SEE CAPTAINS COURAGEOUS

From appearances it seemed that the whole high school department of the Zebulon-Wakefield school for colored pupils attended the movies on Tuesday p. m. to see Captains Courageous. Marching in orderly procession by twos, the pupils, chaperoned by teachers, made an impressive showing, both as to numbers and behavior.

ELMER

Who is Elmer? Where does he live? What is his business? These and a great many other questions are being asked and will be asked during the next few weeks. But right off the bat, you can't guess who he is. He lives on a farm not far from Zebulon. He has a good home and a good farm. He also has a family of fine boys and girls. He comes to Zebulon frequently. He does his buying and selling here. He also transacts his bank business at the local bank. He is a church member. He votes in all elections.

Now can you guess who Elmer is? Well, I am sure you do not know him. You probably know some one very much like Elmer, but you do not know Elmer. There is something about him that is just different. If you will watch the columns of the Record for the next year you will see a great deal about Elmer and his "comings and goings". Every issue of the Record will tell you something interesting about this mysterious man. And if you will read all that is said about him, you will learn something that will be valuable to you. You may already know it, but he will say things, do things, that will remind you of opportunities you let slip.

Just wait and watch for Elmer. He will be "in print" every week for months and months. Watch him. Follow him. Do as he does. And you will find it profitable in many ways.

Who Pays The 1 1/2 Billions?

NEWS ITEM: Motor taxes in 1937 are estimated at new record high of \$1,500,000,000, paid chiefly by \$30-a-week workers owning cars purchased second-hand and having average value of only \$200. Taxpayers will be forced to work nearly two weeks to earn their \$50 tax bill, \$30 of which represents taxes on gasoline alone.

Our Balance-Wheel

How do our Courts provide a safeguard for the people and the government?

In his book on Constitutional Government, Woodrow Wilson says: "Our courts are the balance-wheel of our whole constitutional system, and ours is the only constitutional system so balanced and controlled. Other constitutional systems lack complete poise and certainty of operation because they lack the support and interpretation of authoritative, indisputable courts of law."

"It is clear beyond all need of exposition that for the definite maintenance of constitutional understandings it is indispensable, alike for the preservation of the individual, and for the preservation of the integrity of the powers of the Government, that there should be some non-political forum in which those understandings can be impartially debated and determined. That forum our courts supply."

"The constitutional powers of the courts," concludes Wilson, "constitute the ultimate safeguard alike of individual privilege and governmental prerogative. It is in this sense that our judiciary is the balance-wheel of our entire system."
