CANDIDATES

One fine thing about our country is that every man who feels he is qualified in various and sundry ways by natural and acquired gifts to save his country by running for office, may run. There is no law against it. Of course there is the rub of public opinion that the general election may rub him out, but he may run just the same.

We are thinking particularly of a citizen down in Johnston county that has just announced his candidacy for the State Senate. We refer to Adam Whitley, a Christian citizen we have known for many years, a man who takes a deep interest in everything that will upbuild and benefit his community or the public at large. He very positively states his attitude toward what we believe is the

most important matter coming before the next General Assembly as it relates to the moral interests of the state just now—the liquor evil as protected and promoted by the ABC stores.

In Mr. Whitley's announcement he says: "I am unalterably opposed to the ABC system. The Legislature did not play fairly with the people of North Carolina when it voted to permit liquor stores to operate in the state without first letting the people decide whether they wished to abandon prohibition."

Whitley's platform is ours and that of thousands of other citizens of Carolina. Whether candidates know it or not there is a strong tide flowing towards the polls to de-

feat every man running for membership in the next General Assembly who is not both personally dry and is ready to support the effort to overthrow the drink evil as found in the present beer joints and liquor stores. No candidate will get our vote knowingly who does not subscribe to the tenets of the Allied Church League in its campaign for temperance and sobriety.

CHAMBERS ANTI-SKIPPER COMPOUND

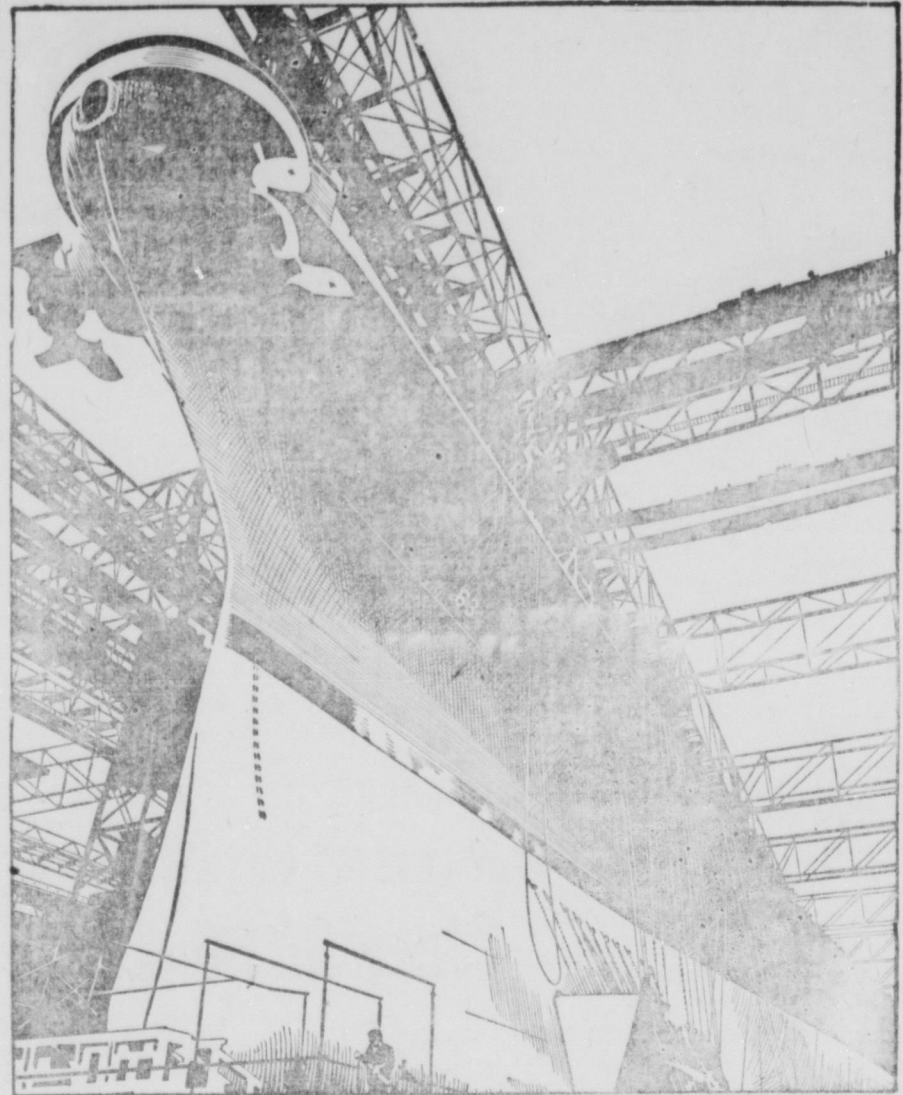

is sold by most druggists and grocers with money back guarantee if it fails to prevent skippers in cured meat. If you do not know your local dealer write

HERE'S ONE BIG REASON

WHY TELEPHONES ARE SCARCE

It's THE NEW 45,000-ton U. S. S. Missouri, most powerful fighting ship afloat. It will carry about 1200 telephones, 350 miles of telephone wire, and a ship-wide battle announcing system.

Remember that Uncle Sam launched 568 warships last year and as new war fronts are opened and present ones extended, the Army and Navy's telephone equipment needs grow in volume and urgency.

Normally, we have reserve telephone facilities. But since the National Defense program started in 1940, the number of Southern Bell telephones in service has increased by more than half a million. The reserves are about used up.

There's a waiting list now—and we're doing everything possible to keep that list from getting longer.

For example, telephone instruments and other equipment that can be reused are being repaired and renovated and put back into service.

If you haven't been able to get a telephone, we're sorry. And you can be sure that we are eager to fill your order as soon as we can.
