Dr. B. W. Spilman and Mrs. Spilman of Kinston visited in the Theo. Davis home Sunday. Dr. Spilman had on the night before addressed the ministerial fraternity at Wake Forest College.

Bob Kelly of Coats and Wake Forest College spent the week end in Zebulon with Ferd Davis.

Mike Eddins came from Norfolk, Va., last week end to visit his parents, Mr. and Mrs. C. B. Eddins.

Ralph House has been elected president of the Young Democrats at Duke University. Members of this club attended a banquet and student rally at Greensboro last Thursday night.

Mrs. C. E. Flowers has returned from a trip to Wilmington. While away she visited Orton and Airlee Gardens, especially beautiful at this season.

Dr. C. E. Flowers has for some weeks been taking a post-graduate course of lectures in Raleigh, being one of the committee on arrangements for the series.

Ted Pippin is starting a trucking business of his own and his first advertisement will be found in this issue of this paper. Read it and consult this young man when you need service along his line.

Robert Hughes Herring left for his work last week after a visit here with his parents, the Rev. R. H. Herring and Mrs. Herring.

Sherwood Chamblee is distressed over the loss of his watch, a fifteen jeweled Elgin, which formerly belonged to his grandfather, the late Black Horton. It is hoped that the timepiece may be found. It was lost last Friday between the J. M. Whitley home and Stell's Pressing Club.

Mrs. Avon Privette was taken on Thursday night of last week to Rex Hospital where she underwent an appendectomy. Her condition at this time is said to be fairly good, a cold having somewhat retarded recovery at first.

A good picture of Mrs. Norman Screws appears on the cover of the COORDINATOR, monthly publication of Carolina Power and Light Co. She is posing with one of the new electric ranges sold by the Zebulon Supply Co., and the picture was taken in the store.

Ferd Davis has been accepted for graduate work at Wake Forest College and expects to study there next term for his master's degree.

## GARDENERS

One of the beauty spots of Zebulon this spring has been the yellow flower border at the edge of the lawn at the H. C. Wade home. Against a background of green hedge bloomed tulips in tones of yellow, some of the tall types, others lower; around these were dwarf narcissus, ranunculus, cowslips and hyacinths, the nast named in shades of deep cream.

Mrs. C. E. Flowers has the most striking display of phlox subulata seen in town. This with candytuft, tulips, and other early blooming plants and shrubs have given pleasure to all beholders.

Mrs. Riggsby Massey's flower garden is newer than many in Zebulon, but already beautiful and shows what it will be later on. One of the largest in the community, there is space for beds and borders which are rapidly being filled.

The grounds of the J. F. Coltrane home are being extensively improved, though already among the most attractive in town.

At the side of the yard towards the rear a stone chimney with fireplace has been built, a pergola with vines having been planned for shade. Walks, arches, trellises and seats have been arranged appropriately and all lawn furniture is painted white. The pool, which was built last year, already looks as if it had naturally grown where it is.

Nothing in the community is lovelier now than the pink dogwood tree in the Barbee yard. Say what you will about white dogwood; the pink has a soft charm of its own that cannot be eclipsed.

Mrs. Lela Horton's garden has a fine display of narcissus and tulips following the hyacinths that lately bloomed there.

Mrs. Campen's bed of candytuft, phlox, tulips and other flowers is a glowing spot of beauty enjoyed by all who pass that way.

The long hedges of white spirea at the F. E. Bunn home are at their best now, as are smaller hedges and clumps at the J. C. Debnam home. There are many other plots in and near town equally attractive, but those mentioned are in the line of travel between the print shop and the western part of Zebulon.

### MRS. WADE HOSTESS

Mr. and Mrs. H. C. Wade entertained the Double Eight Bridge Club Friday evening.

Tulips, iris and spirea were used in the living rooms. Mrs. Irby Gill was high scorer for the ladies and Dr. G. S. Barbee received high score for the gentlemen. Mrs. G. S. Barbee received consolation prize.

Delegates were chosen to attend the state convention which is to be held in Greensboro in May. A membership committee was appointed to work during the summer months. Plans for a barbecue to be held on May 16th were made.

Program leaders for the evening were Mesdames Robert Dawson, Graham Conn and Miss Ruby Dawson, who had S. J. Austin of the Wakelon High School faculty to speak. His talk was most entertaining on "Conservation of Natural Resources" and Dorothy Mizelle gave "Trees" as a reading. Mesdames Chas. Rhodes, William Cheeves and N. M. Screws, hostesses, served a sweet course with coffee.

### MRS. TEMPLE ENTERTAINS FOR MISSES FOWLER

Honoring Misses Clarice Fowler and Christine Fowler, sisters who will be married in a double ceremony in June, Mrs. Wallace G. Temple entertained Friday evening.

Five tables were arranged for bridge in a setting of iris, tulips and spirea and little Martha Temple presented bridal tallies.

Miss Mary Lacy Palmer received table numbers for high score, Miss Christine Fowler received bath powder for second high score and Mrs. Helen Gregory was awarded a sewing kit for low score. Madiera pillow cases were presented to each honoree.

Bridal ice cream, individual cakes and mixed nuts were served with coffee.

Fowler, mother of the bride-elect, was also present.

A. and profits went into the treasury of the organization. Prizes were won by Miss Ada Lee Sitton, Mrs. A. V. Medlin, Frederick Corbett and Carolyn Massey, the grand prize going to James Debnam. Refreshments were served by those in charge.

### PERSPECTIVE

How different might our decisions be could we but peer into some magic glass and see 30, 40, 50 years ahead? Consider the case of a pair of opera glasses on display at the recent U. S. Patent Law Sesquicentennial in Washington. Made of aluminum, they were bought in Paris in 1879 by a young American engineer who wanted to bring home to his fiancée the costliest gift he could find. Aluminum then cost more than silver or gold, and he took them even in preference to platinum because he felt in the long run they would prove costlier. But only a few years later another young man, just out of Oberlin college, found a way to make aluminum inexpensively. Today the lightweight metal, selling but for 19 cents a pound, has more than 2,000 uses in industry and the home. And the opera glasses are a museum piece, a monument to the scientific research and industrial progress which has made them valuable only as an heirloom.
