

open its gates wide to any other refugee. Of famous men, there is a place—many educated, have left Germany and this county, retained suitable occupation. The rank and file of Jews there to be nowhere to go. All the powers are occupied with unemployment problems. There is not enough work for their own people, and not enough money to go around. Thus, they pity the Jew, realize the injustice that has been meted out to him—and they regretfully say, no, when he asks permission to enter.

As Oswald Garrison Villard has written, "The man who could show the way out would deserve the greatest rewards bestowed ever upon anybody." That man has not appeared.

Business Week says that "the main thing to hold to is that a broad turn-around in direction is being achieved this summer, and that the last half of 1938 will be marked by a significant revival from last year's collapse."

Most business publications and commentators are in accord with that view. The boom in the stock market fooled almost everyone—and the fact that the relatively high levels reached have been held, is perhaps the best sign of all. The status of individual and corporate sentiment is definitely better than it was a short time back.

Substantial improvement has appeared in consumers' goods industries. Comparable betterment in heavy industries is hoped for the fall.

CREDIT ASSOCIATION

The record made by the production credit association since they began operations in 1934 has been little short of remarkable, according to G. D. Richardson, President of the Raleigh Production Credit Association.

Said Mr. Richardson, "The 550 production credit associations in the United States have more than doubled their membership since

1934. At the beginning of the present year they had a membership of 251,190. In 1937 they made loans totalling \$286,260,261.

"In the third Farm Credit Administration district, North Carolina, South Carolina, Georgia and Florida, the 94 associations since organization have made 217,692 loans for a total of \$76,882,945 and have charged off only a little over \$40,000. They have now reserves totalling over \$1,000,000."

Attending the recent Asheville conference from the Raleigh association besides Mr. Richardson were J. H. Akins, Vice-President, C. S. Chamblee director, E. F. Warner, Secretary-Treasurer and Sherman A. Yeargan, Assistant Secretary-Treasurer.

MORE TOBACCO THAN QUOTA

Georgia tobacco this year exceeds the quota for that state. The government will not allow transfer from one state to another as a whole, but individual farmers may agree between themselves to buy or sell "quota pounds", though the deal must be handled through a warehouse.

It is thought that the North Carolina crop will be smaller than the quota for the state. Some see the quota as a sort of anchor for the farmer, since when his yield falls short he can sell the quota and thus be assured of some return.

HIG ORDERS FOR N. C. MILLS

Orders for more than a million dollars worth of cloth have been given North Carolina mills by the WPA. The cloth will be used in sewing rooms by women otherwise unemployed, and the garments made of it will be given to the needy.

Some time ago it seemed that the problem might be solved by the action of England in opening Palestine to Jewish colonization, and setting it aside as a land where the Jews might create a nation of their own. Today that hope is largely gone. The Jews came to Palestine. They liked it. They proved to be excellent settlers and capable business men. But the Arabs, whose religion is strongly anti-Semitic, immediately began to fight the migration. Hundreds have been killed in guerilla warfare. Arabian sentiment against the Jews has steadily increased, and it is said that there is grave danger that the cause may develop into a holy war. England now has 12,000 troops in Palestine to defend the Jews—and still the rapine, slaughter and pillage continues. The result is that only 12,000 Jews a year are to be admitted to the country—a drop in a gigantic bucket. There are about 1,000,000 Jews remaining in Germany and Austria alone.

The 32-power conference took all this into account. Its attitude was extremely sympathetic toward this oppressed people. But talk was about all that resulted. No major country
