

THE WAGES OF CARELESSNESS

Here lie the remains of a driver who thought he could drink and still drive a car. Racing down the highway at a dangerous speed, his car wandered off the edge of the pavement, dragged on the sandy shoulder, and was wrenched into a spin. Drunken drivers are potential murderers of every other motorist who comes near them on the road. They were involved in more than 5,000 fatal accidents last year. National Conservation Bureau safety specialists say even one or two drinks slow up reactions, make judgment unsure, increase chances of accident three to four times.

Five Small Girls Saved from Drowning

Quick rescue work by Ep Wiggs saved the five girls from possible drowning. They were Peggy Lewis, Patsy Brantley, Mener Moody, Camille Lewis and Madgelene Lewis.
