

**THIS PICTURE FOR BACHELORS ONLY**

We are still carefully keeping our records, but our campaign to lessen the number of bachelors is not going so well. We're now resorting to propaganda in an effort to arouse these benedicts; and, as the Chinese say, one picture is worth 1,000 words. Our own estimate of the above photo: 1,000,000 words.

Gals, we got so many of the wild critters in the pen that you shouldn't have the slightest bit of trouble looking them over and taking your pick. Of course, it could be that you feel like the gal who looked over the list, wrinkled her nose, and snorted: "if that's all I have to choose from I'll die an old maid!"

The list is growing by leaps and bounds—mostly leaps, I reckon, since this is Leap Year. Anyhow, we'll keep track of it and publish the full list once a month.

Marathon — the famous money saving tire is back in the Goodyear line — and a better "buy" than ever! Back with the economy, long mileage and safety — the extra value for your dollars that made Marathon the favorite of millions of motorists before the war . . . back with more and stronger cords in the rugged tire body for even greater protection against tire failure. Look at these features . . .

**LONG WEAR** — New specially treated cords and newly compounded rubber make Marathon the tire that "runs and runs and runs".

**NON-SKID SAFETY** — Those famous Goodyear diamond blocks really grip the road. You get safer, quicker stops — especially on wet, skiddy roads.

**"COMPACTING TREAD"** — Inflation forces the side-walls out, compacts the tread. This reduces tread wear, punctures, bruises and breaks.

For a really sensational "buy" in tires, see us for Marathons today! And remember "new tubes save tires".
