Report of Garden Club

The Clara Paschal Garden Club, organization of local colored women, has already made a fine beginning on their project, which is the beautification of their school grounds. Shrubbery and ivy have been planted. Since the first meeting on Jan. 24, the club has met twice. Once at the home of the president, Mrs. Margie Ellis, where a program committee was appointed—Mrs. Iver Carpenter, Mrs. Addie Hall, Mrs. Etta High. At this meeting the boys' vocational instructor, J. T. Locke, was present and promised his hearty support for the club. Miss E. G. Smith, home economics teacher, also joined the club and promised willingly to help with the work.

Delightful refreshments were served. The next meeting was held at the school building. After a devotional service Mrs. Iver Carpenter recited a poem, "Trees." J. T. Locke gave a blackboard demon-

stration on planting shrubs. Refreshments were served from the Home Economics Dept.

MONEY IN CHICKS

Under the heading, "Money in Chicks," the Carolina Co-operator, farm journal published at Raleigh, gives these interesting comparisons:

One hen lays 150 eggs. One egg sells for 1 1-2c. 150 eggs sell for \$2.25. 400 hens on one acre yield \$900.

One acre tobacco yields 1,000

ARE YOU ONLY A THREE-QUARTER WIFE?

MEN, because they are men, can never understand a three-quarter wife—a wife who is all love and kindness three weeks in a month and a hell cat the rest of the time.

No matter how your back aches—how your nerves scream—don't take it out on your husband.

For three generations one woman has told another how to go "smiling through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature tone up the system, thus lessening the discomforts from the functional disorders which women must endure in the three ordeals of life: 1. Turning from girlhood to womanhood. 2. Preparing for motherhood. 3. Approaching "middle age."

Don't be a three-quarter wife, take LYDIA E. PINKHAM'S VEGETABLE COMPOUND and Go "Smiling Through."

lbs. One pound sells for 25c. 1,000 lbs. sells for \$250.

One acre cotton yields 500 lbs. One pound sells for 10c. 500 lbs. sell for \$50.

"If you must plant a money crop," summarizes the Carolina Co-operator, "why not the hen crop, which is edible. Eggs and chickens are good to taste and very nourishing, and an excellent money crop to boot."

When luck comes your way and you are flying high never forget the time that you spent on the ground.

It Is Dangerous

It is dangerous to sell a SUBSTITUTE for 666 just to make three or four cents more. Customers are your best assets; lose them and you lose your business. 666 is worth three or four times as much as a SUBSTITUTE.
