Where thousands have died, millions may join them. Living in peace, the aggressor fell upon them from land, sea and sky.

America now has another opportunity to show forth her Christ-like spirit in contributing to the Red Cross campaign running through November. Not only should everyone join the Red Cross, but all should make additional contributions to send relief to millions of Chinese women and children who will perish from cold and hunger before another year dawns, without our help.

Let every one in Zebulon and the community around join the Red Cross. Every dollar we put in this agency of mercy will be wisely and economically used to relieve suffering. In the name of Him who shed His red blood on a cross

let us accept the appeal of this symbol and make a contribution worthy of the name we bear as those who follow in His footsteps.

## THE LOWEST SELFISHNESS

We heard a great preacher once speak of the "higher selfishness". It was what the Scriptures reveal in the coming of the Christ to redeem a lost world, a world that had voluntarily chosen sin. We heard only yesterday another say that American Christians are pagan, that their religion was selfish and materialistic.

We read lately a in popular magazine in its leading editorial after picturing the terrible things the Japs are are doing to Chinese women and children: "after viewing these brutalities, notwithstanding my seventy years, I would gladly shoulder a gun with millions of others if it would stop such outrageous savagery."

Then farther on he says: "If we could be convinced that Japan's ambition will never turn in our direction, and that she will never attack our cities as she has the Chinese, we could ignore the present hostilities."

"We could ignore." We have too many of his sort in places of responsibility and authority in our country. This creed: Take care of self, look out for No. 1, I am not my brother's keeper, let the devil take the hindmost, and all such is most likely the trouble with the world today. The lowest selfishness is ruling and ruining the race.

## WORSE THAN A FLY IN OINTMENT

Santa Claus coupled with Christmas has robbed it of much of its spiritual beauty and appeal. Easter from its fighting eggs among small boys to my lady's Easter hat has thrown a shadow over the most precious symbol hope to the world. Linking Armistice Day with the march of American Legion and martial music is fast robbing an occasion intended to promote peace on earth.

We heartily agree with Mrs. McCrary and the ministers of Raleigh in protesting against refusing to take part in the proposed Armistice Day celebration in Raleigh. We believe they are right. Let's divorce every peace move from anything that reveals, emphasizes or suggests war. The tramp of marching men in uniform stirs the martial spirit even in children and drowns the whisperings of peace.

## 1938 Farm Program Ready For Farmers

North Carolina farmers who are planning to take part in the Agricultural Conservation program next year are giving careful study to details of the 1938 farm program.

The new program will be different in many respects from programs of past years, according to E. Y. Floyd of State College, who is AAA executive officer in North Carolina.

It has already received the final stamp of approval from Henry A. Wallace, Secretary of Agriculture. Since it was first announced tentatively September 20, the 1938 program has undergone but few alterations.

One of the principal changes has been the decrease in the cotton goal for the entire nation. This action was provoked by the latest U. S. crop forecast of approximately 171,500,000 bales. Previously, the estimate for 1937 had been placed at 16,000,000 bales.

When the new program was first announced in September, the latest cotton forecast had not been completed. When AAA officials learned the lint crop was 1,500,000 bales larger than they anticipated, they went into a huddle and made adjustments. The revised goal is 27,000,000 to 29,000,000 acres, about 2,000,000 acres below the first announced figure.

Potato goals will also be includ-

ed in the 1938 program. More than 82 per cent of the growers in the commercial potato producing sections favored acreage stabilization in a referendum which was concluded during the first part of October.

Payments will be based on the number of acres planted, up to the limit of a farm's goal. Maximum payment can be earned by planting the full goal, with deductions being made for yields above or below the goal.

## Teeth In Tumor

In the crippled children's clinic at Lenoir a small boy recently underwent an operation for the removal of a large tumor on one side of his jaw. When the tumor was opened it was found to contain three sets of teeth. Only a slight scar was left to show where the disfiguring growth had been.

Another peculiar case treated lately was that of a boy who had webbed feet, the toes, except the great toe, being joined together by skin. His hands were also partially webbed. A simple operation changed the child to a normal person.

## A Good Guess

The Smith-Douglas Fertilizer Co. had a big pumpkin on exhibit at the State Fair and offered a number of prizes for those guess-

ing nearest the number of seed it contained. The actual number was 589. Mrs. C. M. Rhodes, of Zebulon guessed 589 and won first prize. Mr. P. B. Copeland, of Apex, guessed 588 and Mrs. Mary B. Dowd, of Garner, guessed 587. Some close guessing. Mrs. Rhodes will get two tons of Smith-Douglas fine grade fertilizers delivered to her farm as the award for being the best guesser.

## DUFFEL BAG

We read that scientists propose to make it possible for one to grow beans in the bathtub. Which will not be entirely an innovation as many who know nothing of science have made corn in the cellar.

News comes that at Wake Forest a student was choked into insensibility and robbed of fifty dollars. When we were there the fact of the robbery would almost have been overshadowed by the news that a student had fifty dollars.

## NOTICE OF FORECLOSURE SALE
