LEGION MEETING

Philip Whitley, Philip Bunn and Ben Hilliard, members of the committee staging the Ladies' Night of the local American Legion post Monday, October 20, stated yesterday that plans are virtually complete for the affair.

A supper will be served before the program, and tickets will go on sale next week. Several stores in both Zebulon and Wendell will carry the tickets for the Wendell-Zebulon post.

COLORED NEWS

By Joel Christman

The next meeting of the Jamse Rogers Post 363 of Zebulon will be held at the Zebulon First Baptist Church Monday night Oct. 6. at 8:00. We are asking all Veterans and Legionnaires to be present.

Mrs. Cora Baker died Sept. 25, at 4:00 p. m. She was born in the year of 1869. She was 77 years old.

Funeral services were held at the Beaver Chapel Christian Church Saturday afternoon at 3:00 p. m.

Survivors are two sons and one daughter, Mr. Hulda Baker of Zebulon, Mr. Joe David Baker and Mrs. Maggie Brannon both of Baltimore, Maryland.

She has been a member of Beaver Chapel Christian Church for a period of 48 years and was living in this section of this commun-

ity when the town of Zebulon was first built.

We wish to thank the people of Zebulon as well as people of other communities for their splendid cooperation in sending flowers and offering their help in the funeral services of our mother Mrs. Mary Hart.

Miss Martha Ann Hart

Extra-curricular activities for the school year began on Monday with registration taking place in the various home rooms. Among the activities listed were: basketball, music, dramatics, physical education, and public speaking. A representative number of students have registered for these activities. Public speaking is being presented as an activity this year for the first time since the program was begun. Students will be introduced to the various means of speech presentation and will receive practical experience in speaking before groups. The di-

rectors of the group are Miss Stewart, Miss Williams, and Mr. Farrar.

A large number of boys are registered in the music division. This, too, is quite an innovation at Shepard School. Last year's group was an all-girl aggregation. It is hoped that all students will participate in and profit from this activity program.

—C. P. Farrar.

**... HOW IT CURES HIGHER-GRADE
TOBACCO... INCREASES PROFITS!**

- ★ Better Control Of Heat And Humidity
- ★ Reduces Curing Time By As Much As 24 Hours
- ★ No Cold Corners Or Slow Drying Spots
- ★ Protects Against Fire And Lightning Losses
- ★ Completely Erected On Your Farm By Trained Crew

HERE IS THE TOBACCO BARN that growers everywhere have been looking for. This new EVERWEAR barn with its double aluminum walls makes possible accurate control of temperature . . . accurate control of humidity . . . so that you can cure higher-grade tobacco every time—with less effort—at less cost.

Reduces Curing Time by as much as 24 Hours!

With an EVERWEAR All-Aluminum Tobacco Barn, you can finish each cure up to 24 hours faster. Growers report that tobacco yellows 5 to 6 hours faster . . . killing time is reduced by 25% or more . . . and ordering time is reduced 8 hours or more. All of which adds up to speedier curing—less barns needed—more profit on the crop.

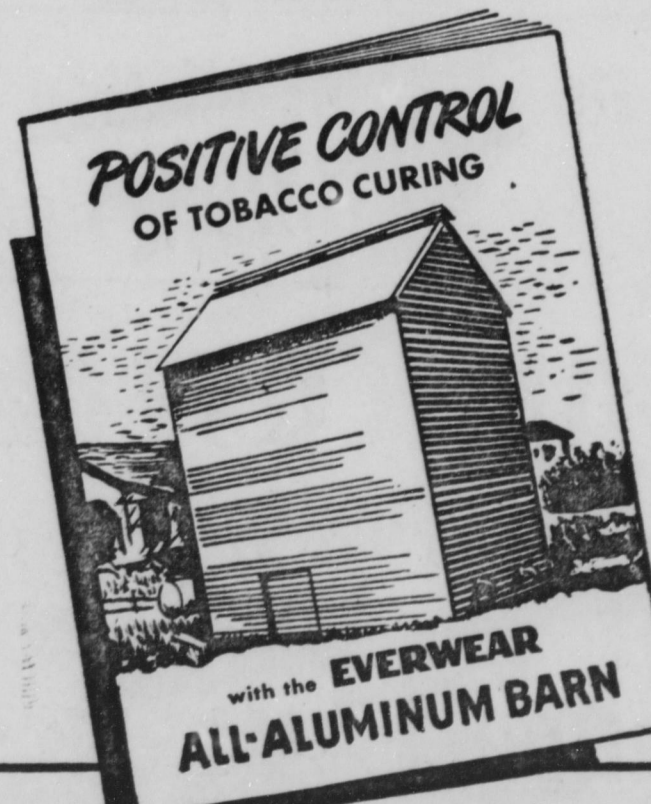

A Lifetime Barn!

An EVERWEAR All-Aluminum Barn cannot be weakened by age or heavy tobacco loads. Structural members have been carefully engineered to resist all strains and stresses involved in loading and curing tobacco. The All-Aluminum barn will not sag, rot, rust, or warp. It cannot be damaged by rats, termites, or other insects. It doesn't have to be painted. It cuts down losses caused by lightning and fire . . . saves up to 25% on insurance. It saves in every way—does better work—puts extra profits in the pockets of tobacco growers!
