remedy this situation was discussed. One solution offered by Dr. L. M. Massey was that a committee be formed to secure a man or men who will make concrete blocks to be used in Zebulon. When put before the group for action, it was unanimously voted to adopt the measure. The existing building material committee is to take this as one of their duties, that is, to investigate the possibilities of interesting someone in the manufacture of concrete blocks. This committee is to report at the next meeting.

Oliver Glover, a committee of one, who is offering his services in assisting people to obtain home loans as well as repairs to home loans, reports that he has some prospects who have contacted him relative to new homes in Zebulon. He stated that he was glad and willing to assist these people in any way possible.

Chairman Davis discussed securing new highways coming into and through Zebulon. T. B. Davis, Sr., motioned and Vaden Whitley seconded the motion that a permanent committee be appointed to watch and study this. This motion was accepted 100 percent and Chairman Ferd Davis appointed the following men to serve on this committee: Avon Privette, Chairman, E. C. Daniel, Dr. L. M. Massey, Walter Page, Pittman Stell.

A committee was appointed to lead the discussion and to suggest plans for aiding returning veterans in securing jobs, going into business, and securing homes in which to live. Chairman Davis appointed Dr. L. M. Massey, Chairman, R. H. Bridgers, Vaden Whitley, and G. J. Griffin to serve on this committee.

George Griffin exhibited moving pictures which were taken from an

Here's another view of that mechanical cotton picker we wrote about last week. It's still doing a swell job of picking.

airplane by Barrie and Ted Davis showing the community and town of Zebulon from the air. These pictures were most interesting and it was surprising to the writer what a large town Zebulon is and how beautiful it is from the air. From these pictures it was easily seen that Zebulon has a large number of vacant lots.

Mr. Griffin also ran a colored film showing various landmarks in Zebulon as well as a lot of well known people. These pictures were very good and apparently everyone enjoyed the show.

Coming—

**RHAPSODY IN BLUE**

## HERE'S PEACETIME BUSINESS

The magic of the mind is imagination. Imagination transformed America from a wilderness to the greatest industrial and agricultural power on earth. Imagination—plus courage and determination beat the Germans and the Japs.

Imagination will help win the peace, too. For winning the peace can be summed up in one word, *prosperity!* Yes, prosperity for all and prosperity means jobs. Who makes jobs?

They come from American enterprise. And the Telephone Company is proud to be a part of that enterprise. Because thrilling days lie ahead—big days that mean future prosperity for North Carolinians.

The 3,712 men and women of the Telephone Company in North Carolina are now putting into effect the greatest expansion program in their history in this state, calling for an expenditure of millions of dollars. Their imagination did not go to sleep during the war years. It remained awake at the drawing boards.

Blue prints are leaping to life with telephones for all who have been waiting for them, just as fast as we can secure the equipment. This is one of our top jobs! Telephones for our farmer and rural friends are also being swiftly scheduled. A greatly expanded long distance service is in process, too. It will include the installation of coaxial cables so we can handle more calls with greater speed and convenience for you, and provide more facilities for television. A lot of construction is to be done and a new service to motor vehicles is also in the offing.

What does it all mean? For one thing, it means a continuation of the pleasant, progressive partnership of the people of North Carolina and the people of the Telephone Company. Telephone folks are happy to be a part of this vast program that will lend so much impetus to the state's own industrial and agricultural expansion plans. As we see it, the future beckons North Carolina with a busy, prosperous hand!
