UP NORTH—DOWN SOUTH

Last week a big strike in Philadelphia in the Transit system tied up almost everything for three days. The army had to take over. The C. I. O. members all unanimously walked out because the company was about to try out eight Negroes as operators. Yet all this occurred above the Mason and Dixon line, where the champions against race discrimination and for social equality for the Negro live. Some day the black man will learn that his best friend is among Southern whites.

AFTER ALL, WHAT'S THE DIFFERENCE?

In the recent theft of 15 cases of liquor from the Zebulon ABC store, in which some local young men are accused of participating, there arises a question well worthy of the serious consideration of every citizen. Taken in its total significance and consequences, which is worse: for some young man to enter illegally and carry off what whiskey they want, or for the State to sell the same liquor to any man or woman who has the price? The only difference, as we see it, is that the boys did it illegally, while the county did it within the law. Viewing the question from the moral standpoint, just as long as the State acts as the agent of the liquor manufacturers in dispensing drink to its citizens, so long will it be indirectly responsible for every crime resulting from the sale and use of drink within our land.

The young men stole instead of buying the liquor from the store. No doubt their object was profit. The ABC store keeps it for the same purpose. The chief difference lies in that between "steal" and "sell", for the motive in each case would bring the same ultimate direct and indirect results as always come from the use of intoxicating drink. The State should go lightly with any of its citizens who get involved in the toils of the law because of liquor just so long as it is the dispensing agent.

They are patient about waiting

because those Long Distance calls mean so much

A soldier has to line up for a lot of things but we don't like to see him wait too long for a Long Distance call.

Would you mind helping a little by saving the wires from seven to ten for the service men?

That's when thousands of soldiers rush to the telephones at the camps and we'd like to give them first call on Long Distance.

Southern Bell Telephone and Telegraph Company
INCORPORATED

COLD WAVE (new permanents) \$10 to \$15
MRS. ALLEEN BROWN, Owner
Over Drug Store Zebulon, N. C.

Where were you on the night of August 1, 1929?

Could you remember, if you were squirming on the witness stand? Probably not. 15 years is a long time.

Maybe, being August first, you were writing checks to pay the monthly bills. Do you remember how much you paid for electricity?

That's a tough one, too, isn't it? Actually, if yours is an average household, your electric bill may have been a little less then than it is now.

But today you're getting twice as much electricity for your money!

How come? Well, while the price of electricity was coming down, your use of electricity was going up. You have a lot more electric appliances in 1944 than you had in 1929. But you enjoy all these added comforts at little, if any, added cost!

Even if you're hazy about everything else that's happened in the last 15 years, remember this wartime bargain. It's due to hard work by all our people — and sound business management.

CAROLINA POWER & LIGHT COMPANY

Don't Waste Electricity Just Because It Isn't Rationed
