### CITIZENS OF TOMORROW

The children of today are the citizens of tomorrow, on whose shoulders will rest the burden of straightening out the problems of the world. We have tried again and again to achieve a lasting peace, only to find ourselves on the brink of yet another war.

In the group of pictures at the left, Woltz Studios captured the bright faith in the future that belongs to a child. Never having experienced failure, they stand ready to try what we term the impossible.

Citizens of tomorrow, we salute you!
