you like men: be strong."

And that is my New Year's wish for us all; that we may be strong. That even if we are not able to say with Edwin Markham, "I laugh and lift hands to the years ahead. Come on, I am ready for you", we may have strength to undertake what may await us, the joy of labor, and the satisfaction in 1939 of having tried to do a good piece of work.

There are probably few of us who do not condemn the elder brother in the parable of the prodigal son. But until he felt faintly sure of the younger brother's genuine repentance, he might have some of our sympathy. More than we have known of a prodigal the old home with- to be made as one of servants. Instead the idea seemed to be that the books should discharge the hired servants, do the work themselves, and hand over to the prodigal the amount thus saved. In return he would regale them with stories of the far countries; gay details, considerably expurgated, of riotous living; would make wisecracks about the swine and the husks; and would intimate it was homesickness and not emptiness that prompted his return.
