

## More Cold Ahead

From many sources come reports of cold already felt this winter and prophecies of still colder weather ahead. Not only all parts of this country have felt the sting of unusually low temperatures; but as far away as Greece the deepest snows of many years have fallen, reaching a depth of 35 inches in some places.

### SCRAPPLE SELLS WELL

It is good to be able to state that Zebulon's newest enterprise, the Carolina Scrapple Company is finding a ready market for their product in this and adjacent sections. To those who may not be certain of what scrapple is, it might be defined as a family relation to liver pudding, and is a fine addition to breakfast, dinner, or supper. Just slip it in the oven and brown it for a few minutes, then serve hot.

### ABC BOARD FEARS REPEAL OF COUNTY ACTS

W. T. Bost states in the Greensboro News that members of the state ABC board are dubious over the outlook for their counties, believing there is a decided trend toward repeal of all county acts and that the present control system may be destroyed from within. Governor Hoey is said to believe that the state is predisposed toward prohibition. The only thing that seems certain is that the situation is uncertain.

### MORE MENINGITIS

School at Boonville has been closed until after Christmas because of the death of a pupil from meningitis. Chances of an epidemic are said to be small, but the

fact that there are scattered cases reported from different sections of the state had its weight, perhaps, in the decision. The mother of the dead child is critically ill with the disease.

### A CHRISTMAS WARNING

Believing that a warning about the hazards of fires at this season may save life and property, the National Board of Fire Underwriters has published a new eight-page leaflet entitled, "Keep Your Fires Friendly at Christmas Time". The leaflet's cover displays a blazing Christmas tree. Inside a sketch pictures Santa Claus with beard and clothing afire. Additional sketches illustrate the hazards of nitro cellulose film in home movie projectors, inflammable decoration and flimsy costumes.

Christmas tree is described, and each special holiday hazard is considered in turn. Included are fire dangers in homes, stores and public halls.

Reasonable quantities of the new leaflets will be supplied free by the National Board upon application to its New York office at 85 John Street.

Fire control during the holidays, or any other season, is a simple matter—if you have the proper knowledge at your command. The National Board is performing a real public service in publishing these leaflets, which will go a long way toward assuring a really Merry Christmas—by keeping fire where it should be, in the furnace and under the turkey.
