HELPING TO FINISH THE JOB

Thousands upon thousands of vital war calls go
 over the Long Distance wires every day and night.
 Sometimes there's a rush on certain lines.

When your call is on a crowded circuit, you will
 help Long Distance keep things moving if you'll
 co-operate when she says, "Please limit your call
 to 5 minutes."

PLEASE — MR. FARMER Help Yourself and Your Neighbor

IT'S important to most of you that you cut cord
 wood during this season. And it's your pa-
 triotic duty to cut as much pulpwood as you can.
 We're for you. We know this work is hard, and
 that you're doing it shorthanded. Electric service
 is important, too. And when it is interrupted it
 takes hard work by shorthanded crews to re-
 store it.

So, in your interest, and the interest of neigh-
 bors along your electric lines, won't you use
 special care in cutting trees? Try to keep them
 from falling across wires. But if a falling tree gets
 out of control and does break a wire, please notify
 us at once. Then we'll know exactly where to find
 the broken wire. We will be able to restore elec-
 tric service faster.

We are making this plea to you because we
 know you and your neighbors are dependent
 upon electricity for a lot of important services . . .
 refrigeration to keep fresh meats and other foods,
 water pumping to save time and labor, wood saw-
 ing, feed chopping, radio, and still others. So you
 are not just helping us at a time when we too are
 shorthanded, but you help yourself and neigh-
 bors along your line.
