Ferrell's School

Ferrells School in Johnston county closed on Wednesday of last week after one of the best year's work known in the community. The eight teachers enjoyed the co-operation of the community in several new projects, which assured a large measure of success. The Parent-Teacher Association was active during the term and interest will be maintained during vacation. A lunch room proved of special help, since it meant nourishing meals at noon for all who needed them. This room and its equipment was a noteworthy accomplishment. In connection with this project a garden will be cultivated on the school grounds, that foods may be canned for next term's needs.

J. Howard Bunn was principal of the school and saw eighteen of his pupils graduate from the seventh grade this year.

Middlesex Holds Orphanage Rally

First Annual Rally Held Monday At Free Will Baptist Home

Middlesex more than tripled its population Monday when it was host to between 1,500 and 2,000 people who attended the first annual rally day program at the Free Will Baptist Orphanage.

The event celebrated the fact that in the last three years some \$10,000 worth of debts have been paid off; and \$8,000 in improvements in addition have been spent and paid on the orphanage.

M. E. Tyson, energetic superintendent of the orphanage, said that around \$60,000 had been spent in the upkeep of the orphanage during the past three years and that it had all been paid. Some 93 children are being taken care of at the orphanage at the present. All orphanage funds come from donations.

President Leslie Campbell of Campbell College was principal speaker at the rally day program. Children of the orphanage gave a number of musical selections.

A giant picnic was held at noon on the lawn of the orphanage after the ceremonies.

RESOLUTIONS OF RESPECT FOR O. E. JEFFREYS

The Corinth-Holder School Committee in regular session May 5, 1938;

Whereas the death of the late E. O. Jeffreys removed from faithful service the chairman of the Corinth-Holder School Committee, and,

Whereas, his friendly, unselfish hand is stilled and his co-operative spirit is missed, and,

Whereas the teachers, students, and friends of Corinth Holder appreciate his long period of service, and,

Whereas, education has lost a true friend.

Therefore, be it resolved: First, that the first official act of the reorganized committee be an expression of sorrow at the passing of our beloved chairman and sympathy to the members of his family.

Second, that a copy of these resolutions be spread on the minutes of our meeting, a copy sent to the family, and a copy be sent to the press of this school district.

G. H. JORDAN

Candidate for Sheriff, Wake County

GEORGE H. JORDAN ANNOUNCES FOR SHERIFF

George H. Jordan, 48 years of age, born and reared in Wake County, has announced his candidacy for sheriff of Wake County to oppose Sheriff Turner who has held office for twelve years.

Mr. Jordan is a veteran railroad employee, having been connected with the Seaboard, Southern and N-S Railroads for more than twenty years. For a number of years he was a successful merchant and for the past several years has engaged in farming and real estate.

He has served as a justice of the peace and as Mayor of Cary. A strong Democrat, he is a grandson of the late H. B. Jordan, who was one of the strongest Democrats of the county.

Mr. Jordan is or has been connected with the Masonic Order, Odd Fellows, K of P, Juniors, and P. O. S. A. He is a member of the Railway Telegraphers Organization and has served on their General Committees.

His friends consider him well qualified for the office of sheriff of Wake County, and he states he will be glad to work with any group or organization toward effecting economy in expenditures and for a stricter enforcement of the laws.

Mr. Jordan states that in opposing Mr. Turner he makes no criticism of the office or the man, but believes the majority of the voters of Wake County favor a change, and are willing to make one.

POULTRYMAN CITES NEED OF FLOCKS

T. T. Brown, extension poultryman at State College, believes that every farm should have from 50 to several hundred pure bred hens.

"We are not advocating that farmers quit raising tobacco and cotton and go into the poultry business, but a good flock should occupy a definite place on every farm," he said.

North Carolina's poultry program could be improved greatly. At present, most of State's egg supply comes in two or three of the spring months. After that,

many wholesalers are forced to go out of the State to get sufficient eggs to meet their demands.

With improved farm flocks, the egg supply could be spread more evenly over the year. Such a condition would bring about the establishment of local packing plants for the handling of surplus products.

Poultry dressing and storage plants are badly needed in the State, but prospective business men hesitate to start such activities when they find the inadequate farm flock and egg supply except during the spring months, Brown said.

Among the excellent markets begging for quality eggs in North Carolina are commercial hatcheries. Hatchery expansion has been held too closely in check in many cases because of a lack of quality hatching egg supply.

WHAT'S IN A NAME?

Sometimes there may be nothing in a name; but every now and then there is money in naming something.

Look at the Purol-Pep ad in this week's paper and decide what you think would be a good title for the picture it displays. Mailing this as an entry in the May contest might bring you a prize. At any rate, there's no harm trying. And you can also get free an emblem for your car stating that you are pledged to try to drive safely.

No cost or obligation is attached to entering the contest. Think about it — but think mostly of Safe Driving.
